The Philosophy of Music 2014-06-23 this is volume v in a series of seven on the philosophy of religion and general philosophy originally published in 1924 the trained musician may have made a thorough study of technical methods in composition but yet have no knowledge either of the physical basis of music or of the philosophical reasons underlying accepted technical principles there are various questions which any person interested in music may reasonably ask but to which no satisfactory answers have as yet been given what does music mean what is the composer trying to express what does music express to the listener why is one kind of music considered good and another bad this study looks at music which is which of all the arts the most universally practised the most complex and elaborate in its technique the most direct in its emotional appeal and at the same time the least understood

Philosophy of Music 2015-01-30 this lively and lucid introduction to the philosophy of music concentrates on the issues that illuminate musical listening and practice it examines the conceptual debates relevant to the understanding and performing of music and grounds the philosophy to practical matters throughout ideal for a beginning readership with little philosophical background the author provides an overview of the central debates enlivened by a real sense of enthusiasm for the subject and why it matters the book begins by filling in the historical background and offers readers a succinct summary of philosophical thinking on music from the ancient greeks to eduard hanslick and edmund gurney chapter 2 explores two central questions what is it that makes music or to be precise some pieces of music works of art and what is the work of music per se is it just what we hear the performance or is it something over and above that something we invent or discover chapter 3 discusses a problem peculiar to music and one at the heart of philosophical discussion of it can music have a meaning and if so what can it be chapter 4 considers whether music can have value are there features about music that make it good features which can be specified in criteria is a work good if and only if it meets with the approval of an ideally qualified listener how do we explain differences of opinion indeed why do we need to make judgements of the relative value of pieces of music at all this engaging and stimulating book will be of interest to students of aesthetics musical practitioners and the general reader looking for a non technical treatment of the subject

The Philosophy of Music 1879 is music a language of the emotions how do recorded pop songs differ from works created for live performance is john cage s silent piece 4 33 music stephen davies s new book collects some of his most important papers on central topics in the philosophy of music as well as perennial questions davies addresses contemporary controversies including the impact of modern technology on the presentation and reception of both new and old musical works these essays two of them new and previously unpublished are self standing but thematically connected and will be of great interest to philosophers aestheticians and to theorists of music and art

The Philosophy of Music 1994 contributors to this volume are philip alperson francis sparshott nicholas wolterstorff edward t cone peter kivy jenefer robinson joseph margolis arnold berleant morris grossman jerrold levinson stephen davies martin donougho roger scruton and rose rosengard subotnik

Themes in the Philosophy of Music 2003-01-02 this book is for readers who are insatiably curious about music students of music in the broadest sense of the word in this category i include those whose musical concerns are more humanistic than technical as well as those preparing for careers in music in

a library system of classification thinking about music is apt to be filed under the heading music aesthetics history and problems of and that is a fair description preface

What Is Music? 2010-11-01 first published in 1862 these historical and philosophical essays explore the fascinating connection between music and the human mind

Thinking about Music 1983 ranging from antiquity to contemporary analytic philosophy it provides a concise but thorough analysis of the arguments developed by some of the most outstanding philosophers of all times besides the aesthetics of music proper the volume touches upon metaphysics ethics philosophy of language psychology anthropology and scientific developments that have influenced the philosophical explanations of music starting from the very origins of philosophy in western thought pythagoras plato aristotle the book talks about what music is according to augustine descartes leibniz rousseau kant hegel the romantics schopenhauer nietzsche wittgenstein susanne langer bloch adorno and many others recent developments within the analytic tradition are illustrated with particular attention to the ontology of the musical artwork and to the problem of music and emotions a fascinating idea which recurs throughout the book is that philosophers allow for a sort of a secret kinship between music and philosophy as means to reveal complementary aspects of truth

The Philosophy of Music 2011-10-20 musical understandings presents an engaging collection of essays on the philosophy of music written by stephen davies one of the most distinguished philosophers in the field he explores a range of topics in the philosophy of music including how music expresses emotion and what is distinctive to the listener s response to this expressiveness the modes of perception and understanding that can be expected of skilled listeners performers analysts and composers and the various manners in which these understandings can be manifest the manner in which musical works exist and their relation to their instances or performances and musical profundity as well as reviewing the work of philosophers of music a number of the chapters both draw on and critically reflect on current work by psychologists concerning music the collection includes new material a number of adapted articles which allow for a more comprehensive unified treatment of the issues at stake and work published in english for the first time

Philosophy of Music 2019-10-21 this volume reproducing a special issue of the journal of aesthetics and art criticism on the philosophy of music winter 1994 with a revised introduction and two new articles is distinguished by its breadth of content diversity of approaches and clarity of argument which should make it useful for classroom teaching the topics covered include musical representation the expression of feeling in music the metaphysics of operatic speech and song musical understanding musical composition feminist music theory music and politics music and racial identity music in non western cultures and the ontological implications of recording technology for rock music the approaches used are philosophical historical social and political feminist and ethnomusicological the book includes discussions of a great many styles and historical periods of music from ancient greek music and music theory to instrumental and operatic music in the western classical tradition persian music music of the blackfoot indians rock and the blues and the avant garde compositions and performances of john cage the contributors all eminent scholars in the field are philip alperson noël carroll stephen

Musical Understandings 2011-08-25 this book advances the philosophy of its previous editions into new territory recasting it in light of emerging ideas and interests in philosophy in general and in philosophy of music in particular the foundational concept of this book that the values of music are gained through direct experiences with its meaningful sounds remains intact but is explained and applied in broader more inclusive scope with a synergistic philosophical stance as the basis in addition it clarifies and updates for readers the explanations of musical feeling musical creativity and musical meaning that are at its core for music educators music lovers or anyone who wants a synergistic philosophy of music education inclusive of a variety of positions

The Philosophy of Sound, and History of Music 1838 music and music education as social praxis is a brief introduction to a praxial theory of music education defined by author it is grounded in an interdisciplinary approach for undergraduate and graduate students in music education drawing upon scholarship from a range of disciplines including philosophy and sociology the book emphasizes and highlights thinking of music as an active social practice and offers an alternative to existing approaches to music education this text advocates for an alternative approach to teaching music rooted in the social practice of music and will supplement foundations or methods courses in the music education curriculum

The Philosophy of Music 1910 excerpt from the philosophy of music a comparative investigation into the principles of musical aesthetics in offering this book to the public the author feels constrained to ask for it the kindly consideration usually granted to pioneer work for while the bibliography of music is voluminous attempts at a scientific psychological analysis of music and at a systematic discussion of the principles of musical aesthetics are surprisingly few of all the books examined gurney s power of sound was by far the most valuable though its wealth of keen observations and valuable conclusions is all but buried under a great mass of needless verbiage and other forbidding infelicities of style under the circumstances it seemed best to the author therefore to start boldly out trusting to his psychological knowledge for chart and compass and to his philosophical training to lead him through the subtleties and half mystical generalities which for so long have be clouded this particular field of art the thanks of the author are due and are here gratefully given to those whose sympathy has given him encouragement and whose suggestions and criticisms have proven most valuable among those who have thus contributed to whatever value the book may have mention must be made especially of professor h c macdougall and of professor horatio parker who have kindly read portions of the manuscript and offered many helpful suggestions about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any

Musical Worlds 2010-11-01 a concise survey of music philosophy helps music students choose a philosophy that will guide them throughout their careers the book is divided into three sections central issues that any music philosophy ought to consider e.g. beauty, emotion and aesthetics secondly significant philosophical positions exploring what major thinkers have had to say on the subject and finally opportunities for students to consider the ramifications of these ideas for themselves throughout the book students are encouraged to make choices that will inform a philosophy of music and music education with which they are most comfortable to align frequently music philosophy courses are taught in such a way that the teacher as well as the textbook used promotes a particular viewpoint a concise survey of music philosophy presents the most current prevalent philosophies for consideration students think through different issues and consider practical applications there are numerous musical examples each with links from the author's home website to online video performances examples are largely from the western classical canon but also jazz, popular and world music styles in the last two chapters students apply their views to practical situations and learn the differences between philosophy and advocacy hodge has written an excellent resource for those wanting a short but meaningful introduction to the major concepts in music philosophy applicable to a number of courses in the music curriculum this much needed book is both accessible and flexible containing musical examples, tables and diagrams and additional readings that make it particularly useful for a student's general introduction to the topic especially like the emphasis on the personal development of a philosophical position which makes the material especially meaningful for the student of music peter r webster scholar in residence thornton school of music university of southern california usa

A Philosophy of Music Education 2003 a landmark work from the founder of the frankfurt school a key work in the study of adorno of interest to students and general readers alike

A Brief Introduction to A Philosophy of Music and Music Education as Social Praxis 2015-12-07 in 1677 a slim quarto volume was published anonymously as a philosophical essay of musick written by francis north 1637-85 chief justice of the common pleas the essay is in the form of a legal case argued from an hypothesis utilising the pendulum as his hypothesis north provided a rationale from mechanics for the emerging new musical practice we now call tonality he also made auditory resonance the connecting link between acoustical events in the external world and the musical meanings the mind makes on the basis of sensory perception thus began the modern philosophy of music that culminated with the work of hermann von helmholtz as a step towards understanding this tradition jamie c kassler examines the 1677 essay in its historical context after assessing three seventeenth century criticisms of it and outlining how one critic developed some implications in the essay she summarises the basic principles that have guided the modern philosophy of music from its beginnings in the 1677 essay the book includes an annotated edition of the essay as well as the comments of the three critics

The Philosophy of Music 2015-06-13 collection of essays on the following issues music and the liberal education work and performance the world of

opera music and the history of ideas music and emotion and music alone

A Concise Survey of Music Philosophy 2016-10-04 our field of inquiry material form meaning style permanence composites context conception

Philosophy of Modern Music 2003-01-01 this is the first comprehensive book length introduction to the philosophy of western music that fully integrates consideration of popular music and hybrid musical forms especially song its author andrew kania begins by asking whether bob dylan should even have been eligible for the nobel prize in literature given that he is a musician this motivates a discussion of music as an artistic medium and what philosophy has to contribute to our thinking about music chapters 2 5 investigate the most commonly defended sources of musical value its emotional power its form and specifically musical features such as pitch rhythm and harmony in chapters 6 9 kania explores issues arising from different musical practices particularly work performance with a focus on classical music improvisation with a focus on jazz and recording with a focus on rock and pop chapter 10 examines the intersection of music and morality the book ends with a consideration of what ultimately music is key features uses popular song examples throughout but also discusses a range of musical traditions notably rock pop classical and jazz explains both philosophical and musical terms when they are first introduced provides publicly accessible spotify playlists of the musical examples discussed in the book each chapter begins with an overview and ends with questions for testing comprehension and stimulating further thought along with suggestions for further reading

The Beginnings of the Modern Philosophy of Music in England 2017-09-19 this title includes the following features an accessible introductory guide to the philosophy of music attractively priced peter kivy is one of the most eminent philosophers of music written in a friendly and entertaining style no other good introduction to the subject

The Fine Art of Repetition 1993-02-26 new and distinctive approaches to five central topics in musical aesthetics are provided in this outstanding book the topics are understanding representation expression performance and profundity the theme of the book is the failure of the orthodox view that pieces of music are more or less self contained structures of sound to account for some important features of our musical experience and to explain why music should matter to us in exposing and correcting that failure the book introduces readers to the main problems and positions in the philosophy of music proposes fresh solutions to those problems and offers innovative approaches to the philosophy of song to musical ontology and to questions about the value of music each chapter is built around a single musical work which provides a focus for the reader features broad accessible introductory overview to philosophy of music original and stimulating insights

A Humanistic Philosophy of Music 2006 excerpt from the philosophy of music what music can do for you the name of this book was formerly what music can do for you it has been renamed the philosophy of music because of its essentially philosophic nature for the study of music is no longer presented mechanically as of old thousands of people who studied music when they were young have given it up when they married or when they went to work or became absorbed in some way they still love it and go wistfully to concerts longing to understand regretting that they gave it up why is this the case we have talked to and taught a great many people and find two vital causes back of this condition 1 they have neither time nor desire for endless scales and

The Philosophy of Music 2004 rhythm is the fundamental pulse that animates poetry music and dance across all cultures and yet the recent explosion of scholarly interest across disciplines in the aural dimensions of aesthetic experience particularly in sociology cultural and media theory and literary studies has yet to explore this fundamental category this book furthers the discussion of rhythm beyond the discrete conceptual domains and technical vocabularies of musicology and prosody with original essays by philosophers psychologists musicians literary theorists and ethno musicologists the philosophy of rhythm opens up wider and plural perspectives examining formal affinities between the historically interconnected fields of music dance and poetry while addressing key concepts such as embodiment movement pulse and performance volume editors peter cheyne andy hamilton and max paddison bring together a range of key questions what is the distinction between rhythm and pulse what is the relationship between everyday embodied experience and the specific experience of music dance and poetry can aesthetics offer an understanding of rhythm that helps inform our responses to visual and other arts as well as music dance and poetry and what is the relation between psychological conceptions of entrainment and the humane concept of rhythm and meter overall the philosophy of rhythm appeals across disciplinary boundaries providing a unique overview of a neglected aspect of aesthetic experience

The Philosophy of Music 2015-06-02 this book presents a comprehensive accessible survey of western philosophy of music from pythagoras to the present its narrative traces themes and schools through history in a sequence of five chapters that survey the ancient medieval early modern modern and contemporary periods its wide ranging coverage includes medieval islamic thinkers continental and analytic thinkers and neglected female thinkers such as vernon lee violet paget all aspects of the philosophy of music are discussed including music and the cosmos music s value music s relation to the other arts the problem of opera the origins of musical genius music s emotional impact the moral effects of music the ontology of musical works and the relevance of music s historical context the volume will be valuable for students and scholars in philosophy and musicology and all who are interested in the ways in which philosophers throughout history have thought about music

The Philosophy of Music 2017-08-20 this volume presents a selection of lively essays on philosophy of music by peter kivy the leading expert on the subject he explores the nature of musical genius the subject of authenticity in

performance and interpretation musical representation and meaning and the notion of music as the pure formal structure of expressive sound

The Philosophy of Music 1920 excerpt from the philosophy of music what music can do for you the old way of studying music by practicing interminable scales and exercises has been a failure the philosophic way is to first awaken music from within by means of simple drills about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

PHILOSOPHY OF MUSIC 2018 it is the contention of the editors and contributors of this volume that the work carried out by gilles deleuze where rigorously applied has the potential to cut through much of the intellectual sedimentation that has settled in the fields of music studies deleuze is a vigorous critic of the western intellectual tradition calling for a philosophy of difference and despite its ambitions he is convinced that western philosophy fails to truly grasp or think difference as such it is argued that longstanding methods of conceptualizing music are vulnerable to deleuze's critique but as deleuze himself stresses more important than merely critiquing established paradigms is developing ways to overcome them and by using deleuze's own concepts this collection aims to explore that possibility
