J. J. Griesbach: Synoptic and Text - Critical Studies 1776-1976 2005-10-06

an authoritative account of the life and work of johann jakob griesbach

Current Economic Issues, Tenth Edition 2006-04

the economic news of the last several years has been remarkable from the collapse of the new economy to the buildup of a war economy ballooning house prices and proposals to privatize major government programs the tenth edition of current economic issues is an invaluable tool for understanding the real world economics behind the headlines its 47 articles offer progressive perspectives on major economic news stories debunking dozens of myths broadcast by the business press along the way the book starts with an examination of the recent economic recovery and explains why so many have been left out of it at the same time that others have made a killing it takes a close look at the factors that havemade labor organising more difficult from new laws and regulation to the rise of wal mart three chapters scrutinize the impact of the bush administration s fiscal policies including rollbacks in social spending efforts to privatize social security and medicare and recent tax cuts later chapters uncover the reality behind hot button issues like offshoring the falling dollar energy policy and the rise of china s export economy the final chapters look at the uneven impact of natural disasters environmental degradation and epidemics the book concludes with examples of underreported efforts to advance economic alternatives the sharply written well researched articles are drawn from the pages of dollars sense the bimonthly magazine of popular economics

American Conservatism 2008-12-18

american conservatism history theory and practice from brian r farmer is a history of conservatism in the united states that illuminates the odyssey of american conservatism beginning with the pilgrims and puritans of the early colonial period and proceeding through the revolutionary era the antebellum period the age of laissez faire post depression conservatism the reagan era and concluding with the

ideologies and policies of the george w bush administration arguably the most ideologically driven conservative administration in american history conservatism in general and the multiple facets of conservatism are defined and the political socialization process that produces and perpetuates political ideologies in general and conservatism in particular are presented to lay the groundwork for the rich history of american people policies and events that have surrounded those conservative ideologies that follows farmer provides a tool for those interested in american politics in general and american conservatism in particular with a tool that helps explain the historical development of american ideological conservatism both in a theoretical sense and in a policy sense and thus draws a connection between the american past and what must be considered an exceptional conservative american administration even by american standards under george w bush farmer illustrates that the basic ideological underpinnings that have driven the bush administration that have generally been viewed by europeans as exceptional have been present in american politics since its earliest colonial beginnings with the puritans and been carried forward by the ideological descendants of the puritans from that time through the present in essence the form of american conservative exceptionalism exhibited during the bush administration was present in american politics from the very beginning and has continued through the present albeit in a more extreme form since the traditional ideological conservatives currently dominate all three branches of the american government and the terror attacks of 9 11 allowed them to garner popular support for their exceptional programs

EBOOK: Public Finance, Global Edition 2014-01-16

rosen and gayer s public finance provides the economic tools necessary to analyze government expenditure and tax policies and along the way takes students to the frontiers of current research and policy while the information presented is cutting edge and reflects the work of economists currently active in the field the approach makes the text accessible to undergraduates whose only prior exposure to economics is at the introductory level the authors years of policy experience have convinced them that modern public finance provides a practical and invaluable framework for thinking about policy issues the goal is simple to emphasize the links between sound economics and the analysis of real world policy problems enhancements and key features for this new global edition include new policy perspectives introduce relevant and engaging examples of international policy so students can extend their understanding of theory to policymaking across the globe new empirical evidence applications provide students with real world examples that are relevant to them from case studies about sweden and china to global examples that compare experiences between countries updated end of chapter questions broaden critical thinking encouraging students to apply their knowledge to international and comparative examples the results of econometric models are used to help students understand how expenditure and tax policies affect individual behavior and how governments set policies integrated theory and analysis institutional theoretical and empirical material is interwoven to provide students with a clear and coherent view of how government spending and taxation relate to economic theory current research is presented alongside discussion of methodological and substantive controversies the approach is modern theoretical and empirical and shared by most active economists institutional and legal settings are described in detail and the links between economic analysis and current political issues are emphasized this global edition has been adapted to meet the needs of courses outside of the united states and does not align with the instructor and student resources available with the us edition
