long obscured by modern definitions of historical evidence and art patronage Lucrezia Tornabuoni de' Medici's impact on the visual world of her time comes to light in this book the first full length scholarly argument for a lay woman's contributions to the visual arts of fifteenth century Florence this focused investigation of the Medici family's domestic altarpiece Filippo Lippi's adoration of the Christ child is broad in its ramifications mapping out the cultural network of gender piety and power in which Lippi's painting was originally embedded author Stefanie Solum challenges the received wisdom that women played little part in actively shaping visual culture during the Florentine quattrocento she uses visual evidence never before brought to bear on the topic to reveal that Lucrezia Tornabuoni shrewd power broker pious poetess and mother of the magnificent Lorenzo de' Medici also had a profound impact on the visual arts Lucrezia emerges as a fascinating key to understanding the ways in which female lay religiosity created the visual world of Renaissance Florence the Medici case study establishes at long last a robust historical basis for the assertion of women's agency and patronage in the deeply patriarchal and artistically dynamic society of quattrocento Florence as such it offers a new paradigm for the understanding and future study of female patronage during this period

initially a populist rebellion against the established Protestant churches Evangelicalism became the dominant religious force in the country before the Civil War but the Northerners and Southerners split over the issue of slavery after the Civil War the Northern Evangelicals split eventually causing a conflict between fundamentalists and modernists only after the Second World War would conservative Evangelicalism gain momentum thanks in large part to Billy Graham's countrywide revivals Fitzgerald shows how the conflict between religious conservatives and others led to national culture wars and a Southern Republican stronghold and how a new generation of Evangelicals is challenging the Christian Right by preaching social justice and the common good Fitzgerald suggests that because Evangelicals are splintering America the most religious of developed nations will eventually look more like secular Europe

russian orthodoxy resurgent is the first book to fully explore the expansive and ill understood role that russia s ancient christian faith has played in the fall of soviet communism and in the rise of russian nationalism today john and carol garrard tell the story of how the orthodox church s moral weight helped defeat the 1991 coup against gorbachev launched by communist party hardliners the soviet union disintegrated leaving russians searching for a usable past the garrards reveal how patriarch aleksy ii a former kgb officer and the man behind the church s successful defeat of the coup is reconstituting a new national idea in the church s own image in the new russia the former kgb who run the country vladimir putin among them proclaim the cross not the hammer and sickle meanwhile a majority of russians now embrace the orthodox faith with unprecedented fervor the garrards trace how aleksy orchestrated this transformation positioning his church to inherit power once held by the communist party and to become the dominant ethos of the military and government they show how the revived church under aleksy prevented mass violence during the post soviet turmoil and how aleksy astutely linked the church with the army and melded russian patriotism and faith russian orthodoxy resurgent argues that the west must come to grips with this complex and contradictory resurgence of the orthodox faith because it is the hidden force behind russia s domestic and foreign policies today
