with a proven track record of working in the most demanding environments our engine controllers deliver unparalleled command control and communication advantages the full range provides individually tailored solutions meeting the precise needs of land based marine auxiliary emergency and propulsion as well as bi fuel engines

product categories walker products Mar 28 2024

product categories as an industry leader walker products has evolved into a premier supplier of fuel delivery components emission control products engine sensors ignition wire sets ignition coils and coil on plug boots

marine engine propulsion systems glendinning products Feb 27 2024

electronic engine controls eec 3 eec 4 mechanical engine controls smart actuator 1 smart actuator 2 various applications waterjet propulsion controls electric propulsion controls

engine control products swri southwest research institute Jan 26 2024

automotive software engine control products southwest research institute swri has been developing electronic widgets to support powertrain r d for more than a decade as the family of specialty products began to grow a client asked what we called them

total engine control electromotive engine controls Dec 25 2023

the tec products are pc programmable engine control systems featuring a powerful windows based tuning environment converting from carburetion to fuel injection has never been easier than with tec

alternative fuel systems inc Nov 24 2023

with with tens of thousands of engine controllers sold afs has demonstrated the ability to design controller hardware and software for the varied priorities and requirements of markets around the world injected or carbureted lean burn or stoichiometric 12 or 24 volt multiport or single point turbocharged or naturally aspirated stand
