The Time of Miracles 1994 borislav pekic spent six years in jail as a political prisoner his only reading material the bible in 1965 ten years after his pardon his first novel the time of miracles was published and became an overnight sensation a set of parables based on the miracles of the new testament the book rewrites the story of jesus from the perspective of judas who is obsessed with the idea prophecy must be fulfilled and from that of the individuals upon whom miracles were performed without their consent and in most cases to their eventual dissatisfaction filled with humor and poignancy the time of miracles is a trenchant commentary on the power of ideology in one s life upon what it means to hold beliefs and upon the nature of faith

**A Dictionary of Miracles** 1889 philosophers who wish to argue for the rationality of belief in god frequently employ a god of the gaps strategy this strategy consists in trying to find a phenomenon that cannot be explained by natural science and insisting that it can be explained only by reference to the activity of god philosophical discussion of miracles usually revolves around the attempt to link a miracle to god in just this way one of the problems with this approach is that it is very difficult to identify anything as being forever beyond the power of science to explain science continues to advance upon the territory occupied by the god of the gaps thus it is desirable to develop an account of divine agency that will not be subject to revision in the face of scientific progress this book is just such an account drawing on recent work in the theory of action it shows that we can attribute god s agency to an event in nature without eliminating the possibility that it might be explained scientifically in bringing god s actions out of the gaps we avoid the possibility that future discoveries in science will make our talk of divine agency obsolete

**Beginning of Miracles** 2018-11 miracles are extraordinary facts or events that happen through divine intervention they strike instantaneous fear awe and admiration they are not meant for entertainment as the mad king herod wanted them from jesus neither were they for the amusement of satan who tried to tempt jesus to turn stone into bread the extraordinary awesome character of miracles is meant by god to attract man s curiosity to hear what he wants him or her to know or need to know for his salvation that s divine psychology very much like what scholastics used to teach learning starts with the senses remember how moses curiosity was excited by the burning bush that preceded god s message go seek pharaoh to let god s chosen people go indeed once man s attention is engaged god reveals his message a salvation related message miracles are god s ways of communicating what he wants people to know and live by to attain the purpose of their existence citing extraordinary events in the old testament and the prodigious works of christ the apostles and the saints handbook of miracles defines miracles as conveyors of god s messages of salvation every true miracle is salvation ordained miracles were among christ s manners by which he revealed a way of life that leads people to eternal happiness by the miracle of his resurrection for instance christ reveals he is the son of god sent by the father to redeem mankind from sin the book further explains the nature of miracles from philosophy and theology from eternity we read the creator determined what everything in his creation can or cannot do god

s creation includes angels who are pure spirits and humans who are made of spirit and matter he created the universe and everything in it physical objects time and movement any conceivable and inconceivable energy and potency embedded in them the sum total of his creation and everything in it is what we come to know as nature nature is finite it has limits only god is infinite he is limitless he can do what he wills to do can make any creature do what is beyond what he determined it can or cannot do and when that happens miracle occurs the author also explains scripturally and theologically how mary s conception of jesus and his birth are miracles so are mary s immaculate conception and assumption to heaven the conversions of st peter and st paul are also discussed as internal miracles as explained by st thomas aquinas handbook of miracles notes that since people live in space and time that continually change god makes miracles to happen in different times and various places thus miracles happen in every generation and in various places of the world the messages conveyed by the saints miracles together with their holy lives model and explain for their generation and generations after them the way of life taught by christ this book attempts to spell out the meaning of each of the saints miracles but also invites readers to meditate on the miracles significance as applicable to every reader s personal life the handbook discusses the various miracles wrought by god through the saints who because of their holy lives their unwavering faith and heroic love of god and neighbor became conduits of god s power and mercy accordingly one or the other saint raised the dead back to life cured the sick multiplied food read minds and prophesied received the gift of tongues defied the enemies of god and laws of nature levitated and shone like the sun and each of these miracles conveyed a divine message of salvation citing the scriptures the author cites conditions by which miracles can happen to anybody unwavering faith coupled with love according to st paul if i have faith so as to remove mountains yet do not have love i am nothing 1 cor 13 2 3 perseverance lk 18 37 41 resignation to god s will by which we ask god s will be done lk
