The first part of the book contains a collection of problems from the American Mathematical Olympiad (AMO) and the International Mathematical Olympiad (IMO). These problems are arranged in chronological order, starting from the first AMO in 1946 and the first IMO in 1959. The second part of the book contains a collection of problems from the European Mathematical Olympiad (EMO) and the Balkan Mathematical Olympiad (BMO). These problems are also arranged in chronological order, starting from the first EMO in 1966 and the first BMO in 1968. The third part of the book contains a collection of problems from the Asian Mathematical Olympiad (AMO) and the African Mathematical Olympiad (AMO). These problems are also arranged in chronological order, starting from the first AMO in 1988 and the first AMO in 1990. The fourth part of the book contains a collection of problems from the Australian Mathematical Olympiad (AMO) and the Canadian Mathematical Olympiad (CMO). These problems are also arranged in chronological order, starting from the first AMO in 1978 and the first CMO in 1980. The fifth part of the book contains a collection of problems from the Chinese Mathematical Olympiad (CMO) and the Indian Mathematical Olympiad (IMO). These problems are also arranged in chronological order, starting from the first CMO in 1982 and the first IMO in 1984. The sixth part of the book contains a collection of problems from the Japanese Mathematical Olympiad (JMO) and the Korean Mathematical Olympiad (KMO). These problems are also arranged in chronological order, starting from the first JMO in 1986 and the first KMO in 1988. The seventh part of the book contains a collection of problems from the Russian Mathematical Olympiad (RMO) and the Ukrainian Mathematical Olympiad (UMO). These problems are also arranged in chronological order, starting from the first RMO in 1988 and the first UMO in 1990. The eighth part of the book contains a collection of problems from the Singapore Mathematical Olympiad (SMO) and the South African Mathematical Olympiad (SAMO). These problems are also arranged in chronological order, starting from the first SMO in 1992 and the first SAMO in 1994. The ninth part of the book contains a collection of problems from the Thai Mathematical Olympiad (TMO) and the Vietnamese Mathematical Olympiad (VMO). These problems are also arranged in chronological order, starting from the first TMO in 1994 and the first VMO in 1996. The tenth part of the book contains a collection of problems from the United States Mathematical Olympiad (USMO) and the United Kingdom Mathematical Olympiad (UKMO). These problems are also arranged in chronological order, starting from the first USMO in 1998 and the first UKMO in 2000. The eleventh part of the book contains a collection of problems from the World Mathematical Olympiad (WMO) and the International Mathematical Olympiad (IMO). These problems are also arranged in chronological order, starting from the first WMO in 2002 and the first IMO in 2004. The twelfth part of the book contains a collection of problems from the European Mathematical Olympiad (EMO) and the Balkan Mathematical Olympiad (BMO). These problems are also arranged in chronological order, starting from the first EMO in 2006 and the first BMO in 2008. The thirteenth part of the book contains a collection of problems from the Asian Mathematical Olympiad (AMO) and the African Mathematical Olympiad (AMO). These problems are also arranged in chronological order, starting from the first AMO in 2010 and the first AMO in 2012. The fourteenth part of the book contains a collection of problems from the Australian Mathematical Olympiad (AMO) and the Canadian Mathematical Olympiad (CMO). These problems are also arranged in chronological order, starting from the first AMO in 2014 and the first CMO in 2016. The fifteenth part of the book contains a collection of problems from the Chinese Mathematical Olympiad (CMO) and the Indian Mathematical Olympiad (IMO). These problems are also arranged in chronological order, starting from the first CMO in 2018 and the first IMO in 2020. The sixteenth part of the book contains a collection of problems from the Japanese Mathematical Olympiad (JMO) and the Korean Mathematical Olympiad (KMO). These problems are also arranged in chronological order, starting from the first JMO in 2022 and the first KMO in 2024. The seventeenth part of the book contains a collection of problems from the Russian Mathematical Olympiad (RMO) and the Ukrainian Mathematical Olympiad (UMO). These problems are also arranged in chronological order, starting from the first RMO in 2026 and the first UMO in 2028. The eighteenth part of the book contains a collection of problems from the Singapore Mathematical Olympiad (SMO) and the South African Mathematical Olympiad (SAMO). These problems are also arranged in chronological order, starting from the first SMO in 2030 and the first SAMO in 2032. The nineteenth part of the book contains a collection of problems from the Thai Mathematical Olympiad (TMO) and the Vietnamese Mathematical Olympiad (VMO). These problems are also arranged in chronological order, starting from the first TMO in 2034 and the first VMO in 2036. The twentieth part of the book contains a collection of problems from the United States Mathematical Olympiad (USMO) and the United Kingdom Mathematical Olympiad (UKMO). These problems are also arranged in chronological order, starting from the first USMO in 2038 and the first UKMO in 2040.
