2023-09-06

this book features the empirical work of internationally known scholars providing an in depth examination of the overlap between online and offline victimization and offending the vast expanse of the internet has provided a limitless playground for offenders to prey on those unaware of their predators or well as those who are intimately familiar with their offenders however the internet does not isolate offenders into mutually exclusive categories instead it has allowed many offenders to use both offline and online platforms to commit crime it also opened up more opportunity for violation of victims this volume features two divisions of the american society of criminology the division of victimology and division of cybercrime who have joined forces to sponsor a special issue on the overlap between forms of online and offline victimization and offending international scholars in this book provide a notable spectrum of different forms of this phenomenon as well as predictors of these behaviors the link between specific forms of online and offline victimization will be a key resource for academics researchers and advanced students of victimology cybercime criminology and criminal justice the chapters included in this book were originally published in victims offenders

Online and Offline Modulators of Motor Learning

2017-05-25

both the acquisition of new and the modification of previously acquired motor skills are necessary to achieve optimal levels of motor performance in everyday functioning as well as to attain expert performance levels that are evident in sports and arts a multitude of factors have been shown to influence the various stages of the learning process from the acquisition i e motor memory encoding to the consolidation and subsequent retention of a skill these factors or modulators can affect learning through online processes taking place during practice of a new motor skill or through offline processes occurring in the absence of task performance i e after training sessions although much of the recent research from various disciplines has placed an increased emphasis on identifying factors that can influence the motor learning process we lack an integrated understanding of online and offline determinants of motor skill behaviours potential motor learning modulators include but are certainly not limited to stress anxiety attention executive functioning social interaction stimulus response mapping training schedule regimen learning environment vigilance consciousness states including sleep wakefulness or meditation brain stimulation interference as well as resting state brain connectivity pathological and non pathological i e development or aging changes in the brain can also be conceptualized as potential modulators the aim of this research topic is to bridge research from the cognitive sensory motor and psychological domains using various behavioural paradigms and neuroimaging techniques in order to provide a comprehensive view of the online and offline modulators of motor learning and how they interact to influence motor performance critically the overarching goal is to gain a better understanding of how motor behaviour can be optimized we believe that merging research from diverse neuroscientific communities would contribute to fulfilling this goal and potentially

highlight possible shared neurophysiological mechanisms influencing motor learning

Ethnography for the Internet

2020-05-11

the internet has become embedded into our daily lives no longer an esoteric phenomenon but instead an unremarkable way of carrying out our interactions with one another online and offline are interwoven in everyday experience using the internet has become accepted as a way of being present in the world rather than a means of accessing some discrete virtual domain ethnographers of these contemporary internet infused societies consequently find themselves facing serious methodological dilemmas where should they go what should they do there and how can they acquire robust knowledge about what people do in through and with the internet this book presents an overview of the challenges faced by ethnographers who wish to understand activities that involve the internet suitable for both new and experienced ethnographers it explores both methodological principles and practical strategies for coming to terms with the definition of field sites the connections between online and offline and the changing nature of embodied experience examples are drawn from a wide range of settings including ethnographies of scientific institutions television social media and locally based gift giving networks

New Literary Hybrids in the Age of Multimedia Expression

2014-11-15

begun in 2010 as part of the histories of literatures in european languages series sponsored by the international comparative literature association the current project on new literary hybrids in the age of multimedia expression recognizes the global shift toward the visual and the virtual in all areas of

textuality the printed verbal text is increasingly joined with the visual often electronic text this shift has opened up new domains of human achievement in art and culture the international roster of 24 contributors to this volume pursue a broad range of issues under four sets of questions that allow a larger conversation to emerge both inside the volume s sections and between them the four sections cover 1 multimedia productions in theoretical and historical perspective 2 regional and intercultural projects 3 forms and genres and 4 readers and rewriters in multimedia environments the essays included in this volume are examples of the kinds of projects and inquiries that have become possible at the interface between literature and other media new and old they emphasize the extent to which hypertextual multimedia and virtual reality technologies have enhanced the sociality of reading and writing enabling more people to interact than ever before at the same time however they warn that as long as these technologies are used to reinforce old habits of reading writing they will deliver modest results one of the major tasks pursued by the contributors to this volume is to integrate literature in the global informational environment where it can function as an imaginative partner teaching its interpretive competencies to other components of the cultural landscape

Feminism, National Identity and European Integration in Modern Spain

2024-04-18

this book explores the evolution of spanish feminism in the context of european feminisms and institutions from the 1960s to recent times beginning with sección femenina the official francoist women s organization feminism national identity and european integration in modern spain traces the interplay between spanish women s policy and international policymaking in some cases as with the sección femenina championed law of political rights ley de derechos in 1961 spanish women s policy at least appeared more progressive than what western democracies offered notable at a time when spain was considered backward after franco s death in 1975 spain s democratic transition seemingly consolidated forward thinking women s policy with a constitution that guaranteed equality of the sexes in 1978 and with the creation of a national bureau charged with crafting women s policy the instituto de la mujer women s institute in 1983 yet feminists found themselves marginalized in spanish political decision making as kathryn l mahaney argues so successfully in this study mahaney reveals that women ultimately influenced domestic policy not by acting within national networks but by leveraging european connections particularly after spain joined the european economic community eec in 1986 the book shows that spanish feminists worked through the eec to gain international approval of policies that had met domestic opposition and did so by representing them as necessary litmus tests of nations democratic integrity their proposals were shaped by the specific context of spanish feminism but also by spanish debates about what rights democracies should grant women and what equality in a post fascist nation should encompass this ground breaking study explains that in turn these processes shaped both spain s and the european union s much prized self identities as democratic communities
