by day paul meadors is a fifth grade teacher in a small california town by
night he trolls the millions of items for sale on ebay posing as his alter
ego art farkas and catching sellers off guard with his ludicrous and bizarre
questions about their auctions as he amusingly demonstrates time and time
again even in today s hyper vigilant and impersonal digital world the spirit
of human salesmanship lives on no matter how outrageous the question or
request for example art asks the seller of a set of bongo drums if there
would be a way to attach them to his grandmother s back so that she could
take them to the corner and play on the street to earn her rent money which
elicits a sincere yet bitingly humorous response from the entertaining
auctions themselves to paul s loony letters and the serious responses they
provoke letters to ebay provides a fascinating and humourous glimpse into the
strange world of ebay and those who dwell within
