light shadows and attitude principles of photography is written as an introduction to the fascinating world of photography the book is intended for beginners and enthusiast contemplation the possibility of becoming professional photographers or pursuing the art in a serious manner there are several schools that may list from five to 10 principles of photography these schools combine principles of design graphic arts fine arts and even marketing however the one element these all agree is the element of light and if you observe any object or scene where there is light there are shadows the disposition of light and shadows make possible for us to see and identify objects in photography the same disposition allows us to record an image in a photo sensitive material the manipulation of this light and the proper perspective give these images the artistic aspect based on this over 35 years of photographic work and the study of the work of great photographers like ansel adams and eliott erwitt i have developed my own concept about principles of photography my concept one i like to share with you has a minimalistic approach keep it simple less may be more i call this my 3 1 concept subject composition and illumination plus attitude simple enough won t you agree you need a subject one that is attractive relevant and or inspiring as with any art form you need to compose your work make it understandable captivate the audience and to register the image you must have and manipulate illumination light and shadows the attitude part is entirely you do you have what it takes are you willing to do whatever it takes to get the shot

2007-04

unlike concrete or masonry plants are a living building material that changes in the course of the seasons and the years their growth and varying appearance are factors that must be considered when designing and planning in addition plants can also be employed to create different design levels they can be used as sheathing green facades ground cover lawns and to generate spaces of various heights hedges shrubs trees topics basics of using plants plant typologies function and impact of spaces site specificity design principles planting plan and representation execution

the light all around us series introduces young readers to the concept of light explaining key scientific concepts through a combination of simple leveled text and stunning photographs this book looks at shadows and reflections

## Light, Shadows and Attitude

2013-10-05

what exactly is a shadow is it light tracing an object or the shape a body throws when it comes between a light source and a surface is it a metaphor for the intimate darker side of a person s nature as carl jung postulated and the unconscious side of one s self where daemons and secrets are kept hidden or repressed is it an allegorical place between darkness and light death and living or is it a state of illusion like plato s cave is it a verb that means to follow or accompany or even to spy on shadows a new collaborative series by alexandra grant and keanu reeves explores the real and symbolic nature of the shadow as image and figure of speech grant s photographs capture reeves s shadow at times as a silhouette and at others as traces of light as he and the camera move together in transforming the images into color and reversing light for dark grant has made the shadows themselves the source of light reeves s texts written in tandem with the creation of the images

give voice to the multiple manifestations of the shadow as a projected figure a place of concealed emotion and an invocation to shadow play

the crusades the spanish inquisition the reformation and the renaissance popes conjure in the imagination a corrupt roman catholic clergy hungry for wealth and power in this insightful well researched work the vatican s chief historian fr walter brandmuller takes a thoughtful and understanding look at these and other important chapters in church history without denying or flinching at the human capacity for folly failure and evil brandmuller moves beyond the caricatures and legends that often substitute for real history to reveal a church both human and divine fulfilling its mission in every time and place his goal is not to whitewash any of these past events or issues but rather to illuminate them and bring to them a more in depth comprehensive historical understanding on the basis of their causes circumstances and effects now let us take into consideration church history from the theological viewpoint highlighting another important aspect its essential duty in fact turns out to be the complex mission to investigate and clarify that process of reception and transmission of paral  psis and of par  dosis through which was substantiated in the course of the ages the church s raison d   tre indeed it is beyond a doubt that the church can draw inspiration for her choices by drawing on her centuries old treasury of experience and memory pope benedict vxi address to the members of the pontifical committee for historical sciences march 7 2008
