as two girls fight to stay together and change the world after their escape from military custody loup garron and her girlfriend pilar have a chance to reinvent their lives thousands of miles away from the forgotten and disenfranchised texas border town and military zone of santa olivia thanks to loup s genetically engineered gifts of strength speed and an innate fearlessness as well as pilar s unexpected skill with a pistol they find new careers as high priced bodyguards for a world famous british rock band back in the states an investigation into the existence of santa olivia also known as outpost 12 begins in washington d c when the key witness with evidence to expose the military cover up their old comrade miguel vanishes the case seems lost the abandoned citizens of santa olivia need a champion a voice raised on their behalf which pushes loup and pilar into a hard choice if loup returns to u s soil she ll be an outlaw if she s caught she ll be taken into custody again and this time there may be no escape but if she and pilar don t fight for the freedom of those they left behind no one will the boys who bring in the crop is a mostly true story about a group of amateur marijunana smugglers who operated out of florida in the mid seventies these guys really had some cajones they did their thing right under the noses of the law they made seven flights to colombia and back and never got caught partly because they were smart and planned well partly because of dumb luck the book is fast paced it all takes place in less than one year along the way there is plenty of adventure not everything goes as planned there is some romance thrown in these guys knew how to enjoy life with the piles of money they accumulated depeche mode s 101 is at first glance a curious thing a live double album by a synth band a recording of its concert for the masses 101 marks the moment when doomy cultish electronic depeche mode despite low american album sales and a lack of critical acclaim declared they had arrived and ascended to the rare air of stadium rock on june 18 1988 65 000 screaming singing southern californians flocked to pasadena s rose bowl to celebrate dm s coronation the concert also revealed the power of southern california radio station and event host kroq which had turned los angeles into dm s american stronghold through years of fervent airplay kroq s innovative format which brought new music to its avid listeners soon spread across the country leading to the explosion of alternative rock in the 1990s eight years after its founding in basildon essex depeche mode rooted in 1970s krautrock combined old fashioned touring well crafted songs and the steadfast support of kroq to dominate southern california the united states and then the world kicking open the doors for the likes of nirvana in the process 101 is the hidden in plain sight hinge of modern music history a compelling account of the air war against germany written by the navigator portrayed by anthony boyle in apple tv s masters of the air publishers weekly they began operations out of england in the spring of 43 they flew their flying fortresses almost daily against strategic targets in europe in the name of freedom their astonishing courage and appalling losses earned them the name that resounds in the annals of aerial warfare and made the bloody hundredth a legend harry h crosby depicted in the miniseries masters of the air developed by tom hanks and steven spielberg arrived with the very first crews and left with the very last after dealing with his fear and gaining in skill and confidence he was promoted to group navigator surviving hairbreadth escapes and eluding death while leading thirty seven missions some of them involving two thousand aircraft now in a breathtaking and often humorous account he

takes us into the hearts and minds of these intrepid airmen to experience both the triumph and the white knuckle terror of the war in the skies affecting a vivid account uncommonly thoughtful recollections that address the moral ambiguities of a great cause without in any way denigrating the selfless valor or camaraderie that helped ennoble it kirkus reviews re creates for us the sense of how it was when european skies were filled with noise and danger when the fate of millions hung in the balance an evocative and excellent memoir library journal the acrid stench of fear and cordite the coal burning stoves the heroics the losses this has to be the best memoir i have read bar none george hicks director of the airmen memorial museum
