2015-07-12

this collection of essays represents the first attempt in this country to examine systematically the nature and development of modern japanese self consciousness as expressed through culture the essays reveal eloquently the extent to which important aspects of japanese intellectual life in the early twentieth century were inspired by european models of cultural criticism ranging from kant and hegel to nietzsche marx durkheim and bergson implicitly comparative this collection raises the question whether late industrialization and related processes call forth cultural convergence as between east and west or whether a living culture transforms these processes and makes one nation s experience significantly different from that of others together with the editor the contributors include brett de bary thomas w burkman h d harootunian germaine a hoston nozomu kawamura stephen w

kohl william r lafleur hajimu nakano donald roden miriam silverberg eugene soviak jackie stone shuji takashina and makoto ueda originally published in 1990 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

## ***"The Waiting Years" by Fumiko Enchi***

2012-01-24

the analysis of may 68 in paris berkeley and the western world has been widely reconsidered but 1968 is not only a year that conjures up images of paris frankfurt or milan it is also the pivotal year for a new anti colonial and anti capitalist politics to erupt across the third world asia africa the middle east and latin america japan s position neither in the west nor in the third world provoked a complex and intense round of mass mobilizations through the 1960s and early 70s the japanese situation remains remarkably under examined globally beginning in the late 1950s a new left independent of the prewar japanese communist moment itself of major historical importance in the 1920s and 30s came to produce one of the most vibrant decades of political organization political thought and political aesthetics in the global twentieth century in the present volume major thinkers of the left in japan alongside scholars of the 1968 movements reexamine the theoretical sources historical background cultural productions and major organizational problems of the 1968 revolutions in japan

## **Mad in Translation**

2009

in childhood years originally published serially in a literary magazine between 1955 and 1956 tanizaki jun ichirō 1886 1965 takes a meandering look back on his early life in tokyo he reflects on his upbringing family and the capital city with a conversational and not necessarily honest eye offering insights into his later life and his writing

## ***The Gossamer Years***

1973

this edited volume examines the american influence on west german and japanese industry from the 1950s to the 1970s providing a valuable contribution to the debate on americanization from a historical and comparative perspective individual contributions provide an in depth analysis of the adoption and modification of management and technological issues from the us in west germany and japan at the micro economic level

## **First Year Japanese**
