better framework to correctly recognize which direction globalization and the transition will take us has been necessary the transition economies of china and central europe in particular hold significant implications for east asian integration and eu enlargement respectively this book examines the processes of transition regional development and globalization focusing on china and central europe and seeks to identify a new and stable international framework with improved outcomes for all divided into three parts the book first analyzes several key economic issues concerning transition in china and central europe it then examines these issues from the viewpoint of international relations finally it considers potential future directions for china japan us and eu it therefore constitutes an important contribution to our understanding of the ongoing process of globalization and ways to improve sino japanese eu american central european economic relations this book examines the dramatic increase in automotive assembly plants in the former socialist central european ce nations of czechia east germany hungary poland and slovakia from 1989 onwards enticed by relatively lower wage labour and significant government incentives the world s largest automakers have launched more than 20 passenger car assembly complexes in china and elsewhere

production accelerating dramatically since 2001 as a result the annual passenger car production in western europe declined by more than 20 between 2001 and 2015 and alternatively in the cee it increased by nearly 170 during this period drawing on case studies of 25 current and former foreign run assembly plants the author presents a rare historical account of automotive foreign assembly plants in the ce following this dramatic geographic shift this book will expand the knowledge of policy makers in europe in relation to their pursuits of fdi and will be of great interest to scholars and students of business economic history political science and development this title was first published in 2003 covering a diverse range of countries such as bulgaria the czech republic hungary poland slovakia slovenia and russia as well as referring to the characteristics of the region as a whole this book examines the inflow and outflow of foreign direct investment from both home and host company and country perspectives by analyzing foreign direct investment in terms of process content and context the book provides a holist approach towards direct foreign investment in the transitional context of central and eastern europe embracing both macro and micro economic perspectives of the process after plummeting through a hole in her backyard and the finding of her self
