## Modern Political Thought

1960

since emerging in the late nineteenth century political science has undergone a radical shift from constructing grand narratives of national political development to producing empirical studies of individual political phenomena what caused this change modern political science the first authoritative history of anglophone political science argues that the field s transformation shouldn t be mistaken for a case of simple progress and increasing scientific precision on the contrary the book shows that political science is deeply historically contingent driven both by its own inherited ideas and by the wider history in which it has developed focusing on the united states and the united kingdom and the exchanges between them modern political science contains contributions from leading political scientists political theorists and intellectual historians from both sides of the atlantic together they provide a compelling account of the development of political science its relation to other disciplines the problems it currently faces and possible solutions to these problems building on a growing interest in the history of political science modern political science is necessary reading for anyone who wants to understand how political science got to be what it is today or what it might look like tomorrow

## *Dictionary of Modern Political Ideologies*

1987

the author provides an accessible and comprehensive account of the fast paced transformation of political communication systems of the united states and the united kingdom and the consequences of this for democratic practice

# Modern Political Thinkers and Ideas

2002

how are we to understand past political thinkers is it a matter simply of reading their texts again and again do we have to relate past texts of political thought to the contexts in which ideas were composed and in which the aims of past thinkers were formulated or should past political theories be deconstructed so as to uncover not what their authors maintain but what the texts reveal in this book theories of interpreting past political thinkers are examined and the interpretive methods of a range of theories are reviewed including those of hegel marx oakeshott collingwood the cambridge school foucault derrida and gadamer the application of these theories of interpretation to notable modern political theorists machiavelli hobbes locke rousseau kant hegel marx bentham mill nietzsche and beauvoir is then used as a way of understanding modern political thought and of assessing interpretive theories of past political thought the result is a book which sees the history of modern political thought as more than a procession of political theories but rather as a reflection on the meaning of past political thought and its interpretation it provides a way of reading the history of modern political thought in which the question of interpretation matters both for understanding how we interpret the past but also for considering what it means to undertake political thinking

## Modern Political Analysis

1976

a concise and accessible overview of the structure and functions of modern political systems with a focus on the united states covers topics such as democracy elections political parties and the role of government in social and economic policy suitable for students and general readers interested in politics and government this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

## An Introduction to Modern Political Theory

1989-09-15

quentin skinner s classic study the foundations of modern political thought was first published by cambridge in 1978 this was the first of a series of outstanding publications that have changed forever the way the history of political thought is taught and practised rethinking the foundations of modern political thought looks afresh at the impact of the original work asks why it still matters and considers a number of significant agendas that it still inspires a very distinguished international team of contributors has been assembled including john pocock richard tuck and david armitage and the result is an unusually powerful and cohesive contribution to the history of ideas

of interest to large numbers of students of early modern history and political thought in conclusion skinner replies to each chapter and presents his own thoughts on the latest trends and the future direction of the history of political thought

**Modern Political Science**

2009-01-10

## **Modern Political Theory**

2006-01-01

political campaigns in the united states have been favorite targets of critics since our nation s origin too long too expensive too negative too personal unbecoming to our democracy these criticisms were made in the nineteenth century just as they are made today but are they compelling this short book takes a fresh look at the american style of campaign politics past and present warts and all to argue that campaigns reflect both our popular culture and the place of politics in our national life in the end the purpose of campaigns is to draw voters attention to a candidate or issue even though politics is not of immediate interest to many or most citizens that is what campaigns do and always have done in america and there is little reason to think that a more cerebral approach to politics would be more effective reflective analytical and firmly committed to democratic values this book challenges citizens to trade cynicism for realism to take a clear eyed look at our politics and ourselves and appreciate both for what they are

## **Modern Political Thought, the Great Issues**

1959

a comprehensive guide to the complex ideology terminology which surrounds the world of politics well over 500 extensive definitions defines political theories dogmas and phraseologies terms such as pacifism proportional representation jihad son of star wars third way and consensual are explained clearly and succinctly invaluable for anyone concerned with politics or current affairs

## **Modern Political Institutions**

2023-07-18

this book examines early modern social contract theories within european representations of the americas in the 16th and 17th century despite addressing the americas only marginally social contract theories transformed american social imaginaries prevalent at the time into aboriginality allowing for the emergence of the idea of civilization and the possibility for diverse discourses of aboriginalism leading to excluding and discriminatory forms of subjectivity citizenship and politics what appears then is a form of aboriginalism pitting the american aboriginal other against the nascent idea of civilization the legacy of this political construction of difference is essential to contemporary politics in settler societies the author shows the intellectual processes behind this assignation and its role in modern political theory still bearing consequences today the way one conceives of citizenship and sovereignty underlies some of the difficulties settler societies have in accommodating indigenous claims for recognition and self government

# Rethinking The Foundations of Modern Political Thought

2006-12-07

suffering and politics in the thought of luther hobbes rousseau and nietzsche

## Modern Political Thought: the Great Issues

1974

this major new text critically assesses the key political ideologies of the 20th century the 1970s and 1980s witnessed a flowering of new and popular ideologies such as feminism and ecologism and a revival of others notably liberalism the upheavals of the early 1990s have initiated fresh debate amongst major thinkers on the nature of ideology much of it however hostile or polemical modern political ideologies examines in an objective scholarly manner the evolution of key political ideologies and assesses their impact and development during the 20th century this volume is essential reading for all students of politics and indeed anyone who has an interest in current events and wishes to acquire a deeper understanding of the nature scope and ambition of different ideologies

## *Modern Political Thinkers and Ideas*

2012

a history of modern political thought in east central europe volume ii part ii examines the defeat of the vision of socialism with a human face in 1968 and the political discourses produced by the various consolidation or normalization regimes it closes with pertinent questions about the fragility of the democratic order globally

## *Modern Political Philosophies and What They Mean*

2011-10-01

sheehan s thoughtful book makes a convincing case that the modern political order arises out of people s shared expectations and hopes without which the nation state could not exist every political order depends on a set of shared expectations about how the order does and should work in making a modern political order james sheehan provides a sophisticated analysis of these expectations and shows how they are a source of both cohesion and conflict in the modern society of nation states the author divides these expectations into three groups first expectations about the definition and character of political space which in the modern era are connected to the emergence of a new kind of state second expectations about the nature of political communities that is about how people relate to one another and to their governments and finally expectations about the international system

namely how states interact in a society of nation states although sheehan treats these three dimensions of the political order separately they are closely bound together each dependent on and reinforcing the others ultimately he claims the modern nation state must balance all three organizing principles if it is to succeed sheehan s project begins with an examination of people s expectations about political space community and international society in the premodern european world that came to be called the ancien régime he then in chapters on states nations and the society of nation states proceeds to trace the development of a modern political order that slowly and unevenly replaced the ancien régime in europe and eventually spread throughout the world to close he offers some speculations about the horizon ahead of us beyond which lies a future order that may someday replace our own
