film and television create worlds but they are also of a world a world that is made up of stuff to which humans attach meaning think of the

last time you watched a movie the chair you sat in the snacks you ate the people around you maybe the beer or joint you consumed to help you unwind all this stuff shaped your experience of media and its influence on you the material culture around film and television changes how we make sense of their content not to mention the very concepts of the mediums focusing on material cultures of film and television reception the stuff of spectatorship argues that the things we share space with and consume as we consume television and film influence the meaning we gather from them this book examines the roles that six different material cultures have played in film and television culture since the 1970s including video marketing branded merchandise drugs and alcohol and even gun violence and shows how objects considered peripheral to film and television culture are in fact central to its past and future

the most significant phenomenon occurring around us today is the european crisis as well as being a total social phenomenon as classical french sociologist Émile durkheim would have said it also affects all the levels of our lives be they political economic cultural or social nothing remains untouched in other words it represents a perfect storm this volume brings together the contributions of twenty authors scientists from the ion i c brătianu institute of political sciences and international relations of the romanian academy in response to this challenge using an expression that is becoming more abundantly associated with europe namely the perfect storm the book decodes multiple layers of the crisis whether they relate to migrants terrorism brexit the economic crisis of the eurozone the turkish challenge russian pressures ttip the resurrection of populism or the intermittent hysteria of the european media this book analyzes immigration policies in east asia in the context of contemporary global migration flows and mobility to assess how global norms of migration have impacted the east asian migration region and explore regional migration trends the book contains 13 case studies which investigate the regulation of immigration in china hong kong japan south korea and taiwan three analytical strands namely norm diffusion identity politics and citizenship build the theoretical framework for the case studies which investigate how regional and national norms discourses and institutions affect local communities and migration patterns in particular the book analyzes contemporary issues such as immigration policy reforms practices of inclusion and exclusion in local communities and discourses on multiculturalism and risk the book utilizes a comparative perspective which enables readers to reflect on the role of national identity international organizations and law public security concerns and labour market demands in the articulation and implementation of contemporary immigration policy in east asia this book substantially complements the existing literature on immigration governance and interregional migration mobility in east asia and will be of interest to academics in the fields of east asian studies public policy immigration and migration studies and comparative politics

patents are ubiquitous in contemporary life practically everything we use incorporates one or more patented inventions and recent years have witnessed epic disputes over such matters as the patenting of human genes the control of smartphone design and technology the marketing of patented drugs and the conduct of patent trolls accused of generating revenue from nuisance litigation but what exactly is a patent why do governments grant them can patents simultaneously encourage new invention while limiting monopoly and other abuses in patent wars thomas cotter one of america s leading patent law scholars offers an accessible lively and up to date

examination of the current state of patent law showing how patents affect everything from the food we eat to the cars we drive to the devices that entertain and inform us beginning with a general overview of patent law and litigation the book addresses such issues as the patentability of genes medical procedures software and business methods the impact of drug patents and international treaties on the price of health care trolls and the smartphone wars taking into account both the benefits and costs that patents impose on society cotter highlights the key issues in current debates and explores what still remains unknown about the effect of patents on innovation an essential one volume analysis of the topic patent wars explains why patent laws exist in the first place and how we can make the system better
