registered nurse cfrn exams this is ems re imagined israel country study guide strategic information and developments volume 1 strategic information and developments slovenia country study guide strategic information and developments volume 1 strategic information and developments this book is the definitive guide to the final fellowship of the faculty of intensive care medicine fficm structured oral examination with a broad coverage of the clinical curriculum it equips candidates to tackle this challenging examination each chapter contains sample questions with concise answers focusing on key concepts to facilitate deeper understanding the content is organized by subject enabling more structured revision in an easy to use format this text provides references to guidance that will remain relevant in the ever changing landscape of intensive care medicine not only is this book an essential resource for studying intensivists but it also forms a useful reference for any professional encountering the world of critical care in their practice get it done well and get it done fast are twin apparently opposing demands data architects are increasingly expected to deliver quality data models in challenging timeframes and agile developers are increasingly expected to ensure that their solutions can be easily integrated with the data assets of the overall organization if you need to deliver quality solutions despite exacting schedules the nimble elephant will help by describing proven techniques that leverage the libraries of published data model patterns to rapidly assemble extensible and robust designs the three sections in the book provide guidelines for applying the lessons to your own situation so that you can apply the techniques and patterns immediately to your current assignments the first section foundations for data agility addresses some perceived aspects of friction between data and agile practitioners as a starting point for resolving the differences pattern levels of granularity are classified and their interdependencies exposed a context of various types of models is established e.g. conceptual logical physical and industry enterprise project and you will learn how to customize patterns within specific model types the second section steps towards data agility shares guidelines on generalizing and specializing with cautions on the dangers of going too far creativity in using patterns beyond their intended purpose is encouraged the short term you ain't gonna need it yagni philosophy of agile practitioners and the longer term strategic perspectives of architects are compared and evaluated consideration is given to the potential of enterprise views contributing to project specific models other topics include industry models iterative modeling creation of patterns when none exist and patterns for rules in data the section ends with a perspective on the modeler's possible role in agile projects followed by a case study the final section a bridge to the land of object orientation provides a pathway for re-skilling traditional data modelers who want to expand their options by actively engaging with the ranks of object oriented developers prepare for the server exam and an exciting new career in tech with this hands on guide in the newly updated second edition of the comptia server study guide exam
