~~away last century on the altar of progress is~~
there to be no more drinking from their font of well being this book says not lavishly illustrated it describes their history and from the few remaining examples it shows us how beautiful they are how rich in plants and animals it coaches us in their creation even in small gardens or their restoration in larger fields it tells of the extraordinary lives of even the most ordinary denizens little secrets that make the meadow s world go around and the convoluted links between the many plants and animals that keep everything in balance their stories are woven season by season into a year in the life of two meadows a small garden meadow and a larger old paddock we hear of birds that plant trees bacteria that become plant organelles plants that drink from other plants plants that fool or poison insects and insects that turn the tables ants that foster butterflies mice that navigate by compass snails that house bees and how all of these connections together with the flow of energy and nutrients result in a healthy ecosystem the book even suggests how adults and children alike can see these things for themselves so read this book and help your local green space to become a meadow and revel in it

brigom loved so much had become a haunting ground
every where he went he imagined seeing larry
laughing and making fun of him each day he became
more afraid of his life something was telling him
he may have to move off the mountain or his life
may be no more fear was over taking him he even
had thoughts of death
