## **The Log**

1951-07

pt 1 list of patentees pt 2 index to subjects of inventions

## **Index of Patents Issued from the United States Patent and Trademark Office**

1993

first published in 1988 there are many excellent texts on water supply and irrigation engineering irrigation economics agricultural development and the problems which often plague such efforts few syntheses of such writings have been made despite a clear need for them from people interested in water resources and agricultural development students of geography economics development studies and agricultural management administrators planners and aid agency staff this book attempts to provide a broad interdisciplinary introduction for such people

## ***Federal Register***

1968-11

industries that use pumps seals and pipes will also use valves and actuators in their systems this key reference provides anyone who designs uses specifies or maintains valves and valve systems with all of the critical design specification performance and operational information they need for the job in hand brian nesbitt is a well known consultant with a considerable publishing record a lifetime of experience backs up the huge amount of practical detail in this volume valves and actuators are widely used across industry and this dedicated reference provides all the information plant designers specifiers or those involved with maintenance require practical approach backed up with technical detail and engineering know how makes this the ideal single volume reference compares and contrasts valve and actuator types to ensure the right equipment is chosen for the right application and properly maintained
