english soft cover english hard cover english japanese bilingual children s book perfect for kids studying english or japanese as their second language jimmy the little bunny is in trouble accidentally he ruined his mother favourite flowers will it help if he lies or is it better to tell the truth and try to solve the problem in different way help your children to learn to be more honest with this fun children s book for as long as he could remember f b w browne had a fascination with the divine he was curious about who god was and what he did so when he learned about the existence of a heavenly father he knew that this was something that he had to learn more about for years browne scoured the scriptures looking for evidence that would confirm the existence of a heavenly father he read scriptures about god s relationship with his people and how he provided salvation for them he also read about god s love for us and his desire to have a relationship with us through his research browne discovered that our heavenly father is not a separate being from us but rather he is our very own father in fact our heavenly father desires to have a close relationship with us and wants to be our friend as a result of his discoveries browne has developed a deeper understanding of who god is and how we can connect with him in our everyday lives he is now sharing his knowledge with the world so that everyone can have a relationship with their father in heaven an inspirational book that was written with my friends in mind with my knowledge of life and friendly supportive words this book was put together to open peoples eyes to the reality of life and the way we live it i believe everyone should have the right to choose freely what they believe in and how they perceive what reality is hoping that in reading this book it will give them some insight to what life is truly about i hope if you enjoy reading this book that you will look out for my next one awarded the 1988 johnsonian prize in philosophy published with the aid of a grant from the national endowment for the humanities this fascinating 1906 treatise explores the seminal work of francis bacon with particular reference to cryptic rhymes and their possible connections to the occult francis bacon 1561 1626 was an english statesman and philosopher who served as lord chancellor and attorney general of england his works are hailed as having developed the scientific method and were influential throughout the scientific revolution contents include francis bacon confesses in the presence of death to having written rhymed books what was francis bacon s estimation of poesy francis bacon s predilection for the occult arts what part do the words name and darts lay in bacon s writings the mysterious manner of the actor shakespeare what part does rhyme play in shakespeare s dramas etc many vintage books such as this are becoming increasingly scarce and expensive it is with this in mind that we are republishing this volume now in an affordable modern high quality edition complete with the original text and artwork toward the beginning of 2013 i received reports of passages in the black notebooks that offered observations on jewry or as the case may be world jewry it immediately became clear to me that the publication of the black notebooks would call forth a wide spread international debate already in the spring of 2013 i had asked professor friedrich wilhelm von herrmann last private assistant and in the words of my grandfather the chief co worker of the complete edition if he might review the notebooks as a whole based on his profound insight into the thought of martin heidegger and in particular review those jewish related passages that were the focus of the public eye publications about the black notebooks quickly came to propagate catchy expressions such as being historical anti semitism and metaphysical anti

semitism the first question that obviously arises is does the thought of martin heidegger exhibit any kind of anti semitism at all in this book professor von herrmann now advances his hermeneutic explication with professor francesco alfieri of the pontificia università lateranense he has found a colleague who has drawn up a comprehensive philological analysis of volumes ga 94 through ga 97 of the complete edition the fact that heidegger designated the hitherto published black notebooks as ponderings Überlegungen and as observations anmerkungen has been given little consideration he intentionally placed them at the conclusion of the complete edition because without acquaintance with the lectures and above all with the being historical treatises that would come to be published in the framework of the complete edition they would not be comprehensible arnulf heidegger evolutionary science has long viewed language as basically a fortunate accident a crossing of wires that happened to be extraordinarily useful setting humans apart from other animals and onto a trajectory that would see their brains and the products of those brains become increasingly complex but as michael c corballis shows in the truth about language it s time to reconsider those assumptions language he argues is not the product of some big bang 60 000 years ago but rather the result of a typically slow process of evolution with roots in elements of grammatical language found much farther back in our evolutionary history language corballis explains evolved as a way to share thoughts and crucially for human development to connect our own mental time travel our imagining of events and people that are not right in front of us to that of other people we share that ability with other animals but it was the development of language that made it powerful it led to our ability to imagine other perspectives to imagine ourselves in the minds of others a development that by easing social interaction proved to be an extraordinary evolutionary advantage even as his thesis challenges such giants as chomsky and stephen jay gould corballis writes accessibly and wittily filling his account with unforgettable anecdotes and fascinating historical examples the result is a book that s perfect both for deep engagement and as brilliant fodder for that lightest of all forms of language cocktail party chatter the truth about the mutiny on hmav bounty and the fate of fletcher christian brings this famed south pacific saga into the 21st century by combining unprecedented research into fletcher christian and his fate with deep knowledge of bounty s polynesian women glynn christian presents a fresh and comprehensive telling of a powerful maritime adventure that still captivates after 230 years of over 3000 books and major articles on the mutiny or the five feature films starring such as clark gable charles laughton marlon brando and mel gibson none has told the true story as until 1982 no author knew the real fletcher christian or could understand his relationship with william bligh his mentor turned nemesis glynn christian s extraordinary research into bligh christian and bounty included every deposit of documents worldwide and a sailing expedition to pitcairn island this book details the cramped dark conditions on the ship and how bligh bravely commanded it at cape horn saving it and the crew yet he was unable to keep discipline because he didn t punish enough instead relying on his brutal tongue forced to remain in tahiti for 23 weeks bligh struggled to retain order when bounty sailed glynn christian reveals how this affected fletcher christian mentally explaining his out of character mutiny then christian showed revolutionary social conscience using democracy and uniforms on bounty to maintain leadership including through the little known settlement of fort george on tubuai after this he and bounty disappeared for 18 years bounty s story becomes that of pitcairn island of revolutionary black women who protected their children with the blood of their fathers and continued fletcher s ideals to become the first women in the world permanently to have the vote and guarantee education for girls but where was fletcher christian a comprehensive study of shakespeare s forgotten masterpiece the phoenix and turtle bednarz confronts the question of why one of the greatest poems in the english language is customarily ignored or misconstrued by shakespeare

biographers literary historians and critics twelve stories by science fiction master stanisław lem nine of them never before published in english of these twelve short stories by science fiction master stanisław lem only three have previously appeared in english making this the first new book of fiction by lem since the late 1980s the stories display the full range of lem s intense curiosity about scientific ideas as well as his sardonic approach to human nature presenting as multifarious a collection of mad scientists as any reader could wish for many of these stories feature artificial intelligences or artificial life forms long a lem preoccupation some feature quite insane theories of cosmology or evolution all are thought provoking and scathingly funny written from 1956 to 1993 the stories are arranged in chronological order in the title story the truth a scientist in an insane asylum theorizes that the sun is alive the journal appears to be an account by an omnipotent being describing the creation of infinite universes until in a classic lem twist it turns out to be no such thing in an enigma beings debate whether offspring can be created without advanced degrees and design templates other stories feature a computer that can predict the future by 137 seconds matter destroying spores a hunt in which the prey is a robot and an electronic brain eager to go on the lam these stories are peak lem exploring ideas and themes that resonate throughout his writing speaking the truth about oneself is composed of lectures that acclaimed french philosopher michel foucault delivered in 1982 at the university of toronto as is characteristic of his later work he is concerned here with the care and cultivation of the self which becomes the central theme of the second and third volumes of his famous history of sexuality published in french in 1984 the month of his death and which are explored here in a striking and typically illuminating fashion throughout his career foucault had always been interested in the question of how constellations of knowledge and power produce and constitute subjects but in the last phase of his life he became especially interested not only in how subjects are constituted by outside forces but in how they constitute themselves in this lecture series and accompanying seminar we find foucault focused on antiquity starting with classical greece the early roman dynasties and concluding with fourth and fifth century christian monasticism foucault s claim is that in these periods we see the development of a new kind of act speaking the truth about oneself as the locus of a new form of subjectivity which he deemed important not just for historical reasons but also as something modernity could harness anew or adapt to its own purposes florian zeller s the truth in the english translation by christopher hampton premiered at the chocolate factory london in association with theatre royal bath this anthology of the very latest research on truth features the work of recognized luminaries in the field put together following a rigorous refereeing process along with an introduction outlining the central issues in the field it provides a unique and unrivaled view of contemporary work on the nature of truth with papers selected from key conferences in 2011 such as truth be told amsterdam truth at work paris paradoxes of truth and denotation barcelona and axiomatic theories of truth oxford studying the nature of the concept of truth has always been a core role of philosophy but recent years have been a boom time in the topic with a wealth of recent conferences examining the subject from various angles this collection of essays recognizes the pressing need for a volume that brings scholars up to date on the arguments offering academics and graduate students alike a much needed repository of today s cutting edge work in this vital topic of philosophy the volume is required reading for anyone needing to keep abreast of developments and is certain to act as a catalyst for further innovation and research if you re looking for a field guide to leprechauns the truth about the irish is not the book for you but if you can handle a frank and funny look into the minds and hearts of irish people you ve been touched by that fabled irish luck covering all things irish from blarney to yeats renowned literary and cultural critic terry eagleton separates the myths from the reality with his priceless blend of sidesplitting humor

caustic commentary and the honest lowdown on the beloved and bewildering country of ireland james l taylor sr is the son of henry taylor whose grandfather was a former slave he was born on a mississippi plantation in 1958 he is a product of the orange county public school system in winter garden florida he attended valencia c c in orlando florida in 1976 afterwards he retired from the us army in 1997 he was self educated in the history of warfare spiritual discipline meditation as a soldier he is an astute student of theological and spiritual doctrine he has the biblical spiritual gifts of the spirit of knowledge wisdom and of faith taylor accepted christ at an early age and surrendered to preach at age 21 he served as assistant pastor of holy light deliverance church of columbus ga he is married to loretha taylor to this union two children have been born tweetie and james jr barbara foley here focuses on the relatively neglected genre of documentary fiction novels that are continually near the borderline between factual and fictive discourse she links the development of the genre over three centuries to the evolution of capitalism but her analyses of literary texts depart significantly from those of most current marxist critics foley maintains that marxist theory has yet to produce a satisfactory theory of mimesis or of the development of genres and she addresses such key issues as the problem of reference and the nature of generic distinctions among the authors whom foley treats are defoe scott george eliot joyce isherwood dos passos william wells brown ishmael reed and ernest gains the united states is amid a defining moment that will irrevocably determine the future of the american democratic experiment in 1787 when the constitution of the united states was adopted americans gathered on the steps of independence hall in philadelphia and asked benjamin franklin what type of government had been fashioned by the founding fathers franklin replied a republic if you can keep it the american political system has held a firm grasp on the concept of representational government until now in jonathan swift s brilliant political satire gulliver s travels rope by rope gulliver was imprisoned albeit imperceptibly now judge by judge the judicial system has been co opted by the right wing and the department of justice is occupied by a king maker elections are corrupted beyond measure both by domestic political machinations and foreign influence meddling the american free press is under attack like never before this book is an analysis and expose of forces at work that overtly and covertly are propelling america toward an authoritarian fascist state for centuries all manner of truth seekers have used the lie detector in this eye opening book geoffrey c bunn unpacks the history of this device and explores the interesting and often surprising connection between technology and popular culture the truth about empire comes from expert historians who believe that the truth as far as we can pinpoint it matters that our decades of painstaking research make us worth listening to and that our authority as leading professionals should count for something in today s polarised debates over britain s imperial past in the culture wars the public s understanding of colonial history is continually distorted by wilful caricatures with their fight to highlight empire s horrors communities whose voices once went unheard have alienated many who would prefer a celebratory national history the backlash orchestrated by elements of the media has produced a concerted denial of british imperial racism and violence a disinformation campaign sharing both tactics and motivations with those around covid brexit and climate change from australia and china to india and south africa this essay collection is an accessible guide to the british empire and a shield against the assault on historical truth the disturbing stories told in these pages of empire s culture politics and economics show why professional research matters when deciding what can and cannot be known about britain s colonial past basing consideration upon a characterization of reason in its deductive inductive and ethical functioning goldstick asks what must hold good for reason so characterized to be a dependable guide to truth the role of war correspondents is crucial to democracy and the publics discovery of the truth without them the temptation to

manipulate events with propaganda would be irresistible to politicians of all hues it starts by examining how journalists have plied their trade over the years most particularly from the crimean war onwards their impact on the conduct of war has been profound and the author an experienced journalist explains in his frank and readable manner how this influence has shaped the actions of politicians and military commanders by the same token the media is a potentially valuable tool to those in authority and this two way relationship is examined technical developments and 24 hour news have inevitably changed the nature of war reporting and their political masters ignore this at their peril and the author examines the key milestones on this road using his own and others experiences in recent conflicts be they korea falklands balkans iraq or afghanistan the author opens the readers eyes to an aspect of warfare that is all too often overlooked but can be crucial to the outcome the publics attitude to the day to day conduct of war is becoming ever more significant and this fascinating book examines why the truth about america by edward money published by good press good press publishes a wide range of titles that encompasses every genre from well known classics literary fiction and non fiction to forgotten or yet undiscovered gems of world literature we issue the books that need to be read each good press edition has been meticulously edited and formatted to boost readability for all e readers and devices our goal is to produce ebooks that are user friendly and accessible to everyone in a high quality digital format from the author of the internationally acclaimed putin s russia and a russian diary until her murder in october 2006 anna politkovskaya wrote for the russian newspaper novaya gazeta winning international fame for her reporting on the chechen wars and more generally on russian politics and state corruption nothing but the truth is a definitive collection of anna politkovskaya s best writings a lasting and inspiring book from one fo the greatest reporters of our age find out how to avoid common mistakes and challenge some of the myths about what good teaching really is in his autobiography joseph turmel 1859 1943 has left an intensely personal account of his struggles to reconcile his catholic faith with the results of historical critical methods as those impacted biblical exegesis and the history of dogma having lost his faith in 1886 he chose to remain as a priest in the church even while he worked to undermine its teachings he did so initially in writings published under his own name and as his conclusions became increasingly radical under a veritable team of pseudonyms he was excommunicated in 1930 his account of his life is less a discussion and defense of his ideas than it is a moral justification of his conduct turmel is associated with the left wing of roman catholic modernism along with albert houtin marcel hebert and felix sartiaux the question is what constitutes truth in religion represented here is the whole spectrum of phenomenology transcendental existential hermeneutic ethical and deconstructive presented by some of the most respected names in the philosophy of religion today louis dupré merold westphal and edward farley here is also engagement with a wide variety of twentieth century thinkers such as husserl scheler and heidegger ricoeur gadamer and derrida freud van der leeuw and eliade and rosenzweig tillich and schillebeeks this volume provides unique sources for anyone interested in the philosophical theological or scientific study of religion the truth of myth is a thorough and accessible introduction to the study of myth surveying the intellectual history of the topic methods for studying myth cross culturally and emerging trends readers will encounter insightful commentaries on such questions as what is the relation of mythology to religion to science to popular culture did the events recounted in myths actually occur why does the term myth have so many contradictory definitions and connotations offering serious students with an intellectual toolkit for launching into this fascinating field the book is especially useful in conjunction with case studies of individual mythological traditions stephen budiansky holds that virtually everything previously written about dogs is either wrong or misguided instead he maintains that to understand the true nature of

dogs we need to stop interpreting their behaviour in the human terms of loyalty and betrayal the truth is far more complex and surprising the dog genome project is currently laying the groundwork for identifying the genetic basis of why our dogs behave in the way they do other research investigates canine intelligence and some remarkable experiments reveal what dogs can and cannot see budiansky brings together the disciplines of behavioural science genetics neuroscience and archaeology to show us how wrong we have been about man s best friend this is a third instalment of funny strange and utterly true tales from harry the polis the third harry the polis book nuthin like the truth continues to expose the lighter side of our industrious police force harry morris s time with the glasgow and strathclyde constabulary or polis for short hasn t robbed him of his sense of humour and every wily witness cocky con and sarcastic sergeant he ever rubbed up against is here in page after page of humorous stories full of hilarious anecdotes oddball characters quick comebacks and unlikely excuses nuthin like the truth shows true scottish humour at its finest there s plenty more material from harry s twenty nine year career in the rank and file including harry s own guide to chat up lines and how to deal with inept post office robbers with nothing but a shovel and a minimum of fuss already described by alex dickson of radio clyde as classics of our time and by bob shields of the daily record as a must read for anyone who likes to walk about with a grin on their face nuthin like the truth is sure to arrest you with its irrepressible mirth

1679

this fascinating 1906 treatise explores the seminal work of francis bacon with particular reference to cryptic rhymes and their possible connections to the occult francis bacon 1561 1626 was an english statesman and philosopher who served as lord chancellor and attorney general of england his works are hailed as having developed the scientific method and were influential throughout the scientific revolution contents include francis bacon confesses in the presence of death to having written rhymed books what was francis bacon s estimation of poesy francis bacon s predilection for the occult arts what part do the words name and darts lay in bacon s writings the mysterious manner of the actor shakespeare what part foes rhyme play in shakespeare s dramas etc many vintage books such as this are becoming increasingly scarce and expensive it is with this in mind that we are republishing this volume now in an affordable modern high quality edition complete with the original text and artwork

## **Step Inside the Truth**

2014-05-01

toward the beginning of 2013 i received reports of passages in the black notebooks that offered observations on jewry or as the case may be world jewry it immediately became clear to me that the publication of the black notebooks would call forth a wide spread international debate already in the spring of 2013 i had asked professor friedrich wilhelm

von herrmann last private assistant and in the words of my grandfather the chief co worker of the complete edition if he might review the notebooks as a whole based on his profound insight into the thought of martin heidegger and in particular review those jewish related passages that were the focus of the public eye publications about the black notebooks quickly came to propagate catchy expressions such as being historical anti semitism and metaphysical anti semitism the first question that obviously arises is does the thought of martin heidegger exhibit any kind of anti semitism at all in this book professor von herrmann now advances his hermeneutic explication with professor francesco alfieri of the pontificia università lateranense he has found a colleague who has drawn up a comprehensive philological analysis of volumes ga 94 through ga 97 of the complete edition the fact that heidegger designated the hitherto published black notebooks as ponderings Überlegungen and as observations anmerkungen has been given little consideration he intentionally placed them at the conclusion of the complete edition because without acquaintance with the lectures and above all with the being historical treatises that would come to be published in the framework of the complete edition they would not be comprehensible arnulf heidegger

## **Truth, Vagueness, and Paradox**

1990-01-01

evolutionary science has long viewed language as basically a fortunate accident a crossing of wires that happened to be extraordinarily useful setting humans apart from other animals and onto a trajectory that would see their brains and the products of those brains become increasingly complex but as michael c corballis shows in the truth about language it s time to reconsider those assumptions language he argues is not the product of some big bang 60 000 years ago but rather the result of a typically slow process of evolution with roots in elements of grammatical language found much farther back in our evolutionary history language corballis explains evolved as a way to share thoughts and crucially for human development to connect our own mental time travel our imagining of events and people that are not right in front of us to that of other people we share that ability with other animals but it was the development of language that made it powerful it led to our ability to imagine other perspectives to imagine ourselves in the minds of others a development that by easing social interaction proved to be an extraordinary evolutionary advantage even as his thesis challenges such giants as chomsky and stephen jay gould corballis writes accessibly and wittily filling his account with unforgettable anecdotes and fascinating historical examples the result is a book that s perfect both for deep engagement and as brilliant fodder for that lightest of all forms of language cocktail party chatter

1843

speaking the truth about oneself is composed of lectures that acclaimed french philosopher michel foucault delivered in 1982 at the university of toronto as is characteristic of his later work he is concerned here with the care and cultivation of the self which becomes the central theme of the second and third volumes of his famous history of sexuality published in french in 1984 the month of his death and which are explored here in a striking and typically illuminating fashion throughout his career foucault had always been interested in the question of how constellations of knowledge and power produce and constitute subjects but in the last phase of his life he became especially interested not only in how subjects are constituted by outside forces but in how they constitute themselves in this lecture series and accompanying seminar we find foucault focused on antiquity starting with classical greece the early roman dynasties and concluding with fourth and fifth century christian monasticism foucault s claim is that in these periods we see the development of a new kind of act speaking the truth about oneself as the locus of a new form of subjectivity which he deemed important not just for historical reasons but also as something modernity could harness anew or adapt to its own purposes

## ***The Truth About the Mutiny on HMAV Bounty - and the Fate of Fletcher Christian***

2021-06-30

barbara foley here focuses on the relatively neglected genre of documentary fiction novels that are continually near the borderline between factual and fictive discourse she links the development of the genre over three centuries to the evolution of capitalism but her analyses of literary texts depart significantly from those of most current marxist critics foley maintains that marxist theory has yet to produce a satisfactory theory of mimesis or of the development of genres and she addresses such key issues as the problem of reference and the nature of generic

distinctions among the authors whom foley treats are defoe scott george eliot joyce isherwood dos passos william wells brown ishmael reed and ernest gains

**The Truth and Other Stories**

2021-09-14

the truth about empire comes from expert historians who believe that the truth as far as we can pinpoint it matters that our decades of painstaking research make us worth listening to and that our authority as leading professionals should count for something in today s polarised debates over britain s imperial past in the culture wars the public s understanding of colonial history is continually distorted by wilful caricatures with their fight to highlight empire

s horrors communities whose voices once went unheard have alienated many who would prefer a celebratory national history the backlash orchestrated by elements of the media has produced a concerted denial of british imperial racism and violence a disinformation campaign sharing both tactics and motivations with those around covid brexit and climate change from australia and china to india and south africa this essay collection is an accessible guide to the british empire and a shield against the assault on historical truth the disturbing stories told in these pages of empire s culture politics and economics show why professional research matters when deciding what can and cannot be known about britain s colonial past

## **The Truth**

2016

the role of war correspondents is crucial to democracy and the publics discovery of the truth without them the temptation to manipulate events with propaganda would be irresistible to politicians of all hues it starts by examining how journalists have plied their trade over the years most particularly from the crimean war onwards their impact on the conduct of war has been profound and the author an experienced journalist explains in his frank and readable manner how this influence has shaped the actions of politicians and military commanders by the same token the media is a potentially valuable tool to those in authority and this two way relationship is examined technical developments and 24 hour news have inevitably changed the nature of war reporting and their political masters ignore this at their peril and the author examines the key milestones on this road using his own and others experiences in recent conflicts be they korea falklands balkans iraq or afghanistan the author opens the readers eyes to an aspect of warfare that is all too often overlooked but can be crucial to the outcome the publics attitude to the day to day conduct of war is becoming ever more significant and this fascinating book examines why

## ***Unifying the Philosophy of Truth***

2015-06-16

## **Identifying the Truth**

2014-02-24

find out how to avoid common mistakes and challenge some of the myths about what good teaching really is

## **Telling the Truth**

2018-03-15

in his autobiography joseph turmel 1859 1943 has left an intensely personal account of his struggles to reconcile his catholic faith with the results of historical critical methods as those impacted biblical exegesis and the history of dogma having lost his faith in 1886 he chose to remain as a priest in the church even while he worked to undermine its teachings he did so initially in writings published under his own name and as his conclusions became increasingly radical under a veritable team of pseudonyms he was excommunicated in 1930 his account of his life is less a discussion and defense of his ideas than it is a moral justification of his conduct turmel is associated with the left wing of roman catholic modernism along with albert houtin marcel hebert and felix sartiaux

## **The Collapse of Truth**

2020-11-13

the question is what constitutes truth in religion represented here is the whole spectrum of phenomenology transcendental existential hermeneutic ethical and deconstructive presented by some of the most respected names in the philosophy of religion today louis dupré merold westphal and edward farley here is also engagement with a wide variety of twentieth century thinkers such as husserl scheler and heidegger ricoeur gadamer and derrida freud van der leeuw and eliade and rosenzweig tillich and schillebeeks this volume provides unique sources for anyone interested in

the philosophical theological or scientific study of religion

## ***The Truth Machine***

2012-06

the truth of myth is a thorough and accessible introduction to the study of myth surveying the intellectual history of the topic methods for studying myth cross culturally and emerging trends readers will encounter insightful commentaries on such questions as what is the relation of mythology to religion to science to popular culture did the events recounted in myths actually occur why does the term myth have so many contradictory definitions and connotations offering serious students with an intellectual toolkit for launching into this fascinating field the book is especially useful in conjunction with case studies of individual mythological traditions

## **The Truth about Empire**

2024-06-27

stephen budiansky holds that virtually everything previously written about dogs is either wrong or misguided instead he maintains that to understand the true nature of dogs we need to stop interpreting their behaviour in the human terms of loyalty and betrayal the truth is far more complex and surprising the dog genome project is currently laying the groundwork for identifying the genetic basis of why our dogs behave in the way they do other research investigates canine intelligence and some remarkable experiments reveal what dogs can and cannot see budiansky brings together the disciplines of behavioural science genetics neuroscience and archaeology to show us how wrong we have been about man s best friend

## **Reason, Truth, and Reality**

2009-01-01

this is a third instalment of funny strange and utterly true tales from harry the polis the third harry the polis book nuthin like the truth continues to expose the lighter side of our industrious police force harry morris s time with the glasgow and strathclyde constabulary or polis for short hasn t robbed him of his sense of humour and every wily witness cocky con and sarcastic sergeant he ever rubbed up against is here in page after page of humorous stories full of hilarious anecdotes oddball characters quick comebacks and unlikely excuses nuthin like the truth shows true scottish humour at its finest there s plenty more material from harry s twenty nine year career in the rank and file including harry s own guide to chat up lines and how to deal with inept post office robbers with nothing but a shovel and a minimum of fuss already described by alex dickson of radio clyde as classics of our time and by bob shields of the daily record as a must read for anyone who likes to walk about with a grin on their face nuthin like the truth is sure to arrest you with its irrepressible mirth
