Pearl Harbor and the Coming of the Pacific War

1999

cook led a scientific expedition to observe the transit of venus in tahiti circumnavigated new zealand and established that it was two separate islands and nearly perished when the endeavour ran aground on the worlds largest coral reef in 1779 on his third pacific voyage he was killed in hawaii cooks three pacific voyages changed contemporary understanding of the world but they also had a dramatic impact on the lives of those who inhabited the vast regions cook explored for many first nations peoples this was merely part of a long saga of dispossession and struggle for survival while pacific stories tells the story of cooperation and cultural exchange it also details confrontation and conflict the book has a strong first nations voice reflected in the essay by john maynard the librarys collections provide a window into cook and his complex legacy pacific stories allows audiences to celebrate debate question and understand the voyage of the endeavour shedding new light on cook the man and the myth it explores cooks contribution to science and navigation as well as his contribution to knowledge of the pacific

Pacific Empires

1999

i never encounter the writings of dr johan galtung without recalling what the philosopher ralph waldo emerson said of the true scholar namely that he is the world s eye he is the world s heart daisaku ikeda president soka gakkai international johan galtung is the world s foremost thinker in peace studies this remarkable collection of essays represents his response to the events of september 11 2001 it is a philosophical collection on terror war and peace which engages with the key issues and obstacles we face in attempting to create peace around the world focusing in particular on the pacific region he presents a grounded assessment of the history of the regional power dynamics and present prospects for peace topics covered include the hegemony of the usa the european perspective the us relationship with japan and asia decolonization and peace movements in the age of globalization

Towards the Pacific Century

1991

chinese marxism including kao li k o s in the early 1990s and some of the recent new left writings it shows that all these chinese political theories not only chinese marxism depend on a number of premises at odds with western liberalism especially epistemological optimism and an extravagantly optimistic concept of political practicability it also argues that not only these chinese theories but also western liberalism have failed to offer adequate normative guidelines for the improvement of political life this study combines a deep understanding of the history of chinese thought with a strong grasp of modern philosophical trends and an innovative methodology for the description and criticism of political theories it will be useful to students of modern chinese intellectual history of political philosophy of political culture of the comparative study of cultures and of u s chinese relations

Navigating Islands and Continents

2000-01-01

places matter we are shaped by them and in turn we shape them physically and imaginatively they connect us to time and locality perhaps even to life and death itself this is a book about places and how our engagement with them complex changing and varied forms and transforms our understanding of them of ourselves of the human condition itself pacific places pacific histories brings together leading pacific islands studies scholars and invites them to talk about the places they have inhabited and to contemplate the meaning of that experience the result is a veritable collage of reflections distinct and different from each other but moving in their collective impact our engagement with places becomes daily more complicated with the transnational movement of peoples ideas technologies and cultures global capitalism relentlessly alters established ethnographic assumptions about the meaning and importance of where we are and have been the essays presented here are about letting go learning and un learning transgressing physical emotional and intellectual boundaries they are about personal quests narrated in distinctive voices raising particular concerns together they contribute significantly to our understanding of how small islands in a vast ocean enable us to see ourselves and the world around us

The American Indian /edited by Norris Hundley,jr., Foreword by Vine Deloria,jr

1974

watriama and co the title echoes kipling s stalky and co is a collection of biographical essays about people

associated with the pacific islands it covers a period of almost a century and a half however the individual stories of first hand experience converge to some extent in various ways so as to present a broadly coherent picture of pacific history in this politics economics and religion overlap so too do indigenous cultures and concerns together with the activities and interests of the europeans who ventured into the pacific and who had a profound widespread and enduring impact there from the nineteenth century and who also prompted reactions from the island peoples not least significant in this process is the fact that the europeans generated a paper trail through which their stories and those of the islanders who also contributed to their written record can be known thus not only are the subjects of the essays to be encountered personally and within a contextual kinship but the way in which the past has shaped the future is clearly discernible watriama himself features in various historical narratives so too certain of his confreres in this collection which is the product of several decades of exploring the pacific past in archives by sea and on foot through most of oceania

The American Indian

1976

the essays in this book explore the vital role translation has played in defining changing and redefining linguistic cultural ethnic and political identities in several nations of the south pacific while in other parts of the world postcolonial scholars have scrutinized the role and history of translation and exposed its close relationship with the colonizers this has not yet happened in the specific region covered in this collection in translation studies the pacific region is terra incognita the writers of this volume of essays reveal that in the pacific as in all other once colonized parts of the world colonialism and translation went hand in hand the unsettling power of translation is described as it effected change for better or for worse while the pacific islanders encounter with the europeans has previously been described as having a fatal impact the authors of these essays are further able to demonstrate that the pacific islanders were not only victims but also played an active role in the cross cultural events they were party to and in shaping their own destinies examples of the role of translation in effecting change for better or for worse abound in the history of the nations of the pacific these stories are told here in order to bring this region into the mainstream scholarly attention of postcolonial and translation studies
