~~economic lives more than any other factor affecting how hard we work and how we learn~~
spend and save identity economics is a new way to understand people s decisions at work at school and at home with it we can better appreciate why incentives like stock options work or don t why some schools succeed and others don t why some cities and towns don t invest in their futures and much much more identity economics bridges a critical gap in the social sciences it brings identity and norms to economics people s notions of what is proper and what is forbidden and for whom are fundamental to how hard they work and how they learn spend and save thus people s identity their conception of who they are and of who they choose to be may be the most important factor affecting their economic lives and the limits placed by society on people s identity can also be crucial determinants of their economic well being final issue of each volume includes table of cases reported in the volume

Lincoln Electric 1999 the village of Lancaster became the state of Nebraska's first capital city in 1867 renamed Lincoln not everyone predicted its success one early observer noted there are no roads leading to it now it has no commerce and there is scarcely a wagon load of produce raised annually within ten perhaps twenty miles of it these postcards from the authors collections tell a different story in 200 plus images of a city that not only survived but thrived most of these images are from postcards heyday in the first quarter of the 20th century many show buildings and places still recognizable a century later while some depict less familiar scenes now lost
