The Ideological Origins of the American Revolution 2012-10-01 to the original text of what has become a classic of american historical literature bernard bailyn adds a substantial essay fulfillment as a postscript here he discusses the intense nation wide debate on the ratification of the constitution stressing the continuities between that struggle over the foundations of the national government and the original principles of the revolution this detailed study of the persistence of the nation s ideological origins adds a new dimension to the book and projects its meaning forward into vital present concerns

Faces of Revolution 2011-06-29 pulitzer prize winning author bernard bailyn brings us a book that combines portraits of american revolutionaries with a deft exploration of the ideas that moved them and still shape our society today

The Ideological Origins of the American Revolution 2017-04-19 the ideological origins of the american revolution is a classic of american historical literature required reading for understanding the founders ideas and their struggles to implement them in the preface to this 50th anniversary edition bernard bailyn isolates the founders profound concern with the uses and misuses of power

The Press & the American Revolution 1981 an examination of how wartime rhetoric in world war i influenced the home front fiction of four british women writers violet hunt rose macaulay stella benson and rebecca west

An Analysis of Bernard Bailyn's The Ideological Origins of the American Revolution 2017-07-05 historians of the american revolution had always seen the struggle for independence either as a conflict sparked by heavyweight ideology or as a war between opposing social groups acting out of self interest in the ideological origins of the american revolution bernard bailyn begged to differ re examining

familiar evidence to establish new connections that in turn allowed him to generate fresh explanations his influential reconceptualizing of the underlying reasons for america s independence drive focused instead on pamphleteering and specifically on the actions of an influential group of conspirators who identified and were determined to protect a particularly american set of values for baily these ideas could indeed be traced back to the ferment of the english civil war stemming from radical pamphleteers whose anti authoritarian ideas crossed the atlantic and embedded themselves in colonial ideology baily s thesis helps to explain the revolution s success by pointing out how deep rooted its founding ideas were the founding fathers may have been reading locke but the men they led were inspired by shorter pithier and altogether far more radical works only by understanding this baily argues can we understand the passion and determination that allowed the rebel american states to defeat a global superpower

The Origins of American Politics 1968 winner of the pulitzer prize and the saloutos prize of the immigration history society baily s pulitzer prize winning book uses an emigration roster that lists every person officially known to have left britain for america from december 1773 to march 1776 to reconstruct the lives and motives of those who emigrated to the new world voyagers to the west is a superb book it should be equally admired by and equally attractive to the general reader as to the professional historian r c simmons journal of american studies

Voyagers to the West 2011-08-03 in this introduction to his large scale work the peopling of british north america bernard baily identifies central themes in a formative passage of our history the transatlantic transfer of people from the old world to the north american continent that formed the basis of american society

voyagers to the west which covers the british migration in the years just before the american revolution and is the first major volume in the peopling project is also available from vintage books

The Peopling of British North America 2011-06-08 two time pulitzer prize winning historian bernard bailyn has distilled a lifetime of study into this brilliant illumination of the ideas and world of the founding fathers in five succinct essays he reveals the origins depth and global impact of their extraordinary creativity the opening essay illuminates the central importance of america s provincialism to the formation of a truly original political system in the chapters following he explores the ambiguities and achievements of jefferson s career benjamin franklin s changing image and supple diplomacy the circumstances and impact of the federalist papers and the continuing influence of american constitutional thought throughout the atlantic world to begin the world anew enlivens our appreciation of how america came to be and deepens our understanding of the men who created it

To Begin the World Anew 2007-12-18 bailyn a professor at harvard and winner of the pulitzer prize writes of the impossibility of teaching history without bias and that history itself is constantly open to new interpretations and viewpoints

On the Teaching and Writing of History 1994 atlantic history is a newly and rapidly developing field of historical study bringing together elements of early modern european african and american history their common comparative and interactive aspects atlantic history embraces essentials of western civilization from the first contacts of europe with the western hemisphere to the independence movements and the globalizing industrial revolution in these probing essays bernard bailyn explores the origins of the subject its rapid development and its impact on historical study

he first considers atlantic history as a subject of historical inquiry how it evolved as a product of both the pressures of post world war ii politics and the internal forces of scholarship itself he then outlines major themes in the subject over the three centuries following the european discoveries the vast contribution of the african people to all regions of the west the westward migration of europeans pan atlantic commerce and its role in developing economies racial and ethnic relations the spread of enlightenment ideas all are atlantic phenomena in examining both the historiographical and historical dimensions of this developing subject bailyll illuminates the dynamics of history as a discipline

Voyagers to the West 1987 the paradoxical and tragic story of america s most prominent loyalist a man caught between king and country

Atlantic History 2009-06-30 the brilliance of a master historian shines through this elegant and engaging memoir of a lifetime s work richard aldous wall street journal over a remarkable career bernard bailyll has reshaped our understanding of the early american past inscribing his superb scholarship with passion and imagination honed by a commitment to rigor bailyll captures the particularity of the past and its broad significance in precise elegant prose his transformative work has ranged from a new reckoning with the ideology that powered the opposition to british authority in the american revolution to a sweeping account of the peopling of america and the critical nurturing of a new field the history of the atlantic world illuminating history is the most personal of bailyll s works it is in part an intellectual memoir of the significant turns in an immensely productive and influential scholarly career it is also alive with people whose actions touched the long arc of history among the dramatic human stories that command our attention a struggling boston merchant

tormented by the tensions between capitalist avarice and a constrictive puritan piety an ordinary shopkeeper who in a unique way feverishly condemned british authority as corrupt and unworthy of public confidence a charismatic german pietist who founded a cloister in the pennsylvania wilderness famous for its strange theosophy its spartan lifestyle and its rich musical and artistic achievement and the good townspeople of petersham whose response in 1780 to a draft massachusetts constitution speaks directly to us through a moving insistence on individual freedoms in the face of an imposing central authority here is vivid history and an illuminating self portrait from one of the most eminent historians of our time

The Ordeal of Thomas Hutchinson 1974 historians of the american revolution had always seen the struggle for independence either as a conflict sparked by heavyweight ideology or as a war between opposing social groups acting out of self interest in the ideological origins of the american revolution bernard bailyn begged to differ re examining familiar evidence to establish new connections that in turn allowed him to generate fresh explanations his influential reconceptualizing of the underlying reasons for america s independence drive focused instead on pamphleteering and specifically on the actions of an influential group of conspirators who identified and were determined to protect a particularly american set of values for bailyn these ideas could indeed be traced back to the ferment of the english civil war stemming from radical pamphleteers whose anti authoritarian ideas crossed the atlantic and embedded themselves in colonial ideology bailyn s thesis helps to explain the revolution s success by pointing out how deep rooted its founding ideas were the founding fathers may have been reading locke but the men they led were inspired by shorter pithier and altogether far more radical works only

by understanding this baily argues can we understand the passion and determination that allowed the rebel american states to defeat a global superpower

Illuminating History: A Retrospective of Seven Decades 2020-04-14 this is the first volume of a four volume set that will reprint in their entirety the texts of 72 pamphlets relating to the anglo american controversy that were published in america in the years 1750 1776 they have been selected from the corpus of the pamphlet literature on the basis of their importance in the growth of american political and social ideas their role in the debate with england over constitutional rights and their literary merit all of the best known pamphlets of the period such as james otis rights of the british colonies 1764 john dickinson s farmers letters 1768 and thomas paine s common sense 1776 are to be included in addition there are lesser known ones particularly important in the development of american constitutional thought stephen johnson s some important observations 1766 john joachim zublys an humble enquiry 1769 ebenezzer baldwins an appendix stating the heavy grievances 1774 and four letters on interesting subjects 1776 there are also pamphlets illustrative of the sheer vituperation of the revolutionary polemics and others selected for their more elevated literary merit both sides of the anglo american dispute and all genres of expression poetry dramatic dialogues sermons treatises documentary collections political position papers that appeared in this form are included each pamphlet is introduced by an essay written by the editor containing a biographical sketch of the author of the document an analysis of the circumstances that led to the writing of it and an interpretation of its contents the texts are edited for the convenience of the modern reader according to a scheme that preserves scrupulously the integrity of every word written but that frees the text from the encumbrances of

18th century printing practices all references to writings people and events that are not obvious to the informed modern reader are identified in the editorial apparatus and where necessary explained in detailed notes this first volume of the set contains the texts of 14 pamphlets through the year 1765 it presents in addition a book length general introduction by mr bailyn on the ideology of the american revolution in the seven chapters of this essay the ideological origins and development of the revolutionary movement are analyzed in the light of the study of the pamphlet literature that went into the preparation of these volumes mr bailyn explains that close analysis of this literature allows one to penetrate deeply into the colonists understanding of the events of their time to grasp more clearly than is otherwise possible the sources of their ideas and their motives in rebelling and above all to see the subtle fundamental transformation of 18th century constitutional thought that took place during these years of controversy and that became basic doctrine in america thereafter mr bailyn stresses particularly the importance in the development of american thought of the writings of a group of early 18th century english radicals and opposition politicians who transmitted to the colonists most directly the 17th century tradition of anti authoritarianism born in the upheaval of the english civil war in the context of this 17th and early 18th century tradition one sees the political importance in the revolutionary movement of concepts the 20th century has generally dismissed as mere propaganda and rhetoric slavery conspiracy corruption it was the meaning these concepts imparted to the events of the time mr bailyn suggests as well as the famous lockean notions of natural rights and social and governmental compacts that accounts for the origins and the basic characteristics of the american revolution publisher s description

An Analysis of Bernard Bailyn's The Ideological Origins of the American Revolution
2017-07-05 revolutionary currents explores the global cross currents revolutionary ideologies that inspired four great modern revolutions in england america france mexico between 1688 the early 1800s

The Great Republic 1985 finalist for the pulitzer prize a compelling fresh account of the first great transit of people from britain europe and africa to british north america their involvements with each other and their struggles with the indigenous peoples of the eastern seaboard the immigrants were a mixed multitude they came from england the netherlands the german and italian states france africa sweden and finland and they moved to the western hemisphere for different reasons from different social backgrounds and cultures they represented a spectrum of religious attachments in the early years their stories are not mainly of triumph but of confusion failure violence and the loss of civility as they sought to normalize situations and recapture lost worlds it was a thoroughly brutal encounter not only between the europeans and native peoples and between europeans and africans but among europeans themselves as they sought to control and prosper in the new configurations of life that were emerging around them

Pamphlets of the American Revolution, 1750-1776: 1750-1765 1965 the migration from hitler s europe to the u s interpretations by some of the leading emigres

Revolutionary Currents 2004 from one of the most respected historians in america twice the winner of the pulitzer prize a new collection of essays that reflects a lifetime of erudition and accomplishments in history the past has always been elusive how can we understand people whose worlds were utterly different from our own without imposing our own standards and hindsight what did things feel like in

the moment when outcomes were uncertain how can we recover those uncertainties what kind of imagination goes into the writing of transformative history are there latent trends that distinguish the kinds of history we now write how unique was north america among the far flung peripheries of the early british empire as bernard bailyn argues in this elegant deeply informed collection of essays history always combines approximations based on incomplete data with empathic imagination interweaving strands of knowledge into a narrative that also explains this is a stirring and insightful work drawing on the wisdom and perspective of a career spanning more than five decades a book that will appeal to anyone interested in history

The Barbarous Years 2012-11-06 marshalling historical materials to make a descriptive argument in social theory this wide ranging book compares the liberal revolution in france to the liberal revolutions in england and america and argues that the causes and outcomes of these upheavals were decisive in shaping later patterns of politics conflict is the stuff of politics writes anne sa adah and liberal politics because of its emphasis on the individual and its legitimation of self interest complicates the task of creating political community in a particularly interesting way in england and america the tension between conflict and community was resolved in a manner consistent with political stability in france the tension produced an instability that has surfaced periodically throughout subsequent french history why this is so is the subject of a work that treats the making of the modern political world in an unusually systematic way in france england and america the relationship of the state to society under the prerevolutionary regime limited revolutionary options sa adah focuses on how this relationship created a politics of

exclusion in france while allowing a politics of transaction in england and america originally published in 1990 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

The Intellectual Migration 1969 based on thesis harvard university includes bibliographical references

Sometimes an Art 2015-01-20 ce grand classique de la littérature historique américaine lucide et incisif a fait profondément évoluer le regard sur les fondements de la république américaine au delà des idées des lumières qui ont pu inspirer les révolutions du xviiie siècle c est la voix des porte parole de la révolution que fait ici entendre baily ces pamphlétaires essayistes ou commentateurs n étaient pas des philosophes mais des hommes actifs politiciens commerçants hommes de loi planteurs ou pasteurs à la fois humanistes civiques et libéraux attachés à la vertu comme à la propriété privée des milliers d écrits pamphlets sermons articles de presse témoignent de cette confrontation entre idéologie révolutionnaire et construction d un gouvernement national dans une postface à cette dernière édition baily souligne toutes les contradictions d une forme singulière de patriotisme dont le fil court jusque dans l amérique d aujourd hui ce livre a reçu aux États unis deux récompenses prestigieuses le prix pulitzer et le prix bancroft

The Great Republic 1977 using the british empire as a case study this succinct study argues that the establishment of overseas settlements in america created a problem of constitutional organization the failure to resolve the resulting tensions led to the thirteen continental colonies seceding from the empire in 1776 challenging those historians who have assumed that the british had the law on their side during the debates that led to the american revolution this volume argues that the empire had long exhibited a high degree of constitutional multiplicity with each colony having its own discrete constitution contending that these constitutions cannot be conflated with the metropolitan british constitution it argues that british refusal to accept the legitimacy of colonial understandings of the sanctity of the many colonial constitutions and the imperial constitution was the critical element leading to the american revolution

The Shaping of Liberal Politics in Revolutionary France 2014-07-14 in beyond 1776 ten humanities scholars consider the american revolution within a global framework the foundation of the united states was deeply enmeshed with shifting alliances and multiple actors with politics saturated by imaginative literature and with ostensible bilateral negotiations that were in fact shaped by speculation about realignments in geopolitical power to reanimate these intricate and often indirect connections this volume uncovers the influences of people across disparate sites both during and after independence the book centers first on the migration of ideas across the atlantic particularly among intellectuals and through print in this section scholars focus on how various european countries or cliques appropriate the revolution to reanimate an array of national local or cosmopolitan affiliations the essays in the second section articulate how revolutions fostered surprising

exchanges in for example the west indies and in the first penal colonies of australia along the celtic fringe and pacific rim and in the vast territories through which goods circulated taken as a whole this collection answers the persistent calls from scholars to move beyond the boundaries defined by the nation state or periodization to rethink narratives of u s foundations the contributors examine a range of texts from novels and drama to diplomatic correspondence letters of common sailors political treatises newspapers accounting ledgers naval records and burial rituals many from non anglophone sources beyond 1776 will appeal to scholars seeking to understand contact and exchange in the late eighteenth century it indexes how different intellectuals in the period deployed the revolution as a point of connection follows the dispersal of print books guns slaves and memorabilia and evaluates literary responses to the new republic the book puts in conversation scholars of literature theater history modern languages american studies political science transatlanticism cultural studies women s studies postcolonialism and geography contributors jeng guo chen academia sinica taiwan matthew dziennik united states naval academy miranda green bartet university of western ontario carine lounissi université de rouen normandie therese marie meyer martin luther university of halle wittenberg maria o malley university of nebraska kearney denys van renen university of nebraska kearney ed simon bentley university wyger velema university of amsterdam leonard von morzé university of massachusetts boston

The New England Merchants in the Seventeenth Century 1955 essays on harvard s history provide sample glimpses of a part still significant in the twentieth century

Les origines idéologiques de la révolution américaine 2010 what were the intentions of the founders was the american constitution designed to protect individual rights

to limit the powers of government to curb the excesses of democracy or to create a robust democratic nation state these questions echo through today s most heated legal and political debates in this powerful new interpretation of america s origins max edling argues that the federalists were primarily concerned with building a government that could act vigorously in defense of american interests the constitution transferred the powers of war making and resource extraction from the states to the national government thereby creating a nation state invested with all the important powers of europe s eighteenth century fiscal military states a strong centralized government however challenged the american people s deeply ingrained distrust of unduly concentrated authority to secure the constitution s adoption the federalists had to accommodate the formation of a powerful national government to the strong current of anti statism in the american political tradition they did so by designing a government that would be powerful in times of crisis but which would make only limited demands on the citizenry and have a sharply restricted presence in society the constitution promised the american people the benefit of government without its costs taking advantage of a newly published letterpress edition of the constitutional debates a revolution in favor of government recovers a neglected strand of the federalist argument making a persuasive case for rethinking the formation of the federal american state

The Great Republic 1992-12-31 the marketplace of revolution offers a boldly innovative interpretation of the mobilization of ordinary americans on the eve of independence breen explores how colonists who came from very different ethnic and religious backgrounds managed to overcome difference and create a common cause capable of galvanizing resistance in a richly interdisciplinary narrative that

weaves insights into a changing material culture with analysis of popular political protests breen shows how virtual strangers managed to communicate a sense of trust that effectively united men and women long before they had established a nation of their own the marketplace of revolution argues that the colonists shared experience as consumers in a new imperial economy afforded them the cultural resources that they needed to develop a radical strategy of political protest the consumer boycott never before had a mass political movement organized itself around disruption of the marketplace as breen demonstrates often through anecdotes about obscure americans communal rituals of shared sacrifice provided an effective means to educate and energize a dispersed populace the boycott movement the signature of american resistance invited colonists traditionally excluded from formal political processes to voice their opinions about liberty and rights within a revolutionary marketplace an open raucous public forum that defined itself around subscription lists passed door to door voluntary associations street protests destruction of imported british goods and incendiary newspaper exchanges within these exchanges was born a new form of politics in which ordinary man and women precisely the people most often overlooked in traditional accounts of revolution experienced an exhilarating surge of empowerment breen recreates an empire of goods that transformed everyday life during the mid eighteenth century imported manufactured items flooded into the homes of colonists from new hampshire to georgia the marketplace of revolution explains how at a moment of political crisis americans gave political meaning to the pursuit of happiness and learned how to make goods speak to power

The Great Republic 1977-01-01 these eight original essays by a group of america s most distinguished scholars include the following themes the meaning and

significance of the revolution the long term underlying causes of the war violence and the revolution the military conflict politics in the continental congress the role of religion in the revolution and the effect of the war on the social order this is the product of the celebrated symposium on the american revolution held in 1971 by the institute originally published 1973 a unc press enduring edition unc press enduring editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print these editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

The American Revolution 1990 tradition conflict and modernization perspectives on the american revolution aims to expand knowledge on the intellectual character of the revolution its relation to the trend of modernization and its standing as a manifestation of social conflict the book discusses the american revolution in national tradition the collective action in england and america in 1765 1775 and back country rebellions and the homestead ethic in america in 1740 1799 the text also describes the perspective of modernization related to the american revolution modernization and human historians will find the book invaluable

The American Revolution and the Rhetoric of History 1978 this ebook is a selective guide designed to help scholars and students of the ancient world find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to
