description of the product 100 updated with the 2023 paper held on may 14th extensive practice with 3350 mcqs of 15 years of solved papers 1 2 topper s strategy from divya sikarwar uppcs topper 2023 air 1 valuable exam insights with special coverage on up special gs section concept clarity with detailed explanations dfid is right to focus more resources on fragile states if global poverty reduction goals are to be met however this report highlights a number of concerns about dfid s capacity to meet this and other new policy directions set out in the 2009 white paper cm 7656 isbn 9780101765626 based on analysis of the department s performance in 2008 09 the department s annual report 2008 09 published as hc 867 i ii isbn 9780102962154 climate change another key white paper focus area threatens progress on poverty reduction and will hit the poorest people first and hardest the outcome of the copenhagen conference in december 2009 was disappointing and real progress needs to be made before the next conference at the end of this year the white paper also indicates that dfid will channel more funding through multilateral organisations including the eu the un and the world bank this offers the prospect of more coordinated delivery of aid but only if these bodies increase their effectiveness and their poverty focus the report also argues for speedier reform of the governance of the international financial institutions the recession has had a significant impact on developing countries it is estimated that an additional 90 million people will be affected by poverty as a combined result of the global food financial and fuel crises over the last few years donors including the uk have responded and have sought to identify specific needs in developing countries though many donors are failing to meet the aid commitments they have already made the presented book upsc civil services 29 years ias prelims gs paper 1 csat paper 2 which is thoroughly revised and updated and is in 2 color texts covers the questions of the last 29 years for general studies 1995 2023 csat 2011 2023 a chapters have been prepared according to the previous years upsc civil services prelims paper the book has also been incorporated with information instructions for civil services exams plan schemes of examinations tips strategies along with time management for civil services exams preparation explanations are error free as well as precise asked questions are arranged in topics such as history of india physical indian world geography indian polity governance economic social development general issues on environment ecology bio diversity climate change general science general knowledge and current events in csat question papers are categorised such as general comprehension interpersonal there is much speculation about whether democracy is still advancing around the world and the influence that leading authoritarian or semi authoritarian regimes such as russia are starting to have on the trends this collection assesses global trends in democratisation reviews the condition of international democracy promotion and enquires into whether serious competition in the form of autocracy promotion is now a major possibility the influence of international politics on national political regimes is explored in more detail for russia s resistance to democracy promotion and russian influence on regimes in

central asia in particular along with an indian perspective on india s reluctance to push for democracy abroad and concerns that democracy promotion itself should be considered more critically if it undermines democratisation in foreign aid dependent states the book concludes by briefly addressing the potential significance of the 2011 arab spring for these themes this book was published as a special issue of contemporary politics this book provides a timely and insightful analysis of the expansion of biofuels production and use in recent years drawing on interviews with key policy insiders ackrill and kay show how biofuels policies have been motivated by concerns over climate change energy security and rural development evidence based management ebmgt derives principles of good management from scientific research meta analysis literature reviews and case studies and then translates them into practice this book is the first systematic assessment of ebmgt and its potential application in public management insecure gulf examines how the concept of arabian persian gulf security is evolving in response to new challenges that are increasingly non military and longer term food water and energy security managing and mitigating the impact of environmental degradation and climate change addressing demographic pressures and the youth bulge and reformulating structural economic deficiencies in addition to dealing with the fallout from progressive state failure in yemen require a broad global and multi dimensional approach to gulf security while traditional threats from iraq iran nuclear proliferation and trans national terrorism remain robust these new challenges to gulf security have the potential to strike at the heart of the social contract and redistributive mechanisms that bind state and society in the arab oil monarchies insecure gulf explores the relationship between traditional and new security challenges and situates them within the changing political economy of the gcc states as they move toward post oil structures of governance it describes how regimes are anticipating and reacting to the shifting security paradigm and contextualizes these changes within the broader political economic social and demographic framework it also argues that a holistic approach to security is necessary for regimes to renew their sources of legitimacy in a globalizing world the objective of the 2014 international conference on computer network security and communication engineering cnsce2014 is to provide a platform for all researchers in the field of computer network security and communication engineering to share the most advanced knowledge from both academic and industrial world to communicate with each other about their experience and most up to date research achievements and to discuss issues and future prospects in these fields as an international conference mixed with academia and industry cnsce2014 provides attendees not only the free exchange of ideas and challenges faced by these two key stakeholders and encourage future collaboration between members of these groups but also a good opportunity to make friends with scholars around the world as the first session of the international conference on cnsce it covers topics related to computer network security and communication engineering cnsce2014 has attracted many scholars researchers and practitioners in these fields from various countries they take this chance to get together sharing their latest research achievements with each other it has also achieved great success by its unique characteristics and strong academic atmosphere as well as its authority a growing concern among those interested in economic development is the realization that hundreds of billions of dollars are illicitly flowing out of developing countries to tax havens and other financial centers in the developed world this volume assesses the dynamics of these flows much of which is from corruption and tax

evasion what causes them what are their consequences and how might they be controlled the chapters by authors from a variety of backgrounds including criminologists and practicing lawyers as well as economists examine many dimensions of the phenomenon for example one chapter examines the political economy of the issue to what extent is this the consequence of a more general failure of governance so that it is more a manifestation of government weakness or can it be identified with a few specific features two other chapters examine major illegal markets drug trafficking and human smuggling to assess how they contribute to these flows other chapters are concerned with the corporate role in the phenomenon particularly the possibility that transfer pricing in which firms set prices for international trade among wholly owned affiliates might play a major role in moving money illicitly bassan provides a remarkable compendium on the relevant laws regulations and standards affecting sovereign wealth funds these institutions are now at the very centre of the global financial system and demand greater appreciation of their distinctive qualities as well as their likely implications for nation states and the global economy bassan s book is a unique contribution to understanding the governance and regulation of these institutions and will be an important resource book for those who must grapple with the growing power and global scope of these institutions gordon l clark university of oxford uk and monash university australia this book covers a true vacuum in international legal literature thanks to its multi facet in depth analysis of swfs a new type of protagonists of transnational investments in the global economy it analyses critically the various approaches put forth to pinpoint real nature legal set up relevant features in the diverse operating activity of swf in the perspective of addressing the issue of the most appropriate regulation that would ensure two apparently conflicting goals the protection of swf investments and of host states legitimate concerns for vital national political or economic interests and the diverse activities on this basis the author reviews the various international hard and soft law regulations proposed and the relevance of existing disciplines including bilateral investment treaties the full coverage of the issue of sovereign immunity in respect of swf is a useful completion of the author s analysis giorgio sacerdoti bocconi university italy this book provides a definition and classification for sovereign wealth funds swfs and discusses its phenomenon within the legal context it identifies the rules applicable to swfs and focuses on the bilateral relationships between states in eight extensive chapters fabio bassan considers whether swfs may enjoy immunity with respect to host state measures as well as protection in bilateral investment treaties written from an international law perspective the law of sovereign wealth funds will appeal to students of international business international organizations banks and governments how the objective of a resource efficient low carbon economy is to be reached and how the transition is managed are the key issues addressed by this publication the two main focuses are industrial policy and employment prospects on the road to a green economy that retains its industrial base any lasting recovery of the real economy will necessarily take the shape of a more resource efficient production model while we argue that only a more ambitious and comprehensive european climate policy framework would have a chance of delivering the broader 2050 climate targets this does not mean that europe has to give up its industrial base and its related competences several chapters of this book argue that the option of attaining a low carbon economy through deindustrialisation would prevent europe from preserving its competitiveness and knowledge base which are also essential for exploiting the potential of the emerging eco

industry while decoupling economic growth from resource use is also possible with an industrial base that is more energy and resource efficient this does require a fundamental shift in terms of how the economy is managed and how business decisions are made sustainable industrial and structural policies are needed also in order to ensure that this revolutionary process takes place in a socially balanced manner the sector specific approach to corporate responsibility cr has attracted little attention so far although the industrial sector is a key variable in any company s economic environment therefore this book introduces sector specific cr as a way to increase the success and impact of business engagement it focuses on sector specific initiatives with government involvement as appropriate governance mechanisms to address sustainability challenges through public private collaboration what is the state of sector specific cr across europe how do sector specific initiatives work and what are criteria for their good performance what roles do governments play in such initiatives to answer these questions the book draws on rich empirical evidence from five industries across eight european countries as well as on the expertise of numerous cr and industry experts in doing so its target audience is both researchers and practitioners academics will find a starting point for further research in this emerging field whereas practitioners are offered empirical and effective models for promoting sector specific cr

international criminal law and justice is a flourishing field which has led in recent years to new international criminal tribunals and new mechanisms for investigation and holding criminals to account these developments have in turn led to an increasing volume and greater consolidation of case law and even more scholarly attention the second edition of this volume of kai ambos seminal treatise has been revised and rewritten in parts to provide coverage of recent developments in the special part of international criminal law namely the specific crimes and sentencing amongst other updates there are significant extensions of the discussion on sexual and gender based crimes the introduction of environmental crimes into international criminal law further elaboration on the nexus requirement in war crimes and asymmetrical conflicts e g isis and reference to the newly introduced war crimes of the icc statute and of the peculiarities of cyber attacks and other emerging activities the volume complements volume i of the treatise on issues relevant to the foundations general part of international criminal law and general principles of international criminal justice taken together with the other new editions of the three volume series this second edition provides an exhaustive guide to every aspect of international criminal law from fundamental principles to procedures and implementation kai ambos treatise remains an indispensable reference work for academics and practitioners of international criminal law the wto is often accused of not paying enough attention to human rights this book weighs these criticisms and examines their validity both from a legal and from political and economic points of views it asks whether the wto is under an obligation to construct a fairer trade system and discusses suggestions for reform unmasking buddhism can we talk of buddhism as a unified religion or are there many buddhisms is buddhism a religion of tolerance and pacifism as many people think is buddhism a religion without god s or is it more of a philosophy than a religion renowned buddhist scholar bernard faure answers these and other questions about the basic history beliefs and nature of buddhism in easy to understand language it is an ideal introduction for anyone who has unanswered questions about one of the world s largest and most popular religions learning theory and online technologies offers a powerful overview of the current state of elearning a foundation of its historical roots and growth and a framework for

distinguishing among the major approaches to elearning it effectively addresses pedagogy how to design an effective online environment for learning evaluation how to know that students are learning and history how past research can guide successful online teaching and learning outcomes an ideal textbook for undergraduate education and communication programs and educational technology masters phd and certificate programs readers will find learning theory and online technologies provides a synthesis of the key advances in elearning theory the key frameworks of research and clearly links theory and research to successful learning practice technological innovations are altering the traditional value chain in securities trading hitherto the order handling i e the appropriate implementation of a general trading decision into particular orders has been a core competence of brokers labeled as algorithmic trading the automation of this task recently found its way both into the brokers portfolio of service offerings as well as to their customers trading desks the software performing the order handling thereby constantly monitors the market s in real time and further evaluates historical data to dynamically determine appropriate points in time for trading within only a few years this technology propagated itself among market participants along the entire value chain and has nowadays gained a significant market share on securities markets worldwide surprisingly there has been only little research analyzing the impact of this special type of trading on markets markus gsell s book aims at closing this gap by analyzing the drivers for adoption of this technology the impact the application of this technology has on markets on a macro level i e how the market outcome is affected as well as on a micro level i e how the exhibited trading behavior of these automated traders differs from normal traders behavior 1 the opsc general studies i preliminary examination is a complete study guide 2 the book is divided into 8 main sections 3 solved papers and 5 crack sets for practice 4 easy to understand language and student friendly content for easy learning odisha public service commission has recently released a notification announcing 392 vacancies for group a and group b posts under odisha civil services interested candidates must have a bachelors degree from the recognized institutions the revised edition of opsc general studies i preliminary examination serves as complete study guide for those who are appearing for the examination the book is divided into 8 main sections under which each section either divided into sub section or chapters for the complete preparation apart from all the theoretical studies this book also focuses on the practice portion of candidates by providing solved papers and 5 crack sets for practice to get exact idea paper the pattern providing a complete coverage of the latest syllabus of opsc paper i this book helps to score best in the upcoming opsc prelims 2021 toc solved papers 2019 2015 history of india and indian national movement geography indian polity and governance indian economy environmental ecology science general knowledge odisha about the state 5 crack sets basic elements of narrative outlines a way of thinking about what narrative is and how to identify its basic elements across various media introducing key concepts developed by previous theorists and contributing original ideas to the growing body of scholarship on stories includes an overview of recent developments in narrative scholarship provides an accessible introduction to key concepts in the field views narrative as a cognitive structure type of text and resource for interpersonal communication uses examples from literature face to face interaction graphic novels and film to explore the core features of narrative includes a glossary of key terms full bibliography and comprehensive index appropriate for multiple audiences including students non specialists and experts in the

field the need for public libraries to tackle social exclusion and engage in social justice becomes ever more urgent as the gap between rich and poor continues to widen and the very survival of public libraries in the heart of the community is open to debate if public libraries are to develop and grow in the future and become relevant to the majority of their local communities then they need to abandon outmoded concepts of excellence and fully grasp the equity agenda this book examines the historical background to social exclusion and the strategic context in terms of government and professional policy the authors propose a compelling manifesto for change and outline practical ways in which public libraries can be transformed into needs based services over the past few decades states all around the globe have intensified institutionalized cooperation at the regional level to deepen our understanding of state led regionalism the authors use an analytical framework comprising four main strands first they describe and explain the genesis and growth of regional organizations second they account for institutional design looking at important similarities and differences third they examine the interaction between organizations and member states in an attempt to reveal factors that shape the level of commitment to and compliance with regional initiatives finally they consider the impact of regional organizations on their member states they conclude by providing a foundation for future research on the dynamic development of regionalism this groundbreaking study maps out and analyzes the development of a global intergovernmental igo institutional architecture in the post world war ii era systematically traces similarities and differences between the institutional architecture of the cold war and post cold war eras examines the range of reasons why states join igos identifies patterns of participation within these organizations and examines the effects of membership on states considers the impact of the eu on other regional organizations and developments outside europe provides a strong contribution to the study of international organization and igo development combining both quantitative and qualitative methodologies globalization and its relation to poverty reduction and development are not well understood this book explores the ways in which globalization can overcome poverty or make it worse the book defines the big historical trends identifies the main globalization processes trade finance aid migration and ideas and examines how each can contribute to economic development by considering what helps and what does not the book presents policy recommendations to make globalization more effective as a vehicle for shared growth and poverty reduction it will be of interest to students researchers and anyone concerned with the effects of globalization on international development the research handbook on fiduciary law offers specially commissioned chapters written by leading scholars and covers a wide range of important topics in fiduciary law topical contributions discuss various fiduciary relationships the duty of loyalty and other fiduciary obligations fiduciary remedies the role of equity the role of trust international and comparative perspectives and public fiduciary law this research handbook will be of interest to readers concerned with both theory and practice as it incorporates significant new insights and developments in the field this volume presents the proceedings of ecscw 09 the 11th european conference on computer supported cooperative work each conference offers an occasion to critically review our research field which has been multidisciplinary and committed to high scientific standards both theoretical and methodological from its beginning these proceedings represent discussions and contributions to ongoing challenges one challenge comes from emerging new technologies connected to social computing gaming as well as applications supporting

citizen participation in their communities as boundaries between home and work erode with the increased movement of work into home environments and new applications further blur the once separate conceptions of work and leisure our intellectual community faces challenges in the ways we think about and study work other challenges result from transformations of the world of work itself and the role of it in these they have been taken up in in depth studies of design practice software development and manufacturing as well as in the growing body of research on health care contexts and applications finally there is the question of what is the european perspective in our community and whether it is worthwhile to anchor our research more firmly in such a perspective of high relevance to our field is the strong grounding of technology development in an understanding of human activity the nineteen full papers four short papers and one discussion paper selected for this conference deal with and reflect on some of these challenges thus representing the lively debate currently ongoing in our field of research this innovative book explores the nature and function of sunset clauses and experimental legislation or temporary legislation that expires after a determined period of time allowing legislators to test out new rules and regulations within a set time frame and on a small scale basis although tackling the causes of climate change through mitigation is necessary it is also essential to examine the effect of climate change and what international cooperation can take place to ensure global adaptation measures this pioneering book deals exclusively with the politics of why adaptation as a global responsibility continues to be ignored modeling techniques provide ample opportunities for progress across numerous fields when analyzing complex systems new methods allow for a deeper understanding of system dynamics method of systems potential msp applications in economics emerging research and opportunities is an innovative source of academic research that examines the method of systems potential for complex systems analysis in economical contexts highlighting critical perspectives on topics such as system efficiency adaptive algorithms and variable parameters this book is ideally designed for researchers academics graduate students and practitioners interested in the latest uses and applications of modeling techniques this study provides a comprehensive discussion of all aspects of the european union presence in international organisations ios the editors seek to explore both the political and institutional implications of the eu s interaction with ios and the effect of the eu s presence on the functioning of the respective ios the result of an international workshop with an outstanding line up of experts the book discusses a range of issues including the impact of the eu security contributions to io s such as the osce nato and the un and the eu s role in decision making the role of eu us relations in the development of major international organisations participation in the doha development agenda and the eu s relationship with the wto the issues of leadership and coherence within and outside the eu the growing international relationship with the african union and the more troubled supporting role of the commonwealth approaching the eu s international interactions from different theoretical and analytical angles this work clearly discusses the broad spectrum of issues that surround the evolution and future of the european union in an international context millions of pounds of international development funds are invested annually in social protection programmes to tackle poverty poverty is perpetuated by risk and vulnerability much of which is gendered despite this little attention has been paid to gender sensitive policy and programme design and implementation gender and social protection in the developing world introduces a much needed gender lens to these

debates drawing on empirical evidence from poor households and communities in africa asia and latin america the book provides rich insight into the effects of a range of social protection instruments it concludes that with relatively simple changes to design and with investment in implementation capacity social protection can contribute to transforming gender relations at the individual intrahousehold and community levels with a foreword by stephen devereux the government recognises that many lifestyle driven health problems are at alarming levels obesity high rates of sexually transmitted infections a relatively large population of drug users rising levels of harm from alcohol 80 000 deaths a year from smoking poor mental health health inequalities between rich and poor this white paper outlines the government s proposals to protect the population from serious health threats help people live longer healthier and more fulfilling lives and improve the health of the poorest it aims to empower individuals to make healthy choices and give communities and local government the freedom responsibility and funding to innovate and develop ways of improving public health in their area the paper responds to sir michael marmot s strategic review of health inequalities in england post 2010 fair society healthy lives available at marmotreview org assetlibrary pdfs reports fairsocietyhealthylives pdf and adopts its life course framework for tackling the wider social determinants of health a new dedicated public health service public health england will be created to ensure excellence expertise and responsiveness particularly on health protection where a national response is vital the paper gives a timetable showing how the proposals will be implemented and an annex sets out a vision of the role of the director of public health the department is also publishing a fuller story on the health of england in our health and wellbeing today dh gov uk prod consum dh groups dh digitalassets dh en ps documents digitalasset dh 122238 pdf detailing the challenges and opportunities and in 2011 will issue documents on major public health issues updated annually this is the most comprehensive and up to date reference available on information security and assurance bringing together the knowledgerequired of it security professionals it facilitates the up to date understanding required to stay one step ahead of evolving threats standards and regulations reporting on the latest developments in information security and recent changes to the isc 2 cissp common body of knowledge cbk this volume features 27 new chapters on topics such as byod it consumerization smart grids security and privacy insurance law and the financial ombudsman service is an in depth look at the workings and insurance decisions of the financial ombudsman service the book analyses how the ombudsman service decides insurance cases and compares its approach to that of a court this book sets out the rules procedure and approach of the ombudsman service succinctly summarises the relevant insurance law and compares and analyses it against a comprehensive review of material about insurance complaints gathered since the formation of the ombudsman service in 2001 climate change and air quality are two of the most pressing issuesfacing mankind this book gives undergraduate and graduate studentsand professionals working in the science and policy of pollution climate change and air quality a broad and up to date account ofour understanding of the processes that occur in the atmosphere how these are changing as man s relentless use of naturalresources continues and what effects these changes are having onthe earth s climate and the quality of the air we breath written by an international team of experts this text gives anexcellent overview of our current understanding of the state of theearth s atmosphere and how it is changing it is aninvaluable resource for students teachers and professionals key features

end of chapter questions each chapter includes both basic concepts and more in depth material allowing faculty to direct students accordingly most up to date treatment of key issues such as stratospheric chemistry urban air pollution and climate change this book provides a hands on introduction to the construction and application of models to studies of vertebrate distribution abundance and habitat the book is aimed at field biologists conservation planners and advanced undergraduate and postgraduate students who are involved with planning and analyzing conservation studies and applying the results to conservation decisions the book also acts as a bridge to more advanced and mathematically challenging coverage in the wider literature part i provides a basic background in population and community modeling it introduces statistical models and familiarizes the reader with important concepts in the design of monitoring and research programs these programs provide the essential data that guide conservation decision making part ii covers the principal methods used to estimate abundance occupancy demographic parameters and community parameters including occupancy sampling sample counts distance sampling and capture mark recapture for both closed and open populations emphasis is placed on practical aspects of designing and implementing field studies and the proper analysis of data part iii introduces structured decision making and adaptive management in which predictive models are used to inform conservation decision makers on appropriate decisions in the face of uncertainty with the goal of reducing uncertainty through monitoring and research a detailed case study is used to illustrate each of these themes numerous worked examples and accompanying electronic material on a website [blackwellpublishing.com](http://blackwellpublishing.com) conroy and accompanying cd provide the details of model construction and application and data analysis

basic elements of narrative outlines a way of thinking about what narrative is and how to identify its basic elements across various media introducing key concepts developed by previous theorists and contributing original ideas to the growing body of scholarship on stories includes an overview of recent developments in narrative scholarship provides an accessible introduction to key concepts in the field views narrative as a cognitive structure type of text and resource for interpersonal communication uses examples from literature face to face interaction graphic novels and film to explore the core features of narrative includes a glossary of key terms full bibliography and comprehensive index appropriate for multiple audiences including students non specialists and experts in the field

## OPSC General Studies Paper 1 (For Odisha Civil Service Preliminary Exams) 2021

2009-02-02

the need for public libraries to tackle social exclusion and engage in social justice becomes ever more urgent as the gap between rich and poor continues to widen and the very survival of public libraries in the heart of the community is open to debate if public libraries are to develop and grow in the future and become relevant to the majority of their local communities then they need to abandon outmoded concepts of excellence and fully grasp the equity agenda this book examines the historical background to social exclusion and the strategic context in terms of government and professional policy the authors propose a compelling manifesto for change and outline practical ways in which public libraries can be transformed into needs based services

## Basic Elements of Narrative

2012-10-01

over the past few decades states all around the globe have intensified institutionalized cooperation at the regional level to deepen our understanding of state led regionalism the authors use an analytical framework comprising four main strands first they describe and explain the genesis and growth of regional organizations second they account for institutional design looking at

important similarities and differences third they examine the interaction between organizations and member states in an attempt to reveal factors that shape the level of commitment to and compliance with regional initiatives finally they consider the impact of regional organizations on their member states they conclude by providing a foundation for future research on the dynamic development of regionalism

## **Public Libraries and Social Justice**

2013-04-28

this groundbreaking study maps out and analyzes the development of a global intergovernmental igo institutional architecture in the post world war ii era systematically traces similarities and differences between the institutional architecture of the cold war and post cold war eras examines the range of reasons why states join igos identifies patterns of participation within these organizations and examines the effects of membership on states considers the impact of the eu on other regional organizations and developments outside europe provides a strong contribution to the study of international organization and igo development combining both quantitative and qualitative methodologies

## **Roads to Regionalism**

2009-08-18

globalization and its relation to poverty reduction and development are not well understood this book explores the ways in which globalization can overcome poverty or make it worse the book defines the big historical trends identifies the main globalization processes trade finance aid migration and ideas and examines how each can contribute to economic development by considering what helps and what does not the book presents policy recommendations to make globalization more effective as a vehicle for shared growth and poverty reduction it will be of interest to students researchers and anyone concerned with the effects of globalization on international development

## **Mapping the New World Order**
