the subject of this fascinating book is the rise flourishing and decline of the heliotropic myth the centuries old belief that all history is a succession of great civilizations developing like the movement of the sun from the east to the west america is in this vision the last empire indeed the fulfillment of history esteemed historian jan willem schulte nordholt draws on works of world poetry and other sources in describing the importance of the heliotropic myth and shows how the expectation of a final completion of history gave meaning and coherence to our civilization and how the mythic yearning for a better world drove our ancestors to distant lands ever farther westward now in the twentieth century with all western horizons gone and the realities of societal life even in america not so utopian we no longer dare to believe in the values of the west and prefer to live instead with an extraordinarily tolerant cultural relativism with the approach of the new millennium once predicted by the heliotropic myth to be a time of brilliant living schulte nordholt s work not only offers a perspective that will enhance all areas of study in american and world history but provokes a fresh desire for the real meaning of human history

the story of atlas and heracles atlas knows how it feels to carry the weight of the world but why he asks himself does it have to be carried at all in weight visionary and inventive yet completely believable and relevant to the questions we ask ourselves every day winterson s skill in turning the familiar on its head to show us a different truth is put to stunning effect when i was asked to choose a myth to write about i realized i had chosen already the story of atlas holding up the world was in my mind before the telephone call had ended if the call had not come perhaps i would

never have written the story but when the call did come that story was waiting to be written rewritten the recurring language motif of weight is i want to tell the story again my work is full of cover versions i like to take stories we think we know and record them differently in the retelling comes a new emphasis or bias and the new arrangement of the key elements demands that fresh material be injected into the existing text weight moves far away from the simple story of atlas s punishment and his temporary relief when hercules takes the world off his shoulders i wanted to explore loneliness isolation responsibility burden and freedom too because my version has a very particular end not found elsewhere from jeanette winterson s foreword to weight
