significant number of people today have stories of religious experience moments of inexplicable
terror or rapturous joy visions near death experiences of the afterlife encounters with angels
heavenly voices and premonitions how should rationally minded people respond what would your
reaction be if someone told you that one night while sitting alone she saw through the window a
brilliant light descend from the sky until it was so large that it filled the room and that it

~~than not most people would respond to the stories above with embarrassment and concern about the~~
person s grasp of reality or they would attempt to explain them away through rational or
scientific means but the truth is that religious experiences like these are not as uncommon as
they seem although talking about such experiences often is this is the case even in a faith
tradition such as christianity despite the bible s numerous accounts of miraculous and mysterious
happenings in encountering mystery noted biblical scholar dale allison makes the argument that
stories of religious experience are meaningful and not to be marginalized and that we have a
moral prerogative to lovingly engage with such stories regardless of whether we have had similar
experiences through a close look at phenomena such as moments of inexplicable terror or rapturous
joy visions near death experiences of the afterlife encounters with angels heavenly voices and
premonitions allison shows how ordinary practices of faith need not be at odds with individual
religious experiences above all he enjoins us to be honest about the persistence of religious
experience in a secular age and to make space for those who encounter mystery in their lives 21
