ds 1955 from 1923 to 1931 lefebvre also designed several highly original and outstanding competition cars and record breaking automobiles for voisin he even drove some these cars in races and record attempts it is obvious that during his 16 years with gabriel voisin he was very much influenced by the ideas of this illustrious aviation pioneer and car manufacturer the experience gained during that period gave him the self confidence to persuade his successive bosses at citroën that his unorthodox approach to automobile design was what the company needed first he convinced andré citroën later pierre michelin then pierre jules boullanger and finally robert puiseux and pierre bercot his oeuvre for citroën alone earns

him a place of honour among the great automobile designers of the past century the fact that most present day cars still carry the dna of his design philosophy makes him stand out above other automotive pioneers and innovators that is why it is amazing that so little is known about this fascinating and brilliant engineer this book was written in order to remedy that and to pay tribute to andré lefebvre the passionate pioneer who left car enthusiasts around the world such an important heritage there has been nothing published outside of russia concerning the activities of its motor industry by 1937 the soviets had become the largest producers of motor vehicles in europe albeit with the help of henry ford the author decided to concentrate on the work of the pioneers in czarist russia for their efforts were more diverse than those of their counterparts in the soviet era however one soviet motor car which was an indigenous product has been included to illustrate how the industry might have evolved if henry ford had not been approached this is a comprehensive overview of all facets of vehicle production from the early days to the final demise of the soviet union all the manufacturers of motor vehicles certain accessories military machines and even aero engines are recorded in this unique book a guide for collectors discusses the history of die cast toy cars of the 1950s and 1960s and surveys the companies that manufactured the toys around the world including such major names as dinky toys corgi toys solido tekno and tootsietoy it took a great deal of determination on the part of women to sweep aside male resistance from the inner circles of the motoring world a veritable saga with a wealth of illustrations spanning almost a century of motor racing over forty unique portraits of daring brave women who took part in speed records events rallies and grand prix races the origin and subsequent history of the 3 litre ferrari sports cars which the famed italian firm designed and built to contest the various versions of the world sports car championship between 1969 and 1973 this series of cars started with the v12 engine and progressed to using the flat 12 ferrari engine from the then current grand prix car trackday car preparation helps you choose the best upgrades for your trackday car tailored to your budget your chosen car and what you want to get out of your trackdays this book gives advice on the best places to direct your modifications to deliver the results that you want whether you re after out and out speed fun handling or maybe tractability and adjustability this book gives you the advice you need to help make your car a potential trackday winner
