in the analytical writing adrienne robins explains college
writing as a process of discovery as a series of strategies
that any college student can learn to apply all strategies
explained in this text are based on sound theories of
teaching writing and on the patterns of successful writers
writing and thinking should not be separated and presenting
only the steps without the accompanying explanation of how
they influence thinking would be of little more help than
having no method at all by using this text the students will
see as they plan draft and revise how their writing helps
clarify their thoughts this clearly written and engaging
textbook is illustrated by real examples of student writing
and appropriate cartoons the second edition was revised and
updated based on the large scale evaluation of the first
edition completed by professors and students the new edition

~~reflects four essential values recognizing the diversity of~~
writing processes the necessity of peer and teacher
interaction with the writer on drafts the integration of
writing and reading and the appropriate uses of technology
specific features of this second edition include new writing
