## **Hearings Before the Committee on Interstate and Foreign Commerce of the House of Representatives on Bills Affecting Interstate Commerce 1910**

can semiotics and computers be compatible can computation advance semiotics by enhancing the scientific basis of the theory of signs coupling semiotics a philosophical and phenomenological tradition concerned with theories of signs with computation a formal discipline may seem controversial and paradoxical computational semiotics tackles these controversies head on and

attempts to bridge this gap showing how semiotics can build the same type of conceptual formal and computational models as other scientific projects this book opens up a rich domain of inquiry toward the formal understanding of semiotic artifacts and processes examining how pairing semiotics with computation can bring more methodological rigor and logical consistency to the epistemic quest for the forms and functions of meaning without compromising the important interpretive dynamics of semiotics this book offers a new cutting edge model driven theory to the field
