in the two centuries before the norman invasion of england anglo saxon and viking forces clashed

repeatedly in bloody battles across the country repeated viking victories in the 9th century led to their settlement in the north of the country but the tide of war ebbed and flowed until the final anglo saxon victory before the norman conquest using stunning artwork this book examines in detail three battles between the two deadly foes ashdown in 871 which involved the future alfred the great maldon in 991 where an anglo saxon army sought to counter a renewed viking threat and stamford bridge in 1066 in which king harold godwinsson abandoned his preparations to repel the expected norman invasion in order to fight off harald hard counsel of norway drawing upon historical accounts from both english and scandinavian sources and from archaeological evidence gareth williams presents a detailed comparison of the weaponry tactics strategies and underlying military organization of the anglo saxons and vikings and considers the developments which took place on both sides in the two centuries of viking incursions into anglo saxon england

## The Plot to Kill a Queen

## **The Palgrave Handbook of Religion and State Volume II**

2002-11-30

fully illustrated this absorbing study assesses the warriors fighting on both sides during the vikings attacks on the frankish realm in the 9th century as raiding escalated into full scale siege warfare on the eve of the 9th century vikings first raided the frankish empire on the coast of what is now western france although this attack ended in disaster for the scandinavians charlemagne reportedly wept not in fear of his own life but for the ensuing bloodshed brought upon his successors mobile parties of highly skilled viking warriors would continue to raid francia for decades as these attacking contingents grew more numerous they began to assail powerful centres besieging paris in 845 and again in 885 to combat the viking threat frankish kings mustered scores of infantrymen then subsequently transitioned to cavalry based forces in the 9th century the dynamic nature of viking activity in francia meant that numbers and mobility would determine the fate of charlemagne s holy roman empire this study documents the evolving trial of strength between the vikings and the franks under charlemagne and his successors through a careful synthesis of primary sources expert analysis and the archaeological record the author invites the reader to visualize the fighting men who fought one another in francia and offers a balanced assessment of their successes and failures over decades of warfare during the viking age
