written for the psychologist philosopher and layperson interested in consciousness exploring inner experience provides a comprehensive introduction to the descriptive experience

sampling des method for obtaining accurate reports of inner experience des uses a beeper to cue participants to pay attention to their experience at precisely defined moments participants are then interviewed to obtain high fidelity accounts of their experience at those moments exploring inner experience shows a how des uncovers previously unknown details of inner experience b how the implications of this method affect our understanding of inner experience and the human condition more generally c how des avoids the traps that destroyed the introspections of the previous century d why des reports of inner experience should be considered reliable and valid and e how to use the des method this book will be basic reading for all psychologists philosophers and students interested in consciousness as well as anyone who is seriously concerned with understanding the human condition series b
