dreams of a better life for all virtually unrealizable in rural areas of south africa through the voices of rural people themselves this study tells not only what the problems surrounding education are but also what can and should be done when the south african government launches its offensive against poverty in rural areas rigorous and qualitative the text is an overview of the need of great numbers of people for the opportunities and capabilities that education can provide for their futures it also shows the existing situation of many impoverished populations worldwide and illustrates that poverty and inequality continue where such issues are not addressed

Practical Applications of Medical Geology 2021-08-01 this edited volume provides a framework for integrating methods and information drawn from geological and medical sciences and provides case studies in medical geology to illustrate the usefulness of this framework for crafting environmental and public health policies related to natural materials the relevance of medical geology research to policy decisions is a topic rarely discussed and this volume attempts to be a unique source for researchers and policy makers in the field of medical geology in addressing this gap in practical medical geology applications the book s four sections establish this framework in detail using risk assessment case studies data analyses and specific medical geology techniques following an introduction to medical geology in the context of risk assessment and risk management the second section discusses specific methods used in medical geology in the categories of geoscience biomedicine and data sources the third section discusses the medical geology of natural materials energy use and environmental and workplace impacts this section includes specific case studies in medical geology and describes how the methods and data from the previous section are used in a medical geology analysis the fourth section includes a guide to the medical geology literature and provides some examples of medical geology programs in asia and africa

Microbiome Under Changing Climate 2022-01-21 microbiome under changing climate implications and solutions presents the latest biotechnological interventions for the judicious use of microbes to ensure optimal agricultural yield summarizing aspects of vulnerability adaptation and amelioration of climate impact this book provides an important resource for understanding microbes plants and soil in pursuit of sustainable agriculture and improved food security it emphasizes the interaction between climate and soil microbes and their potential role in promoting advanced sustainable agricultural solutions focusing on current research designed to use beneficial microbes such as plant growth promoting microorganisms fungi endophytic microbes and more changes in climatic conditions influence all factors of the agricultural ecosystem including adversely impacting yield both in terms of quantity and nutritional quality in order to develop resilience against climatic changes it is increasingly important to understand the effect on the native micro flora including the distribution of methanogens and methanotrophs nutrient content and microbial biomass among others demonstrates the impact of climate change on secondary metabolites of plants and potential responses incorporates insights on microflora of inhabitant soil explores mitigation processes and their modulation by sustainable methods highlights the role of microbial technologies in agricultural sustainability

Resistance 2021-04-19 in resistance sol plaatje and south africa shane moran studies sol plaatje and his work within the context of colonial politics and resistance through an in depth analysis of plaatje s resistance to racial domination moran examines the nature of the struggles that continue within and beyond south africa today

Green Economy Implementation in the Agriculture Sector 2019-01-01 this book focusing on the agriculture sector provides useful analysis of the green economy implementation context and a practical framework for implementing vegetable crop production green economy projects the book addresses a distinct gap as there are currently no guidelines available for planning and implementing green economy projects in the agriculture sector the book combines information from desktop reviews and field research on vegetable production in a green economy context in south africa in order to bridge the gap between the theoretical green economy concept and practical implementation issues that would be encountered at the project level it includes a step by step process for translating abstract green economy principles into tangible projects on the ground so that the potential benefits of a green economy are realizable

Sustainability of Southern African Ecosystems under Global Change 2024-03-25 the international student conference in tourism research iscontour offers students a unique platform to present their research and establish a mutual knowledge transfer forum for

attendees from academia industry government and other organisations the annual conference which is jointly organized by the imc university of applied sciences krems and the management center innsbruck takes place alternatively at the locations krems and innsbruck the conference research chairs are prof fh mag christian maurer university of applied sciences krems and prof fh mag hubert siller management center innsbruck the target audience include international bachelor master and phd students graduates lecturers and professors from the field of tourism and leisure management as well as businesses and anyone interested in cutting edge research of the conference topic areas the proceedings of the 10th international student conference in tourism research include a wide variety of research topics ranging from consumer behaviour tourist experience information and communication technologies marketing destination management and sustainable tourism management

Proceedings of 11th International Conference on Childhood Obesity and Nutrition 2018

2017-06-26 this book explores the relationship between tourism and high magnitude storm events including cyclones hurricanes and typhoons and flooding across all stages of a disaster it considers the measures available to manage tourism after major storms and floods examines the means to mitigate the potential impacts of these disasters on tourism and provides insights into the ethical and socioeconomic issues facing tourism after a major flood or storm the volume offers perspectives from a variety of countries and is a useful resource for researchers in tourism studies tourism planning and marketing geography and disaster management as well as tourism stakeholders

Tourism, Cyclones, Hurricanes and Flooding 2016-10-18 most african economies range from moderately advanced capitalist systems with modern banks and stock markets to peasant and pastoral subsistent systems most african countries are also characterized by parallel institutions of governance one is the state sanctioned formal system and the other is the traditional system which is adhered to primarily but not exclusively by the segments of the population in the subsistence peasant and pastoral economic systems traditional institutions in contemporary african governance examines critical issues that are largely neglected in the literature including why traditional institutions have remained entrenched what the socioeconomic implications of fragmented institutional systems are and whether they facilitate or impede democratization the contributors investigate the organizational structure of traditional leadership the level of adherence of the traditional systems how dispute resolution decision making and resource allocation are conducted in the traditional system gender relations in the traditional system and how the traditional institutions interact with the formal institutions filling a conspicuous gap in the literature on african governance this book will be of great interest to policy makers as well as students and scholars of african politics political economy and democratization

Traditional Institutions in Contemporary African Governance 2017-11-15 advances in food security and sustainability takes a scientific look at the challenges constraints and solutions necessary to maintain a healthy and accessible food supply in different communities around the world the series addresses a wide range of issues related to the principles and practices of food sustainability and security exploring challenges related to protecting environmental resources while meeting human nutritional requirements contains expertise from leading contributions on the topics discussed covers a vast array of subjects relating to food security and sustainability

Advances in Food Security and Sustainability 2014-10-02 the sustainable development goals signed in 2016 marked a new phase in global development thinking one which is focused on ecologically and fiscally sustainable human settlements few countries offer a better testing ground for their attainment than post apartheid south africa since the coming to power of the african national congress the country has undergone a policy making revolution driven by an urgent need to improve access to services for the country s black majority a quarter century on from the fall of apartheid building a capable state asks what lessons can be learned from the south african experience the

book assesses whether the south african government has succeeded in improving service delivery focusing on the vital sectors of water and sanitation energy roads public transport and housing emphasizing the often overlooked role of local government institutions and finance the book demonstrates that effective service delivery can have a profound impact on the social structure of emerging economies and must form an integral part of any future development strategy a comprehensive examination of urban service delivery in the global south building a capable state is essential reading for students and practitioners across the social sciences public finance and engineering sectors

Building a Capable State 2009 everyday feminist research praxis doing gender in the netherlands offers a selection of previously unpublished work presented during the 2011 2012 and 2013 netherlands research school of gender studies nog conferences reflecting the wide spectrum of interdisciplinary gender studies this volume is organised into four sections along four conceptual knots these thematic entry points are space time affectivity public private and technological mediation the central emphasis of this volume is twofold first the everyday is approached as a concretely grounded site of micro political power struggles second the contributors make explicit connections between theory and their everyday feminist research practices as a whole the interventions ranging from fashion modelling child birthing discourses and digital documentaries show how feminist research praxis remains crucial in critically disentangling naturalized routines of daily life which in turn enables the scrutiny of for example the arbitrariness of entrenched power relations and contradictory personal and collective everyday trajectories everyday feminist research praxis thus energises possibilities for new forms of recognition representation and redistribution of power

Everyday Feminist Research Praxis 2017-05-05 water is a matter of life and death advanced technology and engineering enable humans to gain better access to it nonetheless the conditions and effort required to reach this goal remain colossal in many countries building a lasting infrastructure for adequate treatment before and after use is costly therefore the author believes that a radical change of thinking among people around the world from the domestic to the large scale users becomes a priority even if the united nations entitles all people to justice for water more responsible and ethical use of it by all interested parties is more important than the spreading of promises which in practice may turn out to be a sham only a better understanding that access to water rests on the efforts of everyone without exception will reduce overuse waste and pollution of the indispensable resource this volume while written from a theological philosophical and legal perspective focusing on john calvin john rawls and paul ricoeur demonstrates that water cannot be merely understood as a human right but also has to be dealt with from an economic point of view as well as under the authority of the golden rule

Gaffney's Local Government in South Africa 2023-02-24 in this book we present recent studies that have been carried out on some widely used medicinal plants the need for new and alternative treatments stem from the lack of efficiency of existing remedies for certain illnesses we have compiled information that may be useful to researchers in their quest to develop new drugs

The Human Right to Water: Justice . . . or Sham? 2014-06-19 this is the story of one man's service in the british south africa police of rhodesia during his service of nearly fifteen years between the years 1965 and 1979 and in many ways forms a sequel to the author's book mad dog killers the struggle to keep rhodesia out of black nationalist hands started in late 1964 and ended with the mugabe regime in 1982 it is also a story of a policeman engaged in that war as a member of the paramilitary bsap support unit the police anti terrorist unit and as an ordinary member of the force that had always been designated the country's first line of defense most of the service was on remote rural district stations often in the middle of the front line the account tells of one man's learning to be a policeman and a police public prosecutor and about the eccentricities of some of the circuit magistrates a policeman has a lot to learn about life and in the bsa police he was expected to jump in at the deep end from the start it is also the story of the strange struggle by rhodesian born policemen in a force where the majority were english born at a time when rhodesia was in rebellion against britain the author's senior officers though fiercely loyal to the force were british and required to join the rebellion it tells of his resentment at the lack of drive by senior officers in the fight against terrorist atrocities there is additional

insight into the utopian life in rhodesia especially in rural areas when it was still possible to hunt buck for the police mess rations where there was no electricity or other modern amenities and where the single quarters were in ancient buildings enclosed by a wraparound gauzed in veranda a life gone now forever it is also a story of a young man who grew up in salisbury his sexual excesses and sadness the british queen mother was patron of the force all her life and was very proud of her association with it Ethnobotany 2017-09-05 money and finance after the crisis provides a critical multi disciplinary perspective on the post crisis financial world in all its complexity dynamism and unpredictability contributions illuminate the diversity of ways in which money and finance continue to shape global political economy and society a multidisciplinary collection of essays that study the geographies of money and finance that have unfolded in the wake of the financial crisis contributions discuss a wide range of contemporary social formations including the complexities of modern debt driven financial markets chapters critically explore proliferating forms and spaces of financial power from the realms of orthodox finance capital to biodiversity conservation contributions demonstrate the centrality of money and finance to contemporary capitalism and its political and cultural economies

Bush Pig - District Cop 2023-04-03 south africa s democratic government inherited a divided and unequal system of education under apartheid south africa had nineteen different educational departments separated by race language geography and ideology this education system prepared learners in different ways for the positions they were expected to occupy in social economic and political life under apartheid and was funded and resourced in ways that favoured white people and disadvantaged black people who remain in the working class the newly elected democratic government in 1994 laid a foundation for a single national education system twentyfive years after the dawn of democracy education is still in a parlous state in many communities in south africa but it is in the rural areas mainly in the former homelands that learners are most disadvantaged contributors are olufemi timothy adigun oluwatoyin ayodele ajani alan bhekisisa buthelezi joyce phikisile dhlamini bongani thulani gamede samantha govender lawrence kehinde nontobeko prudence khumalo primrose ntombenhle khumalo azwidohwi philip kutame manthekeleng linake sive makeleni nkhehansi maluleke bothwell manyonga mncedisi christian maphalala takalani mashau hlengiwe romualda mhlongo rachel gugu mkhasibe dumisani wilfred mncube nicholus tumelo mollo ramashego shila mphahlele fikile mthethwa grace matodzi muremela edmore mutekwe nokuthula hierson ndaba clever ndebele thandiwe nonkululeko ngema phiwokuhle ngubane sindile ngubane dumisani nzima livhuwani peter ramabulana and maria tsakeni

Money and Finance After the Crisis 2023-08-24 small schools due to a variety of reasons are compelled to opt for multi grade teaching in which learners of more than one grade are taught in one class resultantly the purpose of this study was to evaluate the capacity of south african schools in the implementation of multi grade teaching the study followed a qualitative approach to evaluate the implementation of multi grade teaching a case study research design was followed with an interpretive paradigm to evaluate day to day offering of multi grade teaching the population in this study consisted of principals and teachers who were selected through purposive sampling data were collected through focus group and face to face semi structured interviews as well as document analysis kolb s experiential learning theory was used as a theoretical framework for this study to evaluate the offering of multi grade teaching in case study schools the thematic approach was used to analyse data to ensure issues of ethical consideration the researcher ensured that there is anonymity confidentiality informed consent voluntary participation participants privacy and safety the study found that schools in sekhukhune south education district could not offer multi grade teaching this was mainly based on the lack of central policies on multi grade teaching as well as inappropriate teacher development programmes insufficient human and financial resources were also identified as key hindrances in the implementation of multi grade teaching resultantly the study suggested that the serving teachers their smts and their curriculum advisors must be provided with in service training on multi grade teaching on the other hand teacher training universities should have a compulsory module on multi grade teaching the study also recommended the establishment of a dobe unit that solely focuses on matters related to multi grade teaching the study further recommended that the dobe should develop central policies on multi grade teaching it was also recommended that the dobe s post provision model and the national norms and standards

for school funding must be revised to cater for the needs of multi grade schools the study further proposed a new framework to engender collaboration amongst principals parents and curriculum advisors in school based multi grade policy formulation advocacy training as well as monitoring and support

Contextualising Rural Education in South African Schools 2017-11-16 south africa is popularly perceived as the most influential nation in africa a gateway to an entire continent for finance trade and politics and a crucial mediator in its neighbours affairs on the other hand post apartheid dreams of progress and reform have in part collapsed into a morass of corruption unemployment and criminal violence a short history of south africa is a brief general account of the history of this most complicated and fascinating country from the first evidence of hominid existence to the wars of the 18th 19th and 20th centuries that led to the establishment of modern south africa the horrors of apartheid and the optimism following its collapse as well as the prospects and challenges for the future this readable and thorough account illustrated with maps and photographs is the culmination of a lifetime of researching and teaching the broad spectrum of south african history nattrass s passion for her subject shines through whether she is elucidating the reader on early humans in the cradle of humankind or describing the tumultuous twentieth century processes that shaped the democracy that is south africa today

An Evaluation of the Capacity of South African Schools to offer Multi-grade Teaching 2011-10-12 the book covers several topics of biodiversity researches and uses containing 17 chapters grouped into 5 sections it begins with an interesting chapter considering the ways in which the very biodiversity could be thought about noteworthy is the chapter expounding pretty original creativity theory of ecosystem there are several chapters concerning models describing relation between ecological niches and diversity maintenance the factors underlying avian species imperilment and diversity turnover rate of a local beetle group of special importance is the chapter outlining a theoretical model for morphological disparity in its most widened treatment several chapters consider regional aspects of biodiversity in europe asia central and south america among them an approach for monitoring conservation of the regional tropical phytodiversity in india is of special importance of interest is also a chapter considering the history of the very idea of biodiversity emergence in ecological researches

A Short History of South Africa 2022-07-28 the aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences the indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience in addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals this book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space the discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities the scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally this knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research

Research in Biodiversity 2023-11-27 this book describes initiatives and concrete examples on sustainable food production worldwide in the current world scenario where nations all over the world are struggling to accomplish the united nations sustainable development goals and to ensure sustainable patterns for all this book provides a contribution towards a more comprehensive and interdisciplinary understanding of the cross cutting issues related to sustainable agriculture and food security this interdisciplinary book supports the efforts to engage a commitment from all fields of science to work together to provide knowledge that could help to address sdg2 no hunger and lead to the promotion of quality of life by means of a more sustainable food production and improved food security this book is expected to fill the gap of

publications in this field it gives a special emphasis to a state of the art descriptions of approaches methods initiatives and projects from universities stakeholders organizations and civil society across the world regarding cross cutting issues in sustainable food production it includes examples of policies and practices case studies examples of projects institutional policies innovative methods and tools and research outputs which highlight the interdependence between sustainable agriculture and food security issues it is expected that the sustainable agriculture and food security will make the many benefits of sustainable food production clearer and inter alia lead to an increase in the emphasis provided to this central theme

Working with indigenous knowledge 2019-03-28 water our planet s life force faces multiple challenges in the 21st century including surging global demand shifting climate patterns and the urgent need for sustainable management guidance knowledge and hope is sharply needed in academia and technology industries and innovations in machine learning and iot for water management is a formidable resource to provide these necessities this book delves into the dynamic synergy of artificial intelligence ai machine learning ml and the internet of things iot ushering in a new era of water resource stewardship this book embarks on a journey through the frontiers of ai and iot unveiling their transformative impact on water management from the vantage point of satellite imagery analysis it scrutinizes the earth s vital signs unlocking crucial insights into water resources it chronicles the rise of ai powered predictive analytics a revolutionary force propelling precision water usage and conservation this book explains how iot can be an effective tool to increase intelligence of our water systems the book meticulously navigates through domains as diverse as aquifer monitoring hydropower generation optimization and predictive analytics for water consumption this book caters to a diverse audience from water management experts and environmental scientists to data science aficionados and iot enthusiasts engineers seeking to reimagine the future of water systems technology enthusiasts eager to delve into ai s potential and individuals impassioned by preserving water will all find a well needed resource in these pages

Sustainable Agriculture and Food Security 2020-10-16 the international student conference in tourism research iscontour offers students a unique platform to present their research and establish a mutual knowledge transfer forum for attendees from academia industry government and other organisations the annual conference which is jointly organized by the imc university of applied sciences krems and the management center innsbruck takes place alternatively at the locations krems and innsbruck the conference research chairs are prof fh mag christian maurer university of applied sciences krems and prof fh mag hubert siller management center innsbruck the target audience include international bachelor master and phd students graduates lecturers and professors from the field of tourism and leisure management as well as businesses and anyone interested in cutting edge research of the conference topic areas the conference topics include marketing and management tourism product development and sustainability information and communication technologies finance and budgeting and human resource management

Innovations in Machine Learning and IoT for Water Management 2022-07-28 economic effects of natural disasters explores how natural disasters affect sources of economic growth and development using theoretical econometrics and real world data and drawing on advances in climate change economics the book shows scholars and researchers how to use various research methods and techniques to investigate and respond to natural disasters no other book presents empirical frameworks for the evaluation of the quality of macroeconomic research practice with a focus on climate change and natural disasters because many of these subjects are so large different regions of the world use different approaches hence this resource presents tailored economic applications and evidence connects economic theories and empirical work in climate change to natural disaster research shows how advances in climate change and natural disaster research can be implemented in micro and macroeconomic simulation models addresses structural changes in countries afflicted by climate change and natural disasters

ISCONTOUR 2019 Tourism Research Perspectives 2024-01-29 this book is a collection of chapters from the ifip working groups 13 8 and 9 4 the 10 papers included present experiences and research on the topic of digital transformation and innovation practices in the global south the topics span from digital transformation initiatives to novel innovative technological developments practices and applications of

marginalised people in the global south

Economic Effects of Natural Disasters 2021-07-13 through the lens of african emerging economies this text examines empirical studies and the related practices of agritourism by looking at tourism innovation entrepreneurship ethics and responsibility of public and private organizational stakeholders the text promotes an understanding of how radical novel sustainable agritourism might be implemented to help society's living become more sustainable with low usage of material resources low energy and environmental cost the book will be of interest to academics and postgraduate students interested in the challenges of sustainable agritourism and african emerging economies

Innovation Practices for Digital Transformation in the Global South 2022-12-21 this book examines and addresses the particular character of urban tourism occurring in the global south it presents research essays on tourism in urban areas of south africa a country which is associated with big 5 nature tourism but where urban areas are also major tourism destinations the book contextualizes urban tourism in south africa as part of the other half of urban tourism an overlooked but energetic scholarship which is emerging on urban places in the global south the volume moves to present a collection of original material variously on national perspectives on urban tourism following by a cluster of city level perspectives the last three contributions turn to the role of tourism in small towns the bottom rung in the urban settlement system issues of concern include gastronomic tourism vfr travel airportsclapes climate change airbnb and creative tourism finally as covid 19 is potentially a defining historical moment for urban tourism the volume incorporates historical research perspectives in order to address the overwhelming present mindedness of mainstream urban tourism writings the book highlights the challenges and opportunities for tourism development in the environment of the urban global south and is relevant to scholars of both tourism and urban studies as well as researchers in development studies

Agritourism for Sustainable Development 2019-11-13 building smart resilient and sustainable infrastructure in developing countries contains the papers presented at the international conference on development and investment in infrastructure dii 2022 the contributions cover a wide range of topics related to infrastructure issues on the african continent sustainable infrastructure development smart infrastructure and cities quality and resilient infrastructure education empowerment gender equity wellness and development environmental and waste management facilities real estate management infrastructure investment and finance trends and forecasts infrastructure shock events procurement project management health safety infrastructure economic social environmental sustainability digital innovation and transition in the built environment building smart resilient and sustainable infrastructure in developing countries evaluates innovations empowerment growth and sustainable development of infrastructure development in africa and aims at administrators academics and professionals

Urban Tourism in the Global South 2017-10-01 through select contributions this edited volume presents a current discourse on strategic management specifically through the lens of industry dynamism it re examines the enduring call for dynamic strategies and capabilities at the firm and industry level drawing case studies from a diverse array of geographic locations its findings are presented in two succinct sections on dynamic strategies and on dynamic capabilities which collectively read as a unit

Building Smart, Resilient and Sustainable Infrastructure in Developing Countries

2022-04-01 of the same breath opens the door to a better understanding of why and how the animals and places of southern africa have been given the names they have today the vast reaches of the information provided in this book have been drawn together to create a veritable cornucopia of answers to the old question of how names originated in this linguistically thought provoking book readers will be guided through the origins of animal names and toponyms from the coastline of south africa to the northern border of namibia and from the mighty elephant to the humble grasshopper

Strategic Management 2017-07 teaching content and measuring content are frequently considered separate entities when designing teaching instruction this can create a disconnect between how students are taught and how well they succeed when it comes time for assessment to heal this rift the theory of meaningful learning is a potential solution for designing effective teaching learning and assessment materials design and measurement strategies for meaningful learning considers the best practices challenges and opportunities of instructional design as well as the theory and impact of

travis pastrana amazing
athletes

meaningful learning it provides educators with an essential text instructing them on how to successfully design and measure the content they teach covering a wide range of topics such as blended learning online interaction and learning assessment this reference work is ideal for teachers instructional designers curriculum developers policymakers administrators academicians researchers practitioners and students
