Knowledge of plant toxicity has always been important but the information has not always been reliable. Now increasing international trade is drawing attention to the inadequacy of regional information and highlighting the geographical fragmentation and notorious discrepancies of thinly documented information. The international community of safety

The 8th international symposium on monitoring of Mediterranean coastal areas: problems and measurement techniques was organized by CNR-IBE in collaboration with FCS Foundation and Natural History Museum of the Mediterranean and under the patronage of University of Florence, Accademia dei Geografi, Tuscany Region and Livorno Province. It is the occasion in which scholars can illustrate and exchange their activities and innovative proposals with common aims to promote actions to preserve the coastal marine environment. Considering the interdisciplinary nature of the scientific committee, underlining this holistic view of nature, decided to celebrate Alexander von Humboldt, a nature scholar that proposed the organic and inorganic nature aspects as a single system. It represents a sign of continuity considering that in presence the symposium could not be carried out due to the COVID-19 pandemic restrictions. Subjects are related to coastal topics: morphology, flora and fauna, energy production, management and integrated protection, geography and landscape, cultural heritage and environmental assets, legal and economic aspects.

Treaties and Other International Acts Series 1963

the unidroit principles of international contracts first published in 1994 have met with extraordinary success in the legal and business community worldwide prepared by a group of eminent experts from all major legal systems of the world they provide a comprehensive set of rules for international commercial contracts available in more than 20 language versions they are increasingly being used by national legislatures as a source of inspiration in law reform projects by lawyers as guidelines in contract negotiations and by arbitrators as a legal basis for the settlement of disputes in 2004 a new edition of the unidroit principles was approved containing five new chapters and adaptations to take into account electronic contracting this new edition of an international restatement of contract law is the first comprehensive introduction to the unidroit principles 2004 in addition it provides an extensive survey and analysis of the actual use of the unidroit principles in practice with special emphasis on the different ways in which they have been interpreted and applied by the courts and arbitral tribunals in the hundred or so cases reported worldwide the book also contains the full text of the preamble and the 180 articles of the unidroit principles 2004 in chinese english french german italian and russian as well as the 1994 edition in spanish published under the transnational publishers imprint
