Voices from the Past 1885 this book provides detailed systematic micro level analysis of the historical development of the Chinese banking industry focusing in particular on the development of the Bank of China (BOC) in the period 1905 to 1949. Banking reform is a key area of China's economic transformation and this book, bringing a vast amount of material to a Western audience for the first time, provides a detailed evidence of the key challenges faced by a major Chinese bank. The book addresses important issues in its evolution including corporate governance, government intervention, foreign competition, and white collar crime. It evaluates how the challenges in these areas were met, considers the results of its efforts, and draws lessons for policy making today.

Puck 1893 business models for sustainability breaks new ground by combining three important insights first achieving sustainability requires socio technical transitions that entail new technologies production processes lifestyles and consumption patterns second firms play crucial roles in mediating between sustainable production and consumption third radical innovations require organizational innovations and new business models peter wells successfully combines these big

picture ideas with rich in depth case studies drawing on years of accumulated expertise highly recommended frank w geels university of manchester uk and chairman of the sustainability transitions research network with increasing awareness that innovative technology alone is insufficient to make sustainable lifestyles a reality this book brings into sharp focus the need to create radical new business models this insightful book provides a theoretically grounded but also realistic account of how the design of business models can be a critical component in the overall transition to sustainability and one that transcends the usual focus on innovative technology weaving together key principles and components for business sustainability the book highlights five very different pathways to the future for sectors ranging from microbreweries and printing through to clothing mobility and plastics business has only just started the first few tentative steps towards a very different approach to creating and sustaining value but this book concludes that enormous opportunities will emerge alongside new ways of creating and capturing value academics and postgraduate students in the fields of sustainable business business organisations and industrial ecology will find this book brings a greater understanding of business strategy and structure to the discipline while traditionally referenced and structured this academic book is accessibly written with key principles that may also appeal to the consultant community
