Disability Services and Disability Studies in Higher Education: History, Contexts, and Social Impacts

2014-11-28

disability services and disability studies in higher education considers how the two fields of disability studies and disability services in institutions of higher education impact each other

disability studies is centered in the classroom an interdisciplinary field that teaches about the social contexts of disability while disability services works outside the classroom making sure students with disabilities are able to access classroom spaces and educational material oslund explores the effect of the services on the larger societies in which they are located students who encounter the respective fields and those who self identify as disabled or have an identity of disability posited on them by the society in which they live

The Disability Studies Reader

2016-10-19

the fifth edition of the disability studies reader addresses the post identity theoretical landscape by emphasizing questions of interdependency and independence the human animal relationship and issues around the construction or materiality of gender the body and sexuality selections explore the underlying biases of medical and scientific experiments and explode the binary of the sound and the diseased mind the collection addresses physical disabilities but as always investigates issues around pain mental disability and invisible disabilities as well featuring a new generation of scholars who are dealing with the most current issues the fifth edition continues the reader s tradition of remaining timely urgent and critical

Vital Questions Facing Disability Studies in Education

2006

disability studies in education is a provocative and innovative field of social inquiry that challenges standard ways of thinking about disability in education practices that serve to exclude disabled people from equal educational opportunity and policies that support or drive inequality this book brings together the best disability studies in education scholars to address the pressing questions facing the field it provides an introduction to the field for the newcomer a sharp challenge to the status quo in special and general education and a map to understanding the serious disability issues confronting education today

Disability Studies in Education

2005

as a field of inquiry disability studies in education stands at the broad intersection of disability studies and educational studies this book introduces graduate students educational researchers and teacher educators to the range of scholarly inquiry emerging from this exciting new field susan l gabel pulls together a sampling of the vast array of available scholarship that includes readings that intersect curriculum theory critical policy analysis personal narrative and much more although disability studies in education has only recently been recognized as a field of inquiry with an identifiable body of literature the chapters in this book present the work of some of the major scholars of disability studies in education

An Introduction to Disability Studies

2012-07-26

disability studies has become a legitimate area of academic study it is multi disciplinary in its critique of the oppressions that have historically dumped disabled people on the margins of society this fully revised and updated edition not only explains disability studies as an academic field of inquiry it also explores many of the current issues affecting the lives and circumstances of disabled people the book explores and analyzes quality of life factors in the lives of disabled people in relation to the professional development of undergraduates and examines the emergence of rights for disabled people in the local area the uk and abroad the author indicates the strengths and weaknesses of organizations of and for disabled people and provides examples of individual and institutional oppressions against disabled people and success stories exploring how these have been overcome in education and employment the book suggests how disabled and non disabled people can collaborate in the development of inclusive communities and neighborhoods the text is suitable for students taking courses in the areas of health social care and allied services at nvq btec degree and pgce level the author encourages students to raise their own questions and develop their own forms of inquiry

Foundations of Disability Studies

2013-11-11

a collection of eight essays by scholars who have published extensively within the disability studies literature and who have helped build the field to its current state includes contributions from robert bogdan doug biklen susan schweik and more

Disability Studies

2013-11-12

this textbook brings together a wide range of expert voices from the field of disability studies and the disabled people s movement to tackle the essential topics relevant to this area of study from the outset disability is discussed from a social model perspective demonstrating how future practice and discourse could break down barriers and lead to more equal relationships for disabled people in everyday life an interdisciplinary and broad ranging text the book includes 50 chapters on topics relevant across health and social care reflective questions and suggestions for further reading throughout will help readers gain a critical appreciation of the subject and expand their knowledge this will be valuable reading for students and professionals across disability studies health nursing social work social care social policy and sociology

Disability Research Today

2015-03-05

grouped around four central themes illness and impairment disabling processes care and control and communication and representations this collection offers a fresh perspective on disability research showing how theory and data can be brought together in new and exciting ways disability research today starts by showing how engaging with issues around illness and impairment is vital to a multidisciplinary understanding of disability as a social process the second section explores factors that affect disabled people such as homelessness violence and unemployment the third section turns to social care and how disabled people are prevented from living with independence and dignity finally the last section examines how different imagery and technology impacts our understandings of disability and deafness showcasing empirical work from a range of countries including japan norway italy australia india the uk turkey finland and iceland this collection shows how disability studies can be simultaneously sophisticated accessible and policy relevant disability research today is suitable for students and researchers in disability studies sociology social policy social work nursing and health studies

Disability Studies Today

2002-12-13

over recent years there has been an unprecedented upsurge of interest in the general area of disability and disability studies amongst academics and researchers throughout the world this has generated an increasingly expansive literature from a variety of perspectives including cultural studies development studies geography history philosophy social policy social psychology and sociology perhaps inevitably given this heightened interest a number of important challenges and debates have emerged which raise many significant guestions for all those interested in this newly emergent and increasingly important field disability studies today provides an invaluable introduction to and an overview of these concerns and controversies although the field is increasingly interdisciplinary in nature the emphasis is primarily a sociological one since sociology continues to play a central role in the development of disability studies whilst the focus is primarily on theoretical innovation and advancement the arguments presented in this book have important political and policy implications for both disabled and non disabled people moreover since disability studies like ethnic women s and gay and lesbian studies has developed from a position of engagement and activism rather than one of detachment the articles in this volume maintain this tradition the book contains contributions from established figures as well as newcomers to the field topics covered include the history of the development of disability studies in britain and america key ideas issues and thinkers the role of the body divisions and hierarchies history power and identity work politics and the disabled peoples movement globalization human rights research and the role of the academy this book will prove invaluable to scholars researchers students and policy makers and indeed all those involved in this

increasingly important area of social enquiry

Disability Studies and the Inclusive Classroom

2017-04-21

disability studies and the inclusive classroom is a core textbook that integrates knowledge and practice from the fields of disability studies and special education the second edition has been fully revised and updated throughout to include stronger connections between race class sexual orientation gender and disability to emphasize intersecting identities and experiences stronger emphasis on curriculum and teaching rather than on attitudes toward disability and updates to current events cultural references resources research literature laws and policies

Rethinking Normalcy

2009

the chapters in this book exemplify ways of questioning our collective relations to normalcy as such relations affect the lives of both disabled and currently non disabled people pub desc

Disability Studies and the Inclusive Classroom

2012

this work s mission is to integrate the fields of disability studies and inclusive education it focuses on the broad foundational topics that comprise disability studies culture language history etc and moves into the more practical topics normally associated with inclusive education

Cultural Disability Studies in Education

2018-07-06

over the last few decades disability studies has emerged not only as a discipline in itself but also as a catalyst for cultural disability studies and disability studies in education in this book the three areas become united in a new field that recognises education as a discourse between tutors and students who explore representations of disability on the levels of everything from academic disciplines and knowledge to language and theory from received understandings and social attitudes to narrative and characterisation moving from late nineteenth to early twenty first century representations this book combines disability studies with aesthetics film studies holocaust studies gender studies happiness studies popular music studies humour studies and media studies in so doing it encourages discussion around representations of disability in drama novels films autobiography short stories music videos sitcoms and advertising campaigns discussions are underpinned by the tripartite model of disability and so disrupt one dimensional representations cultural disability studies in education encourages educators and students to engage with disability as an isolating hurtful and joyful experience that merits multiple levels of representation and offers true potential for a non normative social aesthetic it will be required reading for all scholars and students of disability studies cultural disability studies disability studies in education sociology and cultural studies

Emerging Perspectives on Disability Studies

2013-11-12

emerging perspectives on disability studies brings together up and coming scholars whose works expand disability studies into new interdisciplinary contexts this includes new perspectives on disability identity historical constructions of dis ability the geography of disability the spiritual nature of disability governmentality and disability rights neurodiversity and challenges to medicalized constructions of autism and questions of citizenship and participation in political and sexual economies in sum this volume uses disability studies as an innovative framework for its investigation into what it means to be human

Critical Readings in Interdisciplinary Disability Studies

2020-03-13

this edited volume includes chapters on disability studies organized around three themes theory philosophy and critique informed by a range of scholars who may or may not fashion their work beneath the banner of disability studies in explicit terms it draws connections across a range of identities knowledges histories and struggles that may on the face of the text seem unrelated the chapters are cross categorical and interdisciplinary for purposes of complicating disability studies across international contexts and multiple locations that consider practice oriented and intersectional approaches for analysis and advocacy this integrative approach heralds more powerful ways to imagine disability and the conversation on disability

Moving Beyond Boundaries in Disability Studies

2013-09-13

what challenges are posed by changing transnational trends agendas and movements that affect disabled people s lives and what can disabled people their representative organisations and their governments do to advance the agenda for self determination and inclusion this book draws together the writing of academics and activists to depict the experience and perspective of disabled people in relation to a range of contemporary social changes with a focus firmly on ways in which disabled people and their allies can act to counter disabling policies and practices throughout the book there is an emphasis on disabled people s own voices and activism as the critical driver of theoretical critique and practical change chapters address a wide range of cultural institutional and personal arenas to explore and contest the boundaries that disabled people seek to move beyond from cross border labour movements in korea to experience of day services in england from continuing and long lasting realities of wars in lebanon cambodia and somalia to the beauty of harmony in navajo traditions for understanding disability from collective activism to individual participation in the olympics this book is recommended reading for students researchers and activists interested in disability studies and is directly relevant to policy makers and practitioners in a position to reshape rights spaces and innovations in response to the priorities disabled people feel and articulate are important for their lives it was originally published as a special issue of disability society

Sociologies of Disability and Illness

2017-09-16

this book critically compares conflicting perspectives and overlapping themes within the study of disability and illness across recent decades with fresh interpretation of traditional theory in medical sociology and informed commentary on theoretical debates in disability studies it is provocative reading for students and scholars in this field

Disability, Avoidance and the Academy

2017-07-14

disability is a widespread phenomenon indeed a potentially universal one as life expectancies rise within the academic world it has relevance for all disciplines yet is often dismissed as a niche market or someone else s domain this collection explores how academic avoidance of disability studies and disability theory is indicative of social prejudice and highlights conversely how the academy can and does engage with disability studies this innovative book brings together work in the humanities and the social sciences and draws on the riches of cultural diversity to challenge institutional and disciplinary avoidance divided into three parts the first looks at how educational institutions and systems implicitly uphold double standards which can result in negative experiences for staff and students who are disabled the second part explores how disability studies informs and improves a number of academic disciplines from social work to performance arts the final part shows how more diverse cultural engagement offers a way forward for the academy demonstrating ways in which we can make more explicit the interdisciplinary significance of disability studies and by extension disability theory activism experience and culture disability avoidance and the academy challenging resistance will interest students and scholars of disability studies education studies and cultural studies

Approaching Disability

2014-06-27

disability studies is an area of study which examines social political cultural and economic factors that define disability and establish personal and collective responses to difference this insightful new text will introduce readers to the discipline of disability studies and enable them to engage in the lively debates within the field by offering an accessible yet rigorous approach to disability studies the authors provide a critical analysis of key current issues and consider ways in which the subject can be studied through national and international perspectives policies culture and history key debates include the relationship between activism and the academy ways to study cultural and media representations of disability the importance of disability history and how societies can change national and international perspectives on children childhood and education political perspectives on disability and identity the place of the body in disability theory this text offers real world examples of topics that are important to debates and offers a much needed truly international scope on the questions at hand it is an essential read for any individual studying practising or with an interest in disability studies

Dis/ability Studies

2014-04-24

in this ground breaking new work dan goodley makes the case for a novel distinct intellectual and political project dis ability studies an orientation that might encourage us to think again about the phenomena of disability and ability drawing on a range of interdisciplinary areas including sociology psychology education policy and cultural studies this much needed text takes the most topical and important issues in critical disability theory and pushes them into new theoretical territory goodley argues that we are entering a time of dis ability studies when both categories of disability and ability require expanding upon as a response to the global politics of neoliberal capitalism divided into two parts the first section traces the dual processes of ableism and disablism suggesting that one cannot exist without the other and makes the case for a research driven and intersectional analysis of dis ability the second section applies this new analytical framework to a range of critical topics including the biopolitics of dis ability and debility inclusive education psychopathology markets communities and civil society dis ability studies provides much needed depth texture and analysis in this emerging discipline this accessible text will appeal to students and researchers of disability across a range of disciplines as well as disability activists policymakers and practitioners working directly with disabled people

Disability in the Global South

2016-11-08

this first of its kind volume spans the breadth of disability research and practice specifically focusing on the global south established and emerging scholars alongside advocates adopt a critical and interdisciplinary stance to probe challenge and shift common held social understandings of disability in established discourses epistemologies and practices including those in prominent areas such as global health disability studies and international development motivated by decolonizing approaches contributors carefully weave the lived and embodied experiences of disabled people families and communities through contextual cultural spatial racial economic identity and geopolitical complexities and heterogeneities dispatches from ghana lebanon sri lanka cambodia venezuela among many others spotlight the complex uncertainties of modern geopolitics of coloniality emergent forms of governance including neoliberal globalization war and conflicts the interstices of gender race ethnicity space and religion structural barriers to redistribution and realization of rights and processes of disability representation this handbook examines in rigorous depth established practices and discourses in disability including those on development rights policies and practices opening a space for critical debate on hegemonic and often unguestioned terrains highlights of the coverage include critical issues in conceptualizing disability across cultures time and space the challenges of disability models metrics and statistics disability poverty and livelihoods in urban and rural contexts disability interstices with migration race ethnicity ge nder and sexuality disabilit y religion and customary societies and practice the uncrpd disability rights orientations and instrumentalitie redistributive systems including budgeting cash transfer systems and programming global south north partnerships intercultural methodologies in disability research this much awaited handbook

provides students academics practitioners and policymakers with an authoritative framework for critical thinking and debate about disability while pushing theoretical and practical frontiers in unprecedented ways

Disability and Psychology

2005-10-30

disability is not just the physical sensory or intellectual impairments a person has but the exclusion from society they face as a result organisations for disabled people are a growing voice in challenging this exclusion and anti discrimination legislation is helping to change the structures in society that have contributed to it this book examines the discipline of psychology in this regard it argues that psychology has tended to ignore the socio cultural aspects of disability and treat disabled people as objects rather than arbiters of psychological intervention bringing together disabled and non disabled researchers and psychologists this book proposes ideas for an enabling psychological theory and practice and addresses questions such as how can we support the inclusion of disabled children can therapy enable rather than pathologise what can be learnt from the experience of disabled psychologists how can psychology contribute to social models of disability in examining these issues this volume challenges the reader to reconsider the relationship between disability studies and psychology and to do so in ways that contribute to the emancipation rather than the exclusion of disabled people a key text for students on relevant courses within disability studies and psychology degrees this book is also an important resource for those who study or work in the areas of healthcare studies nursing sociology and social work dan goodley is a reader in disability studies university of sheffield with research interests in disability theory activism and methodology rebecca lawthom is principal lecturer in psychology manchester metropolitan university and a member of the research institute for health and social change her research interests are in disability community and feminist psychology

Purpose, Process and Future Direction of Disability Research

2013-11-19

purpose process and future direction of disability research brings together the collective experience of an international network of early career researchers who set out to discuss the complexity of researching disability as newcomers to the research process the researchers detail their apprehensions about embarking on doctoral research together with the struggles they experienced along the way and importantly the motivation that drove them to complete their projects contributors present an open and honest reflection on their research experience interests motives and values which underpinned the direction of their research projects are explored questioning whether their beliefs were subsequently challenged changed or validated research decisions were driven by a range and combination of personal experience of disability and professional experience of working with disabled people the influence of personal and professional approaches within research is addressed along with subsequent dilemmas ideological battles are detailed which include the place of the social model of disability in research and the oppressive nature of doing disability research the researchers identify and examine their experience throughout the process of analysis writing up and presenting data and question how far their data resulted in confusions or conclusions contributors explore their moral and political position as researchers and the potential influence on the validity of their findings issues about dissemination and the impact of their findings are also considered future research aims and challenges are identified with each contributor critically questioning the unfinished business that their research has involved essential reading recommended for students and supervisors engaged in disability studies and inclusive education

Disability

2014-04-04

deborah marks examines current theories and practices relating to disability the focus of the work is not disabled people as objects of study but rather an analysis of disability as it has been historically and culturally constructed and psychically experienced the chapters cover language and discourse the disabled people s movement the disability professions public policy unconscious investments and interpersonal relationships knowledge and the politics of disability this text will be essential reading for students on the growing number of disability studies courses as well as students policy makers and professionals in social policy social work cultural

Disability Studies in India

2020-11-29

since the 1970s the international disability rights movement the united nations and national governments across the world have attempted to ameliorate the status of the disabled population through a range of legislative and policy measures primarily in the areas of health education employment accessible environments and social security while the discourse in the disability sector in india has shifted from charity and welfare to human rights and entitlements disability studies as an interdisciplinary academic terrain that focuses on the contributions experiences history and culture of persons with disabilities has not yet taken root this volume collates some of the most recent pioneering work on disability studies from across the country the essays presented here engage with the concept of disability from a variety of disciplinary positions sociocultural contexts and subjective experiences within the overarching framework of the indian reality the contributors including some with disabilities themselves provide a well rounded perspective in shifting focus from disability as a medical condition only needing clinical intervention to giving it due social and academic legitimacy this book outlines key issues that would be germane to any disability studies endeavour in india and south asia and will appeal to academics activists institutions laypersons and professionals involved in social welfare sociology disability studies women s studies psychiatry rehabilitation and social and preventive medicine

Interdisciplinary Approaches to Disability

2018-12-12

how can a deep engagement with disability studies change our understanding of sociology literary studies gender studies aesthetics bioethics social work law education or history interdisciplinary approaches to disability the companion volume to manifestos for the future of critical disability studies identifies both the practical and theoretical implications of such an interdisciplinary dialogue and challenges people in disability studies as well as other disciplinary fields to critically reflect on their professional praxis in terms of theory practice and methods topics covered include interdisciplinary outlooks ranging from media studies games studies education performance history and curation through to theology and immunology perspectives are drawn from different regions from the european union to the global south with chapters that draw on a range of different national backgrounds our contributors who write as either disabled people or allies do not proceed from a singular approach to disability often reflecting different or even opposing positions the collection features contributions from both established and new voices in international disability studies outlining their own visions for the future of the field interdisciplinary approaches to disability will be of interest to all scholars and students working within the fields of disability studies cultural studies sociology law history and education the concerns raised here are further in manifestos for the future of critical disability studies

Disability Media Studies

2017-10-03

introduces key ideas and offers a sense of the new frontiers and questions in the emerging field of disability media studies disability media studies articulates the formation of a new field of study based in the rich traditions of media cultural and disability studies necessarily interdisciplinary and diverse this collection weaves together work from scholars from a variety of disciplinary homes into a broader conversation about exploring media artifacts in relation to disability the book provides a comprehensive overview for anyone interested in the study of disability and media today case studies include familiar contemporary examples such as iron man 3 lady gaga and oscar pistorius as well as historical media independent disability media reality television and media technologies the contributors consider disability representation the role of media in forming cultural assumptions about ability the construction of disability via media technologies and how disabled audiences respond to particular media artifacts the volume concludes with afterwords from two different perspectives on the field one by disability scholar rachel adams the other by media scholars mara mills and jonathan sterne that reflect upon the collection the ongoing conversations and the future of disability media studies disability media studies is a crucial text for those interested in this flourishing field and will pave the way for a greater understanding of disability media studies and its critical concepts and conversations

Claiming Disability

1998-01-01

from public transportation and education to adequate access to buildings the social impact of disability has been felt everywhere since the passage of the americans with disabilities act in 1990 and a remarkable groundswell of activism and critical literature has followed in this wake claiming disability is the first comprehensive examination of disability studies as a field of inquiry disability studies is not simply about the variations that exist in human behavior appearance functioning sensory acuity and cognitive processing but the meaning we make of those variations with vivid imagery and numerous examples simi linton explores the divisions society creates the normal versus the pathological the competent citizen versus the ward of the state map and manifesto claiming disability overturns medicalized versions of disability and establishes disabled people and their allies as the rightful claimants to this territory

The Routledge Handbook of Postcolonial Disability Studies

2024-03-29

this book centres and explores postcolonial theory which looks at issues of power economics politics religion and culture and how these elements work in relation to colonial supremacy it argues that disability is a constitutive material presence in many postcolonial societies and that progressive disability politics arise from postcolonial concerns by drawing these two subjects together this handbook challenges oppression voicelessness stereotyping undermining neo colonisation and postcolonisation and bridges binary debate between global north and the global south the book is divided into eight sections i setting the scene ii decolonising disability studies iii postcolonial theory inclusive development iv postcolonial disability studies and disability activism v postcolonial disability and childhood studies vi postcolonial disability studies and education vii postcolonial disability studies gender race and religion viii conclusion and comprised of 27 newly written chapters this book leads with postcolonial perspectives closely followed by an engagement with critical disability studies with the explicit aim of foregrounding these contributions pulling them in from the edges of empirical and theoretical work where they often reside in mainstream academic literature the book will be of interest to all scholars and students of disability studies and postcolonial studies as well as those working in sociology literature and development studies

Exploring Disability

2018-05-21

the second edition of this widely used text has been carefully rewritten to ensure that it is up to date with cutting edge debates evidence and policy changes since the book s initial publication there has been an expansion of interest in disability in the social sciences and disability has come to play an increasingly prominent role in political debates the new edition takes account of all these developments and also gives greater emphasis to global issues in order to reflect the increasing and intensifying interdependence of nation states in the twenty first century the authors examine amongst other issues the changing nature of the concept of disability key debates in the sociology of health and illness the politicisation of disability social policy and the cultural and media representation of disability as well as providing an excellent overview of the literature in the area the book develops an understanding of disability that has implications for both sociology and society the second edition of exploring disability will be indispensable for students across the social sciences and in health and social care who really want to understand the issues facing disabled people and disabling societies

Understanding Disability

2018-06-26
