## ***Post-Westerns 2020-04-01***

during the post world war ii period the western like america's other great film genres appeared to collapse as a result of revisionism and the emergence of new forms perhaps however as theorists like gilles deleuze suggest it remains simply maintaining its empty frame yet this frame is far from empty as post westerns shows us rather than collapse the western instead found a new form through which to scrutinize and question the very assumptions on which the genre was based employing the ideas of critics such as deleuze jacques derrida and jacques rancière neil campbell examines the haunted inheritance of the western in contemporary u s culture his book reveals how close examination of certain postwar films including bad day at black rock the misfits lone star easy rider gas food lodging down in the valley and no country for old men reconfigures our notions of region and nation the western and indeed the west itself campbell suggests that post westerns are in fact ghost westerns haunted by the earlier form's devices and styles in ways that at once

acknowledge and call into question the west both as such and in its persistent ideological framing of the national identity and values

## **Tragedy and Redress in Western Literature 2018-05-04**

this book offers a unique interpretation of tragic literature in the western tradition deploying the method and style of analytic philosophy richard gaskin argues that tragic literature seeks to offer moral and linguistic redress compensation for suffering moral redress involves the balancing of a protagonist s suffering with guilt and vice versa gaskin

contends that to a much greater extent than has been recognized by recent critics traditional tragedy represents suffering as incurred by avoidable and culpable mistakes of a cognitive nature moral redress operates in the first instance at the level of the individual agent linguistic redress by contrast operates at a higher level of generality namely at the level of the community its fundamental motor is the sheer expressibility of suffering in words against many writers on tragedy gaskin argues that language is competent to express pain and suffering and that tragic literature has that expression as one its principal purposes the definition of tragic literature in this book is expanded to include more than stage drama the treatment stretches from the classical and medieval periods through to the early twentieth century there is a special focus on sophocles but gaskin takes account of most other major tragic authors in the european tradition including homer aeschylus euripides virgil seneca chaucer marlowe shakespeare corneille racine lessing goethe schiller kleist büchner ibsen hardy kafka and mann lesser known areas such as renaissance neo latin tragedy are also covered among theorists of tragedy gaskin concentrates on aristotle and bradley but the contributions of numerous contemporary commentators are also assessed tragedy and redress in western literature a philosophical perspective offers a new and genuinely interdisciplinary perspective on tragedy that will be of considerable interest both to philosophers of literature and to literary critics
