european powers and then with the united states in order to retain their lands govern themselves support their people and pursue practices that have made their lives meaningful going beyond the stereotypes that so often distort our views of native americans this very short introduction offers a historically accurate deeply engaging and often inspiring account of the wide array of native peoples in america about the series combining authority with wit accessibility and style very short introductions offer an introduction to some of life s most interesting topics written by experts for the newcomer they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics from philosophy to freud quantum theory to islam authentic north american short stories enhance students reading skills language learning and enjoyment of literature the instructor s manual for discovering fiction student s book 2 provides further information about the stories teaching suggestions and an answer key in addition a useful brief synopsis of each story is provided in the elements of a short story section the atlas of north american english provides the first overall view of the pronunciation and vowel systems of the dialects of the u s and canada the atlas re defines the regional dialects of american english on the basis of sound changes active in the 1990s and draws new boundaries reflecting those changes it is based on a telephone survey of 762 local speakers representing all the urbanized areas of north america it has been developed by bill labov one of the leading sociolinguists of the world together with his colleagues sharon ash and charles boberg the atlas consists of a printed volume accompanied by an interactive cd rom the print and multimedia content is also available online combined edition book and multimedia cd rom the book contains 23 chapters that re define the geographic boundaries of north american dialects and trace the influence of gender age education and city size on the progress of sound change findings that show a dramatic and increasing divergence of english in north america 139 four color maps that illustrate the regional distribution of phonological and phonetic variables across the north american continent 120 four color vowel charts of individual speakers the multimedia cd rom supplements the articles and maps by providing a data base with measurements of more than 100 000 vowels and mean values for 439 speakers the plotnik program for mapping each of the individual vowel systems extended sound samples of all north american dialects multimedia applications to enhance classroom presentations online version book and cd rom content plus additional data the online version comprises the contents of the book and the multimedia cd rom along with additional data it presents a wider selection of data maps and audio samples that will be recurrently updated proffers simultaneous access to the information contained in the book and on the multimedia cd rom to all users in the university library network provides students with easy access to research material for classroom assignments for more information please contact mouton de gruyter customerservice degruyter com system requirements for cd rom and online version windows pc pentium pc windows 9x nt or xp at least 16mb ram cd rom drive 16 bit soundcard svga 600 x 800 resolution apple mac os 6 or higher 16 bit soundcard at least 16mb ram supported browsers internet explorer 5 5 or 6 mac os internet explorer 5 1 netscape 7 x or higher mozilla 1 0 or higher mozilla firefox 1 0 or higher plugins macromedia flash player 6 acrobat reader 4 0 or higher

discovering fiction is a two level reading series that introduces students to authentic american literature student s book 2 is an anthology of eighteen short stories by contemporary and classic american authors including kate chopin ernest hemingway langston hughes and shirley jackson the stories have universal appeal that will touch students and make them think designed for high intermediate to advanced students the text provides interactive integrated skills lessons developed around each story pre reading sections include prior knowledge questions author biographies discussions of literary terms and reviews of idioms and expressions found in the stories accompanying grammar exercises help students overcome such trouble areas as prepositions articles and irregular verbs also included are vocabulary sections reading comprehension questions and thought provoking discussion and writing topics review sections tie the stories together and provide review tests in an age of minimalist fiction here are the most minimal of all 50 stories that range in length from 200 to 2000 words written by some of america s most accomplished and most promising authors four minute fictions is a rich assortment of the best short short stories from one of america s most respected literary quarterlies the north american review book jacket north american icelandic evolved mainly in icelandic settlements in manitoba and north dakota and is the only version of icelandic that is not spoken in iceland but north american icelandic is a dying language with few left who speak it

north american icelandic is the only book about the nature and development of this variety of icelandic it details the social and linguistic constraints of one specific feature of north american icelandic phonology undergoing change namely flámæli which is the merger of two sets of front vowels although flámæli was once a part of traditional icelandic it was considered too confusing and was systematically eradicated from the language but in north america flámæli use spread unchecked allowing the rare opportunity of viewing the evolution of a dialect from its birth to its impending demise north american psocoptera provides a complete review of the 28 families 78 genera and 287 species of the order psocoptera found in the united states and canada this comprehensive book contains keys to all of the known taxa of psocoptera which have been found in the study area including three genera named as new not only are the native and established species included but also those which have been taken at ports of entry in human commerce the book contains differential diagnoses of the taxa above species level for each named species there is an account consisting of synonymy recognition features relationships distribution and habitat included are 119 pages of illustrations glossary bibliography and index handbook 10 of the fauna and flora series the north american industry classification system naics is the standard used by federal statistical agencies in classifying business establishments for the purpose of collecting analyzing and publishing statistical data related to the u s business economy it is a joint work between the united states canada and mexico that allows a high level of comparability between the countries the naics officially replaced the sic standard industrial classification system in 1997 the publisher has included the sba size standards table as an appendix at the back of this book to assist users of the data should you have suggestions or feedback on ways to improve this book please send email to books.ocotillopress.com if you would like to order a copy of this book as a 3 ring punched looseleaf print please contact books.ocotillopress.com systematic account of the results of a survey made in 1936 and 1937 to aid supervision of the aleutian islands national wildlife refuge ab60374 reprint of the original first published in 1883 drawing on data from well known actors in popular films and tv shows this reference guide surveys the representation of accent in north american film and tv over eight decades it analyzes the speech of 180 film and television performances from the 1930s to today looking at how that speech has changed how it reflects the regional backgrounds gender and ethnic ancestry of the actors and how phonetic variation and change in the real world have been both portrayed in and possibly influenced by film and television speech it also clearly explains the technical concepts necessary for understanding the phonetic analysis of accents providing new insights into the role of language in the expression of north american cultural identity this is essential reading for researchers and advanced students in linguistics film television and media studies and north american studies as well as the larger community interested in film and television merging selected approaches to comparative north american studies with detailed textual analyses this book studies works of writers as diverse as ernest hemingway joyce carol oates tim o brien and margaret atwood topics include comparative approaches to the north american modernist short story narratives of the canada us border and north american reviews of atwood s novels relied on by expert and beginning climbers for more than fifty years teaches climbers what not to do this annual investigative handbook offers detailed reports on more than eighty climbing accidents that occurred in the united states and canada in 2000 produced jointly by the safety committees of the american alpine club and the alpine club of canada accidents analyzes what went wrong in each situation to give experienced and beginning mountaineers the opportunity to learn from other climbers mistakes from climbers with inadequate protection clothing or equipment to those who suffered from a lack of experience made errors in judgment or overreached their abilities the mistakes recorded in this book offer invaluable safety lessons for all climbers this thoroughly revised and updated edition of a classic reference work is the definitive guide to the identification of the parasites of freshwater fishes of north america the book provides information on public health concerns about fish parasites the methods used to examine fish for parasites and those parasites found only in very selective organs or tissues it lists the known species of each genus along with reference citations that enable readers to find literature pertinent to species identification life cycles and in some cases control this zoology book was written in the mid 20c by the well know biologist and it deals with migration of various bird species that occupy the territory of north america the notion of migration was something that always interested scientists and this book reveals many facts about this phenomenon featuring 37 essays by distinguished literary scholars a companion to the american novel

provides a comprehensive single volume treatment of the development of the novel in the united states from the late 18th century to the present day represents the most comprehensive single volume introduction to this popular literary form currently available features 37 contributions from a wide range of distinguished literary scholars includes essays on topics and genres historical overviews and key individual works including the scarlet letter moby dick the great gatsby beloved and many more an experimental non linear novel about north american life it consists of short stories sketches moments scenes bits and pieces dialogue ideas letters etc fragments that create a bigger story random things that tie into the theme of north american people and culture in general if you could go on a long road trip and grab large handfuls of north american life at random and throw em all into a blank book this is the book that would result what does the great american novel mean in this era what can the novel still do that other art forms cannot meaninglessmagazine.com
