education helping to lead the digital revolution in higher education the chapters emphasize skill development through ict artificial intelligence in education policies for integrating ict in higher education and more the book focuses mainly on technological advancements in ict in education the perceived role of ict in the teaching learning transaction pedagogy for teaching learning in the 21st century student centered learning based on ict learning analytics online technologies learning tools for technology enhanced learning distance education and learning the effective use of ict in management education experiences in ict for technology enhanced learning influence of ict in research development in higher education role of teachers in direct classroom teaching in web based education system and role of ict in innovation capacity building the case studies help to illustrate the ideas and concepts discussed in the chapters this volume is a collection of five papers chapters two chapters deal with problems in statistical inference two with inferences in finite population and one deals with demographic problem the ideas included here will be useful for researchers doing works in these fields the international science congress association organized the 2nd international science congress isc 2012 with science and technology challenges of 21st century as its focal theme isc 2012 was divided in 20 sections a total number of 800 research papers and 1200 registrations from 23 countries all over the world have been received they was mainly from bangladesh

bulgariya cameroun france greece iran iraq
kazakhstan korea lithuania malaysia nigeria nepal
phillipines pakistan poland romania slovakia usa
ukraine venezuela turkey and india this volume is a
collection of six papers on the use of auxiliary
information and a priori values in construction of
improved estimators the work included here will be of
immense application for researchers and students
who employ auxiliary information in any form the
international science congress association isca
organized the 1st international science congress isc
2011 at indore m p india with science and technology
for sustainable development as its focal theme the
congress was hosted by maharaja ranjit singh college
of professional sciences on 24th and 25th december
2011 it was distributed in 20 sections a total 900
research papers and 1300 registrations all over the
world were received delegates from malaysia egypt
bangladesh nigeria indonesia iran south africa iraq
mexico japan uganda pakistan kingdom of saudi
arabia russia latvia nepal lithuanian and from length
and breadth of our nation participated in the isc 2011
this paper presents a family of dual to ratio cum
product estimators for the finite population mean this
volume constitutes the third of three parts of the
refereed proceedings of the first international
conference on computer science and information
technology ccsit 2010 held in bangalore india in
january 2011 the 46 revised full papers presented in
this volume were carefully reviewed and selected the
papers are organized in topical sections on soft

computing such as ai neural networks fuzzy systems etc distributed and parallel systems and algorithms security and information assurance ad hoc and ubiquitous computing wireless ad hoc networks and sensor networks this book constitutes the refereed proceedings of the 8th international conference on distributed computing and internet technology icdcit 2012 held in bhubaneswar india in february 2012 the 17 full papers presented together with 15 short papers in this volume were carefully reviewed and selected from 89 submissions in addition the book contains the full versions of 6 invited talks the papers range over a spectrum of issues related to the theme covering theoretical foundations computational tools and societal applications state of the art techniques like game theoretic ones are used by authors for analyzing conceptual problems this volume contains the proceedings of the third international conference on pattern recognition and machine intelligence premi 2009 which was held at the indian institute of technology new delhi india during december 16 20 2009 this was the third conference in the series the first two conferences were held in december at the indian statistical institute kolkata in 2005 and 2007 premi has become a premier conference in india presenting state of art research findings in the areas of machine intelligence and pattern recognition the conference is also successful in encouraging academic and industrial interaction and in promoting collaborative research and developmental activities in pattern recognition chinese intelligence and other allied

fields involving scientists engineers professionals researchers and students from india and abroad the conference is scheduled to be held every alternate year making it an ideal platform for sharing views and experiences in these fields in a regular manner the focus of premi 2009 was soft computing machine learning pattern recognition and their applications to diverse fields as part of premi 2009 we had two special workshops one workshop focused on text mining the other workshop showcased industrial and developmental projects in the relevant areas premi 2009 attracted 221 submissions from different countries across the world

in this paper we have discussed the problem of testing of hypothesis in this paper problem of testing of hypothesis is discussed when the samples have been drawn from normal distribution the study of hypothesis testing is also extended to bayes set up

1984

1988年，美国国家标准协会（ANSI）发布了C语言标准。该标准定义了C语言的语法和语义，使得C语言在不同的编译器和平台上都能得到一致的运行结果。这一标准的发布极大地促进了C语言在工业界和学术界的应用。

20世纪80年代末至90年代初，随着个人计算机的普及，C语言成为了许多操作系统、数据库管理系统以及嵌入式系统开发的首选语言。其高效的性能和灵活的编程特性使其在这些领域占据了主导地位。

然而，随着时间的推移，C语言的一些局限性也逐渐显现出来。例如，它缺乏类型安全机制，容易导致内存泄漏和缓冲区溢出等安全问题。此外，C语言在并发编程方面的支持也不够完善。

为了克服这些不足，C++应运而生。它在C语言的基础上引入了面向对象编程的概念，增加了类型安全和垃圾回收等功能，从而为开发者提供了更强大、更安全且易于维护的编程工具。如今，C++已经成为了现代软件开发中不可或缺的一部分。
