Symposium on the Millennium (JCR Vol. 3 No. 2) 2016-07-20 what would it mean to get over slavery is such a thing possible is it even desirable should we perceive the psychic hold of slavery as a set of mental manacles that hold us back from imagining a postracist america or could the psychic hold of slavery be understood as a tool helping us get a grip on the systemic racial inequalities and restricted liberties that persist in the present day featuring original essays from an array of established and emerging scholars in the interdisciplinary field of african american studies the psychic hold of slavery offers a nuanced dialogue upon these questions with a painful awareness that our understanding of the past informs our understanding of the present and vice versa the contributors place slavery s historical legacies in conversation with twenty first century manifestations of antiblack violence dehumanization and social death through an exploration of film drama fiction performance art graphic novels and philosophical discourse this volume considers how artists grapple with questions of representation as they ask whether slavery can ever be accurately depicted trace the scars that slavery has left on a traumatized body politic or debate how to best convey that black lives matter the psychic hold of slavery thus raises provocative questions about how we behold the historically distinct event of african diasporic enslavement and how we might hold off the transhistorical force of antiblack domination <u>The Psychic Hold of Slavery 2016-06-30</u> notice this book is published by historical books limited publicdomain org uk as a public domain book if you have any inquiries requests or need any help you can just send an email to publications publicdomain org uk this book is found as a public domain and free book based on various online catalogs if you think there are any problems regard copyright issues please contact us immediately via dmca publicdomain org uk

The End of Time 2022-02-11 as climate change becomes an increasingly important part of public discourse the relationship between time in nature and history is changing nature can no longer be considered a slow and immobile background to human history and the future can no longer be viewed as open and detached from the past times of history times of nature engages with this historical shift in temporal sensibilities through a combination of detailed case studies and synthesizing efforts focusing on the history of knowledge media theory and environmental humanities this volume explores the rich and nuanced notions of time and temporality that have emerged in response to climate change Times of History, Times of Nature 2019-12-26 traditional apocalyptic texts concern the advent of a better world at the end of history that will make sense of everything that happened before but what is at stake in the contemporary shift to apocalyptic narratives in which the utopian end of time is removed the contemporary post apocalyptic novel offers an innovative critical model for our cultural obsession with the end by focussing on the significance of time in the 21st century post apocalyptic novel and challenging traditional apocalyptic logic once confined to the genre of science fiction the increasing popularity of end of the world narratives has caused apocalyptic writing to feature in the work of some of contemporary literature s most well known fiction writers considering novels by will self cormac mccarthy david mitchell emily st john mandel jeanette winterson and others diletta de cristofaro frames the contemporary apocalyptic imagination as a critique of modernity s apocalyptic conception of time and history interdisciplinary in scope the book historicises apocalyptic beliefs by exploring how relentlessly they have shaped the modern world

The Contemporary Post-Apocalyptic Novel 1862 in recent years numerous films television series comic books graphic novels and video games have featured time travel narratives with characters jumping backward forward and laterally through time no rules govern time travel in these stories some characters move by machine some by magic others by unexplained means sometime travelers can alter the timeline while others are prevented from causing temporal aberrations the fluid forms of imagined time travel have fascinated audiences and prompted debate since at least the 19th century what is behind our fascination with time travel what does it mean to be out of one s own era how do different media tell these stories and what does this reveal about the media s relationship to time this collection of new essays the first to address time travel across a range of media answers these questions by locating time travel narratives within their cultural historical and philosophical contexts texts discussed include doctor who the terminator the georgian house save the date back to the future inception source code and others

The Great Exodus, Or "The Time of the End;" how Near are We to It?. 2015-03-13 the authors of this collection of essays propose that climate change means serious peril the approaches begin from archaeology literature religion psychology sociology philosophy of science engineering and sustainable development as well as straight history our argument however is not about the science per se it is about us our deep and more recent history and how we arrived at this calamitous impasse with contributions from academic activists and independent researchers history at the end of the world challenges advocates of business as usual to think again but in its wide ranging assessment of how we transcend the current crisis it also proposes that the human past could be our most powerful resource in the struggle for survival Time Travel in Popular Media 2010 borsch has not answered all the questions of course who can but his view of the man tradition makes more sense to me than for example perrin s rather cavalier dismissal of the evidence and it not only enlightens but also enlivens the discussion as against the extreme skeptics borsch is also convincing to me in arguing the case for a large measure of authenticity in the son of man tradition in the gospels if the proof of the pudding is in the eating the book constantly calls me back to its pages for insight regarding the problem both in its historical dimension and in its bearing upon the meaning of jesus of nazareth for faith today theology the author is well aware of the difficulties involved in entering a field wherein so much investigation has been done and of this with the positive and negative conclusions he gives an excellent survey crisp and critical the lines opened up will engage the attention of a new and more positive chapter in the form critical argument london guarterly and holborn review frederick h borsch is the retired bishop of the episcopal diocese of los angeles and professor of new testament and chair of anglican studies at the lutheran theological seminary at philadelphia he is also the former dean of the chapel at princeton university his other books include the spirit searches everything keeping life s questions the bible s authority in today s church introducing the lessons of the church year a guide for lay readers and congregartions and the christian and gnostic son of man

History at the End of the World 2007-03-01 when the fledgling colony of newmanhome is threatened by impending ecological and galactic disaster viktor sorricaine is determined to discover the powers behind the destruction The Son of Man in Myth and History 1990 two monumental works on the nature of the modern age by romano guardini one of the most important catholic figures of the 20th century this expanded edition of the end of the modern world a search for orientation includes its sequel power and responsibility a course of action for the new age in both quardini analyzes modern man s conception of himself in the world and examines the nature and use of power it is the principle of individual responsibility that weaves both works into a seamless comprehensive and compelling moral statement guardini tirelessly argues that human beings are responsible moral agents possessed of free will and answerable to god and their fellow man on the end of the modern world this book will cauterize the spirit of any man who reads it it will burn away that sentimentality with which so many today view the advent of the new order imagining as they do that a fully technologized universe can retain every significant cultural and traditional value sustained by the past frederick d wilhelmsen founding editor of triumph magazine and professor at the university of dallas on power and responsibility if the characteristic of hellenic civilization is to be summed up in the word logos the characteristic of our own is more exactly summed up in the word power the fact itself is a challenge to the wisdom of man one is grateful that romano quardini has taken up the challenge i highly recommend the book to all who are wise enough to know today s need to wisdom that is i recommend the book to
