~~sharepoint technologies and the ways to best leverage sharepoint~~
features for these scenarios clients have been identified as critical
for building delivery but have been under researched with only a few
studies about them this book seeks to address this gap a deeper look
into the nature of construction clients and their relation to building
users exposes more fundamental questions related to the activity of
building and the activity in the building these fundamental questions
include how do clients get what they want how do clients cope with the
building process and how are clients being shaped by building s this
book on clients and users is structured around three main themes
agency is concerned with the classical agency structure dichotomy on
actions roles and responsibilities or put differently whether actors
can act freely or are bound by structural constraints governance is
related to the interplay between clients and the supply system clients
govern the supply system but are at the same time governed by the
supply system through different processes and mechanisms innovation
deals with construction innovation and what part clients and users
play in this struggle between change and stability the book includes
theoretical and conceptual frameworks on what constitutes clients and

~~better identify the main opportunities of participatory design a~~
concept which encourages the blurring of the role between user and
designer this allows people to escape their status as end user and to
elevate themselves to the level of creator this book explores new
avenues for rethinking the processes and practices of corporate
innovation in order to cope with current socio economic and
technological changes in so doing it aims to help companies renew
industrial models that allow them to design and produce new ranges of
technological products and services by giving the user an active role
in the development process far beyond the basic role of consumer
intended for designers design researchers and scientists interested in
innovation and technology management this book also provides a
valuable resource for professionals involved in technology based
innovation processes sustainability scarcity addresses a gap in the
literature on green building recognized by many in the fields of
international development architecture construction housing and
sustainability rather than being based on the experiences of more
economically developed countries this book describes the nature of
green building in the developing world elaborating its main issues
2023-07-11 the sustainability in those particular contexts through slow cooker
