Nisqually, Washington, Earthquake of February 2001 **2002-01-01**

prepared by the technical council on lifeline earthquake engineering of asce
this tclee monograph details the effects of the nisqually washington
earthquake of february 28 2001 despite the magnitude of this 6.8 earthquake
only moderate damage was reported on older structures and minimal damage was
reported on newer engineered buildings although catastrophic damage did not
occur investigators did find some significant damage to the lifeline
infrastructure particularly roads bridges and the sea tac airport control
tower topics include geoscience and geotechnical aspects highway systems
power systems water supply wastewater railways gas and liquid fuels
communications airports marine facilities fire department response and
hazardous materials

Just Enough Wireless Computing 2003

wireless technology offers immense potential for competitive advantage
starting right now but today's wireless landscape can be extraordinarily
confusing this book gives decision makers the clarity insight and practical
methodology they need to identify the right wireless solutions and implement

them ian s hayes offers a practical framework for understanding today s complex array of wireless devices solution providers technologies standards architectures and acronyms through real world case studies practical examples and illustrations he helps you determine which wireless solutions offer the greatest business value in your environment and walks you through assembling and integrating those solutions the book contains a detailed glossary of terminology as well as a comprehensive list of software vendors and consultants updated on an ongoing basis at the book s companion site

Satellite Networking 2005-12-13

satellite networking is an exciting and expanding field that has evolved significantly since the launch of the first telecommunications satellite from telephone and broadcast to broadband atm and internet with increasing bandwidth and mobility demands on the horizon satellites have become an integral part of the global network infrastructure gni satellite networking principles and protocols provides a balanced coverage of satellite topics from a network point of view focusing on network aspects services and applications quality of service qos and principles and protocols introduces the basics of atm and internet protocols and characteristics of satellite networks and internet networking between satellite and terrestrial networks discusses the real time protocols including rtp rtcp and sip for real time applications such as

voip and mmc coverage of new services and applications internet
trafficeengineering and mpls examines ipv6 over satellite using tunnelling and
translation techniques evolution of earth stations user terminals and
network protocols and development of satellite networking includes a companion
website featuring solutions manual and electronic versions of the figures
this text is essential reading for senior undergraduates postgraduates and
researchers in the fields of satellites communications and networks it will
also have instant appeal to engineers managers and operators in these fields

Programming Recreational Services 2011-08-24

programming recreational services serves as a handbook for recreational
practitioners at every level it clearly presents the methods and materials
necessary for the planning organization and operation of recreational
services this reader friendly text addresses each of the 12 recreational
program categories in detail and includes illustrations to assist with
learning it teaches students a methodology for evaluating recreational
programs from the establishment of objectives to the final instrument used to
determine whether or not the program performed in the way that it was
intended

Postal and Delivery Services 2002-12-31

postal and delivery services delivering on competition is an indispensable source of information and analysis on the current state of the postal and delivery sector it offers current insight into strategy regulation as well as the economics of this sector issues addressed include international postal policy the universal service obligation regulation competition entry the role of scale and scope economies the nature and role of cost and demand analysis in postal service productivity interaction of law and economics human resources transition and reform issues

The 2002 CIA World Factbook 2022-07-20

the 2002 cia factbook provides a variety of images facts and figures about many different countries throughout the world you will learn much from this manual discussing countries gdp natural resources military figures and much more

Official Gazette of the United States Patent and

Trademark Office 2004

this book emphasizes the convergence and trajectory of automatic identification and location based services toward chip implants and real time positioning capabilities provided by publisher

The World Factbook 2002

this multiple volume publication advances the emergent field of mobile computing offering research on approaches observations and models pertaining to mobile devices and wireless communications from over 400 leading researchers provided by publisher

Proceedings of the Freenix Track 2001

insightful and comprehensive and covering new subjects like globalization and it this text international in its approach provides a thorough introduction to the key phases of the contracting process and the skills required by managers in its implementation these include policy for contracting strategic purchasing understanding markets communicating the contracting decision designing and drafting the contract the role of the consumer the regulation of service provision illustrated throughout with practitioner case studies from a range of oecd countries this book presents an important new theoretical contract management model and a mature contract model and explores the mechanisms formal rules and informal norms that influence the way governments contract for public services this book is essential reading for all students of public management and all public service managers

Cumulative Report on Recissions and Deferrals 2001

health facility surveys come in various guises one dimension in which they vary is their motivation some seek to understand better links between

households and providers others seek to understand better provider behavior and performance still others seek to understand the interrelationships between providers while yet others seek to shed light on the linkages between government and providers health facility surveys differ too in the data they collect in part due to the different motivations surveys also vary in the way they collect data some relying on direct observation some on record review and some on interview some quality data are collected through clinical vignettes facility data have been put to a variety of uses including planning and budgeting monitoring evaluation and promoting accountability and research lindel and wagstaff review some of the literature under each heading and offer some conclusions regarding the current state of health facility surveys

Performance Report for the Period Ending ... 1955

in this report some of the world s leading experts in rail regulation examine the restructuring of the sector focusing on tariff reform and the introduction of competition in one of the world s largest rail networks

Annual Report on Transport Statistics in the United

States for the Year Ended ... 2002

inefficient and inappropriate discharges of patients from hospitals is a major problem for hospitals social services and primary care this clear and concise guide examines the reasons for difficulties of hospital discharge and considers the possible solutions it provides a comprehensive overview of policy frameworks practice issues and research findings highlighting the range of problematic hospital discharges that can occur current health and social policies are evaluated and typical individual organisational and structural barriers are examined it is invaluable for all those who have to make informed decisions regarding hospital discharge including doctors nursing managers and healthcare managers throughout primary and secondary care as well as social care managers and staff and policy makers and shapers

From Victims of Change to Agents of Change 2002

cancer care today often provides state of the science biomedical treatment but fails to address the psychological and social psychosocial problems associated with the illness this failure can compromise the effectiveness of health care and thereby adversely affect the health of cancer patients psychological and social problems created or exacerbated by cancer including

depression and other emotional problems lack of information or skills needed to manage the illness lack of transportation or other resources and disruptions in work school and family life cause additional suffering weaken adherence to prescribed treatments and threaten patients return to health today it is not possible to deliver high quality cancer care without using existing approaches tools and resources to address patients psychosocial health needs all patients with cancer and their families should expect and receive cancer care that ensures the provision of appropriate psychosocial health services cancer care for the whole patient recommends actions that oncology providers health policy makers educators health insurers health planners researchers and research sponsors and consumer advocates should undertake to ensure that this standard is met
