new technologies and increased privatization of service the adaptation of successful and popular tv formats from one place to another is occurring on an increasingly regular basis hence the remaking production finance distribution broadcasting and marketing knowledges that is facilitating the international reconfiguration of program making understanding the global tv format thus addresses the different stages and issues of the business it tracks the steps whereby formats are devised developed and distributed major companies are profiled as are the international markets and festivals at which trade occurs however there is also a great deal of piracy taking place so that the book is concerned with the control and regulation of format remaking legal protection is often both the first
