The Power of Technology in School Leadership during COVID-19 2010-11

by directly challenging existing accounts of post world war ii relations among the united states of america the united kingdom australia and new zealand divided allies is a significant contribution to transnational and diplomatic history at its heart divided allies examines why strategic cooperation among these closely allied western powers in the asia pacific region was limited during the early cold war thomas k robb and david james gill probe the difficulties of security cooperation as the leadership of these four states balanced intramural competition with the need to develop a common strategy against the soviet union and the new communist power the people s republic of china robb and gill expose contention and

textbook of obstetrics by sheila balakrishnan (Download Only)

disorganization among non communist allies in the early phase of containment strategy in asia pacific in particular the authors note the significance of economic racial and cultural elements to planning for regional security and they highlight how these domestic matters resulted in international disorganization divided allies shows that amidst these contentious relations the antipodean powers australia and new zealand occupied an important role in the region and successfully utilized quadrilateral diplomacy to advance their own national interests such as the crafting of the 1951 anzus collective security treaty as fractious as were allied relations in the early days of nato robb and gill demonstrate that the post world war ii asia pacific was as contentious and that britain and the commonwealth nations were necessary partners in the development of early global cold war strategy

Divided Allies 2024-08-30

this book addresses timely concerns of rising african nationalism and the 2nd decolonisation in africa the wholesale rejection of all things considered western is seen to be a result of integrationalism defined as the specific kind of methodology by which eu foreign policy engagement may be interpreted using complexity theory and panarchy a specific arrangement of interacting complex adaptive systems together with a resilience assessment the eu s foreign policy is shown to be undermining the aims of the premier african institution the au created to provide unity and security on the continent the eu pursues these objectives in its own image rather than honouring african values this book raises awareness of these issues as well as to widen the application of the theoretical framework in international relations and politics which is becoming increasingly important in a complex world the aim of this book is to show that the negative isolationism pursued in order to

counteract western influence is not the answer and can be avoided through this awareness

The Emancipation Proclamation, Lincoln, and Slavery Through Primary Sources 2009-05-31

inhaltsangabe abstract the emergence of information and communication technologies ict has launched a global debate digital or technological revolution about a paradigm shift from an industrialised towards an information society in the front of this debate lies the assertion that the application of ict is the impelling factor of transformation which will result in far reaching changes within all parts of the economy the society and the state the state plays therefore an important role for this transformation first the creation of a new economy which stands for a branch of industry that develops and produces hardware software and communication equipment and its penetration and application into the whole economy the emergence of e buzzwords such as e commerce or e business are related to the application of ict within the economy second after a laissez faire policy implementation through the state it has to care for social aspects such as to connect the society to the internet and create a digital literate society this second stage of the information society has its expression in the common used catchword digital divide finally the state itself comes under pressure to apply ict within government institutions expressed by the latest catchwords of e government and e governance their hype chiefly technologically determined can be equated with the emergence of the new economy within the global debate about the information society emerged from developed countries e government and e governance experience an increasing use in developing countries

textbook of obstetrics by sheila balakrishnan (Download Only)

their advocates i e international development organisations stress the catchwords for the purpose of poverty alleviation improved living standards and economic growth in developed and particularly in developing countries furthermore both subjects of the thesis have started up a new tractive force within the debate of public administration reforms both can be summarised as ict led public administration reform they are deemed to be an impelling factor of organisational change and transformation of governmental institutions moreover the literature concerning both catchwords is full of positive expectations i e enhance participation accountability transparency and overall democracy and thus they are seen as a medium to implement and support their theoretical concepts new public management npm and good governance fairly few observations in developed countries

Water and Sanitation-Related Diseases and the Changing Environment **2018-08-23**

the history of united nations peacekeeping is largely one of failure this book puts a case for augmenting ad hoc peacekeepers with competent contract labour and within the constraints of a new legal regime supporting future operations with well trained contractors who might subdue by force those who inflict gross human rights abuses on others

SDG10 - Reduce Inequality Within and Among Countries 2016-08-19

The Handbook of International Trends in Environmental Communication 2021-06-15

this book analyses the nordic constitutional systems of denmark finland iceland norway and sweden in a comparative context it has two main aims first to fill a gap in the literature by providing an accessible english language account of the nordic constitutions and second to provide a comparative analysis of them revealing their similarities and differences within their political historical and cultural contexts in this respect the book challenges the assumption that the nordic countries form a homogeneous constitutional system due to their cultural and historical affinities a view not necessarily supported by a close comparative examination a key issue is eu membership where the nordic countries have made different choices at different times and the book will show how this has affected the individual countries and whether a divide between eu member states denmark finland and sweden and non members iceland and norway has appeared another key issue is how the echr has impacted the nordic constitutional systems and whether the convention draws the nordic systems closer to each other the book represents a first of its kind in the english language and will provide constitutional scholars with a valuable comparative resource on the nordic region

Challenges of the Modern Economy 2016-11-17

since 20 december 2001 the date which marked the authorization of the international security assistance force isaf to assist the afghan government hundreds of thousands of coalition soldiers from around 50 different states have physically been and

textbook of obstetrics by sheila balakrishnan (Download Only)

served in afghanistan roughly 20 rotation periods have been experienced billions of us dollars have been spent and almost 3 500 coalition soldiers and 7 400 afghani security personnel have fallen for afghanistan in this badly managed success story the true determiner of both tactical outcomes on the ground and strategic results was always the tribal and rural parts of muslim populated afghanistan although there has emerged a vast literature on counterinsurgency theories and tactics we still lack reliable information about the motivations and aspirations of the residents of tribalised rural muslim environments trmes that make up most of afghanistan the aim of this book is to describe some on the ground problems of counterinsurgency coin efforts in trmes specifically in rural afghanistan and then to propose how these efforts might be improved along the way it will be necessary to challenge many current assumptions about the conduct of counterinsurgency in afghanistan most generally the book will show how counterinsurgency succeeds or fails at the local level at the level of tactical decisions by small unit leaders and that these decisions cannot be successful without understanding the culture and perspective of those who live in trmes although engaging issues of culture the author is not an anthropologist or an academic of any kind he is a muslim who spent his childhood in a trme a remote village in turkey and he offers his observations on the basis of 15 years worth of field experience as a turkish special forces officer serving in rural iraq turkey kazakhstan kyrgyzstan and afghanistan cultures in these areas are not the same but there are sufficient similarities to suggest some overall characteristics of trmes and some general problems of coin efforts in these environments in summary this book not only challenges some of the fundamentals of traditional counterinsurgency wisdom and emphasizes the importance of the tactical level a rarely studied field from the coin perspective but also blends the firsthand field experiences of the author with deep analyses in this sense it is not solely an autobiography but something much more
