exultantly seemed to offer permanent amity and goodwill
between democratic britain and totalitarian germany in it
britain agreed to allow hitler s third reich to absorb the
sudeten regions of czechoslovakia without interference from
either england or france and since high percentages of ethnic

intended to invade siberia ussr at the time of operation
barbarossa but attacked pearl harbor instead what made
japan change its target what saved russia ussr from having to
fight and being defeated in a 2 front war against germany
and japan at the same time in ww2 japan s attack on pearl
harbor forced the us to join the war against japan and
germany in ww2 what made japan attack the us pearl harbor
instead of the ussr siberia this saved the ussr from having to
fight a 2 front war and it forced the us into joining china the
british and the ussr in the war against japan and germany
this decided the final alignment of belligerents in ww2 which
ultimately decided the result of ww2 taierzhuang 1938

in a desperate bid to break the stalemate in china japan
extended the sino japanese war into the greater east asia
war by attacking british and us territories in east asia and the
pacific including pearl harbor in december 1941 merging the
wars in asia and europe into a worldwide war of axis versus

british and us strategy was europe first or germany first but
the elementary factor of the victory of the allied powers
against the axis powers was attrition first deliberately applied

the turning point of world war 2 but taiierzhuang 1938 the
model for stalingrad 1942 is in the blind spot of ww2 histories
this book provides a detailed insight into the battle of
taiierzhuang how a hodgepodge of troops inferior in almost

in logistics training equipment and weaponry it points out the
startling similarity in the modus operandi for victory between it

first round of conspiracy the present volume deals with the
virtual coup d etat by which hitler sought to establish
ascendancy over the wehrmacht early in 1938 the account
focuses on sensational events centering about hitler s
successful efforts to oust field marshal werner von blomberg
the war minister and colonel general baron von fritsch the
army commander in chief in order to consolidate control of
the military in his own hands using as an excuse blomberg s
marriage to a woman with a discreditable past he forced
blomberg s resignation he accomplished fritsch s resignation
through charges of homosexuality which were trumped up by
himmler heydrich and goering he then appointed colonel
general walther von brauchitsch who was under personal
obligation to him as commander in chief through these moves

invasion between 1938 and 1944 this study challenges
existing historiography on china s wartime culture at three
levels first the guangxi warlord group played a crucial role in
maintaining regional security providing a liberalized political
environment for wartime cultural activities and facilitating
wartime nationalist communist relations at both local and
national levels second wartime culture was more literary than
political and it reflected a powerful intellectual vigor that was
an indispensable component of china s war efforts
intellectuals of different social and political backgrounds were
their own organic selves feeling no pressure to come to
intellectual consensus in literary production third wartime
culture was characterized by the active participation of many
international groups political organizations and foreign

individuals the literary works produced in guilin between 1938
and 1944 clearly reflected a combination of chinese national
and international anti fascist and anti military sentiment

observers the author argues that stalin had been plotting a plan

for bringing about a general european war well before hitler
launched his expansionist program for the third reich stalin
expected that hitler s war when it came would lead to the
internal collapse of the warring nations and that military
revolts and proletarian revolutions like those of world war i
would break out in the capitalist countries this scenario
foresaw the embattled proletarians calling for the assistance
of the red army which would sweep across europe the book
further shows that the wartime disputes between stalin and
his western allies originated over the postwar redistribution of
the territories stalin had gained from his pact with hitler the
situation was complicated by the incautious unrestricted
commitment of support to the soviet union first by churchill
and then by roosevelt and wartime circumstances provided
cover to obscure these diplomatic failures the early origins of
the cold war described in this book differ dramatically from
the usual accounts that see a sudden and surprising

interpret chamberlain as a bumbling arrogant fool a strong

the elementary factor of the victory of the allied powers
against the axis powers was attrition first deliberately applied
at taierzhuang the major portion of japan s military might was
consumed in china and similarly later the major portion of
germany s military might was consumed in russia the nanjing
massacre in china foreshadowed the holocaust in europe
japan had its kill all burn all and loot all policy in its holy war

hence the use of terror for example the rape of nanjing and

and events leading up to the first round of conspiracy the
present volume deals with the virtual coup d etat by which
hitler sought to establish ascendancy over the wehrmacht
early in 1938 the account focuses on sensational events
centering about hitler s successful efforts to oust field
marshal werner von blomberg the war minister and colonel
general baron von fritsch the army commander in chief in
order to consolidate control of the military in his own hands
using as an excuse blomberg s marriage to a woman with a
discreditable past he forced blomberg s resignation he
accomplished fritsch s resignation through charges of
homosexuality which were trumped up by himmler heydrich
and goering he then appointed colonel general walther von

commander in chief through these moves as dr deutsch

exploiting new findings from former east bloc archives and

wholly new picture of the coming of world war ii allied
wartime diplomacy and the origins of the cold war the author
reveals that the story widely believed by historians and
western wartime leaders alike that stalin s purposes in

fantasy indeed this is one of the longest enduring products of
stalin s propaganda of long term political control of archival
materials and of the gullibility of western observers the author

expansionist program for the third reich stalin expected that
hitler s war when it came would lead to the internal collapse
of the warring nations and that military revolts and proletarian
revolutions like those of world war i would break out in the
capitalist countries this scenario foresaw the embattled
proletarians calling for the assistance of the red army which
would sweep across europe the book further shows that the
wartime disputes between stalin and his western allies
originated over the postwar redistribution of the territories
stalin had gained from his pact with hitler the situation was
complicated by the incautious unrestricted commitment of
support to the soviet union first by churchill and then by
roosevelt and wartime circumstances provided cover to
obscure these diplomatic failures the early origins of the cold
war described in this book differ dramatically from the usual
accounts that see a sudden and surprising upwelling of cold
war antagonisms late in the war or early in the postwar

french men and women in the department of the gard lived
the vichy regime from day to day it will be most useful to
historians of france but it will also be welcomed by scholars
who deal with the second world war the history of the jews
and the history of religion it might well be used in
undergraduate classes as a case study for popular opinion in
modern france patrice higonnet harvard university vichy will
not go away as i write france is in the throes of the paul

everyday life in france during the dark years of vichy while many studies of vichy france have either focused on specific lives or ideas or covered the period in broad and synthetic terms local studies such as this promise to nuance our understanding of wartime france by concentrating on the city of nîmes and the department of the gard zaretsky moves beyond generalizations concerning resistance and collaboration to consider issues of historical continuity and change within a specific local context in the words and acts of local french men and women he finds the character of mentalities in the heart of our own century the gard is well chosen as the focus of this study from the sixteenth century onward the region had been a flash point between warring catholics and protestants by the early twentieth century that tension had eased but not disappeared zaretsky examines the dynamics between local protestant catholic and jewish communities arguing that with the advent of vichy a regime that if not clerical was deeply deferential to the catholic
