ralph morris guide to the island of anglesey and the north wales coast was first published over 30 years ago at that time it covered little more than the island itself over the years the pilot has been extended and it now provides information about tides dangers harbours and anchorages from liverpool marina to

aberdovey the same waters covered by imray s 2700 chart pack plus the author s own chart graphics this fully updated tenth edition is full colour with chart graphics aerial views and nearly 100 original photos it also makes reference to the most noteworthy event in recent years the wholesale destruction of holyhead marina by storm emma in march 2018 ralph morris learned his way around anglesey the hard way in a day boat with a single chart and a compass which one day chose to fail in fog that s not the only thing which prompted the decision to write this pilot though the prime mover was the increasing scarcity of henry glazebrook s anglesey north wales coast pilot which got him out of many tight corners the detail and precision of glazebrook s anglesey north wales coast pilot is legendary and through this guide the author hopes to maintain its accessibility to all yachties sailing these waters
