del av den vuxna populationen varje år trots ett omfattande behov av hjälp så råder det brist på tillgång till effektiv behandling kognitiv beteendeterapi kbt är en evidensbaserad metod som har stöd vid behandling av depression och förmedlad via internet skulle metoden kunna tillgängliggöras för fler dock är det i dagsläget oklart vilka format och vilket innehåll som kan användas när behandlingen förmedlas via internet samt vilken betydelse den terapeutiska alliansen har för en behandling som till största del sker på distans syftet med denna avhandling var att undersöka effekterna för olika format av internetbehandling epostterapi guidad självhjälp och blended treatment vid depression samt alliansens roll i dessa format studiernas resultat visar på att epostterapi och internetförmedlade självhjälpsprogram med behandlarstöd var effektiva metoder för att behandla depression alliansskattningar var höga vilket visar att en positiv terapeutisk allians kan uppnås i internetbehandling patientskattningar av allians kunde inte predicera utfallet i någon av behandlingarna men behandlarskattad allians predicerade förbättring på depressionsskattningar i blended treatment den här avhandlingen innehåller den första randomiserade kontrollerade studien på kbt baserad epostterapi vid depression samt det första internet förmedlade självhjälpsprogrammet baserat på beteendeaktivering och act depression is a debilitating disorder that affects a large part of the adult population every year yet there is still a lack of access to effective care for people in need cognitive behaviour therapy cbt is an evidence based method for treating depression that together with the increased availability of internet services provides an opportunity to increase access to effective treatment internet based interventions can be effective in the treatment of depression but there is a lack of knowledge concerning which formats of delivery that can be used and if therapeutic alliance is of equal importance when providing treatment over the internet the overall aim of this thesis was to examine the effects of different treatment formats email therapy guided self help and blended treatment in internet based cbt for depression and to further examine the role of alliance in these treatment modalities findings from this thesis show that email therapy and internetbased treatment programs were effective methods for treating depression alliance ratings were high showing that a positive therapeutic alliance can be achieved in internet based treatments patient rated alliance could not predict outcome in any of the different treatment formats however therapist rated alliance predicted change in depression during blended treatment this thesis includes the first randomized controlled study on cbtbased email therapy and the first internet based behavioral activation program with act components for adult depression in order to saty abreast of state campaign finance laws
