

## Free ebook Caterpillar 3516 manual (Read Only)

for your largest power needs in any environment cat 3516 industrial diesel engines offer the unsurpassed performance and durability your customers need to keep their industrial applications and operations running they deliver high power output proven reliability and excellent fuel efficiency producing reliable power from 1600 to 2000 kva at 50 hz our 3516 diesel generator sets are made to meet your mission critical continuous standby and prime applications we ve designed each to iso 8528 5 transient response requirements and to accept 100 rated load in one step average power output is 85 of the standby power rating typical peak demand up to 100 of standby rated ekw for 5 of the operating time typical operation is 200 hours per year with maximum expected usage of 500 hours per year ratings are based on sae j1349 standard conditions producing reliable power from 1825 to 2500 ekw at 60 hz our 3516c diesel generator sets are made to meet your mission critical standby and prime applications we ve designed each to iso 8528 5 transient response requirements and to accept 100 rated load in one step generator set package accepts 100 block load in one step and meets other nfpa 110 loading requirements conforms to iso 8528 5 g3 load acceptance requirements reliability verified through torsional vibration fuel consumption oil consumption transient performance and endurance testing the 3516b generator set has been developed for a wide range of applications from emergency standby installations such as healthcare and datacenters to continuously powering remote installations the packages can be optimized for performance that matters to you with either low emissions or low fuel consumption versions available the 3516 generator set has been developed for a wide range of applications from emergency standby installations such as healthcare and datacenters to continuously powering remote installations the packages can be optimized for performance that
