coletta examines narratives and films belonging to italian north american french and  
argentine cultures these include luchino visconti s adaptation of james m cain s the  
postman always rings twice federico fellini s version of edgar allan poe s story  
never bet the devil your head alain corneau s film based on antonio tabucchi s

gadamer and calls for a hermeneutics of estrangement a practice of mediation and  
adaptation that defines cultures nations selfhoods and their aesthetic achievements  
in terms of their transformative encounters stories travel to unexpected and  
interesting places when adapted into film by people of diverse cultures while the  
intended meaning of the author may not be perfectly reproduced it still holds della  
coletta argues an equally valid and important intellectual claim upon its

viagem identidade e memória textual aborda o tema da viagem no romance noturno  
indiano o qual está intrinsecamente relacionado à busca do eu pelo protagonista aos  
jogos textuais e à construção de espelhos o que leva à reflexão sobre o duplo nesse  
romance além disso discute como se dá a construção da memória textual de antonio  
tabucchi demonstrando como o próprio escritor conecta alguns de seus textos ao  
sugerir ao leitor um roteiro o que se dá em a frase a seguir é falsa a frase  
anterior é verdadeira nesse texto tabucchi fazendo se personagem sugere ao teósofo  
de madras a leitura de dois de seus livros para que assim possa compreender melhor  
seu noturno indiano a saber il gioco del rovescio e piccoli equivoci senza  
importanza percorrer esse caminho traçado por antonio tabucchi é justamente um dos  
propósitos deste livro text in italian the work of a tabucchi one of italy s  
greatest contemporary writers is imbued with the topic of individual identity his  
texts query the self perception the relation with the other and the relation with  
the historical and cultural world while expressing at all these levels an experience  
of dissolution the self is fragmented and fragile the other is always absent and  
missed and instead of being engaged in the present world the subject lives in an  
intangible reality that does not make any sense this profound existential anxiety  
and the weakening of identity are emphasised by the very way of narrating of  
tabucchi which is disconnected enigmatic and full of silences the book by pia  
schwarz lausten describes various manifestations of the above mentioned experience  
of the rise decline and resurgence of americas most powerful mafia

~~through the textual analysis of a series of figures and motives such as memory and~~  
absence reversal and multiplicity the said and the unsaid history and commitment  
some of these motives involve on the one hand existential and philosophical aspects  
and on the other esthetical and literary values the analysis is based on two  
theoretical perspectives that in different ways describe an overcoming of a  
classical subjectivity in favour of an idea of which the other or alterity is an  
essential element to the definition of individual identity m bachtin s concept of  
dialogism and g vattimo s weak thought the former serves to define the narrating  
subject in tabucchi s texts characterised by different discourse levels and others  
words the latter concept describes the position of the subject of post modernity  
determined by a weakening of the strong structures of modern thought the book is  
written in italian the essays in this collection are based on papers given at a  
conference on detective fiction in european culture held at the university of exeter  
in september 1997 the range of topics covered is designed to show not only the  
presence and variety of narratives of detection across different european countries  
and their different media although there is a predictable emphasis on the novel it  
also illustrates the fertility of the genre its openness to a spectrum of readings  
with different emphases formal as well as thematic approaches to detective fiction  
have often tended to confine them selves to symptomatic interpretation where details  
of the fictional world represented are used to diagnose a specific set of social  
preoccupations and priorities operative at the time of writing such approaches can  
yield valuable insights nonetheless there is a risk of limiting the value of the  
genre as a whole solely to its role as a mirror held up to society in this  
perspective issues of structure and style are sidelined or if addressed are praised  
to the extent that they approach invisibility concision spareness realism are the  
qualities singled out for praise the genre also gives much scope for formal  
innovation and indeed has often attracted already established mainstream writers and  
filmmakers for just this reason the eclectic diversity of the detective narratives  
considered in this volume reveal the malleability of the traditional constraints of  
the genre the essays bear rich testimony to the value of considering the interplay  
of thematic and structural issues even in the most apparently unselfconscious and  
popular or populist forms of narrative the patterns of reassurance the triumph of  
intellect and the ordered rational world of old are now challenged by the need to  
foreground the problems ambiguities and uncertainties of the self and of society the  
plurality of meanings and the antithetical imperatives explored in these detective  
narratives confirm that the most recent forms of the genre are not mere palimpsests  
of their golden age precursors the subversion of traditional expectations and the  
implementation of diverse stylistic devices take the genre beyond mere homage and  
pastiche the role of the reader spectator and critic in conferring meaning is a  
crucial one this volume focuses on acts of courage defiance and sacrifice undertaken  
during world war i and ii by individuals that mainstream history has relegated to  
the sidelines drawn from different genres literary cinematic diaristic and  
historical the experiences that these outsiders confronted lay bare the intimate if  
lacerating choices that they faced in their struggle for freedom ignored by official  
history the testimonials that war prisoners female partisan leaders spies deserters  
and disillusioned soldiers offer provide a fresh insight into the social political  
historical and ethical contradictions that define warfare rhetoric in the twentieth  
century the book s ten contributors delve into the conflicts between oppressive  
authorities and the desire for freedom with verve and energy they revive these  
largely neglected voices and turn them into a provocative medium to discuss and  
redefine issues still relevant today heroism pacifism national pride gender issues  
faith personal and collective history postmodern ethics offers a new perspective on  
debates surrounding the role of the intellectual in italian society and provides an  
original reading of two important italian contemporary writers leonardo sciascia and  
antonio tabucchi it examines the ways in which the two writers use literature to  
engage with their socio political environment in a climate informed by the doubts

~~and scepticism of postmodernism after traditional forms of impegno had been~~  
abandoned postmodern ethics explores ways in which tabucchi and sciascia further their engagement through embracing the very factors which problematized traditional committed writing such as the absence of fixed truths the inability of language to fully communicate ideas and intertextuality postmodern ethics provides an innovative new reading of tabucchi s works it challenges the standard view in critical literature that his writing may be divided into engaged texts which dialogue with society and postmodern texts which focus on literary interiority suggesting instead that socio political engagement underpins all of his works it also offers a new lens on sciascia s writing unpacking why sciascia unlike his contemporaries is able to maintain a belief in literature as a means of dialoguing with society postmodern ethics explores the ways in which tabucchi and sciascia approach issues of terrorism justice the anti mafia movement immigration and the value of reading in connected yet distinct ways suggesting that a close genealogy may be drawn between these two key intellectual figures this collection of thirteen essays brings together italian and american scholars to present a cooperative analysis of the italian short story beginning in the fourteenth century with giovanni boccaccio and arriving at the twentieth century with alberto moravia and anna maria ortese throughout the book the contributors carefully and intentionally unpack and explain the development of the short story genre and demonstrate the breadth of themes cultural historical and linguistic detailed in these narratives dedicated to a genre devoted to lightness and flexibility as well as quickness exactitude visibility and multiplicity this collection paints a careful and exacting picture of an important part of both italian and literary history the multifaceted and labyrinthine oeuvre of the portuguese poet fernando pessoa 1888 1935 is distinguished by having been written and published under more than seventy different names these were not mere pseudonyms but what pessoa termed heteronyms fully realized identities possessed not only of wildly divergent writing styles and opinions but also of detailed biographies in many cases their independent existences extended to their publication of letters and critical readings of each other s works and those of pessoa himself long acclaimed in continental europe and latin america as a towering presence in literary modernism pessoa has more recently begun to receive the attention of an english speaking public embodying pessoa responds to this new growth of interest the collection s twelve essays preceded by a general introduction and grouped into four themed sections apply a range of current interpretative models both to the more familiar canon of pessoa s output and to less familiar texts in many cases only recently published as a whole this work diverges from traditional pessoa criticism by testifying to the importance of corporeal physicality in his heteronymous experiment and to the prominence of representations of gendered sexuality in his work nathan glass is the hero of brooklyn follies he is 59 and he s returning to brooklyn to die but soon he meets characters from the park slope neighborhood who begin to bring him back to life the encyclopedia of italian literary studies is a two volume reference book containing some 600 entries on all aspects of italian literary culture it includes analytical essays on authors and works from the most important figures of italian literature to little known authors and works that are influential to the field the encyclopedia is distinguished by substantial articles on critics themes genres schools historical surveys and other topics related to the overall subject of italian literary studies the encyclopedia also includes writers and subjects of contemporary interest such as those relating to journalism film media children s literature food and vernacular literatures entries consist of an essay on the topic and a bibliographic portion listing works for further reading and in the case of entries on individuals a brief biographical paragraph and list of works by the person it will be useful to people without specialized knowledge of italian literature as well as to scholars una ciudad martima que se parece a gnova un turbio crimen un cadver animo un hombre que emprende una investigacin personal para desvelar su identidad pero el procedimiento de spino el detective de la historia no

drawing on the recent renewal of interest in the debate on orality and literacy this book investigates the varying perceptions and representations of orality in contemporary italian fiction providing a fresh perspective on this rich and fast developing debate and on the study of the italian literary language the book brings together a number of complementary approaches to orality from the fields of linguistics literary and media studies and offers a detailed analysis of a broad variety of authors and texts that appeared over the last three decades ranging from internationally acclaimed writers such as celati duranti and tabucchi through de luca and baricco to the latest generation of writers such as campo ballestra and nove by exploring the complementary facets of italian orality and its diachronical developments since the seventies this study questions the traditionally dichotomic approach to the study of orality and literacy and posits a more flexible cross modal approach that accounts for the increasing hybridisation of text forms and media and for the greater interaction between the spoken and the written as well as their representations

the essays in this collection are based on papers given at a conference on detective fiction in european culture held at the university of exeter in september 1997 the range of topics covered is designed to show not only the presence and variety of narratives of detection across different european countries and their different media although there is a predictable emphasis on the novel it also illustrates the fertility of the genre its openness to a spectrum of readings with different emphases formal as well as thematic approaches to detective fiction have often tended to confine them selves to symptomatic interpretation where details of the fictional world represented are used to diagnose a specific set of social preoccupations and priorities operative at the time of writing such approaches can yield valuable insights nonetheless there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society in this perspective issues of structure and style are sidelined or if addressed are praised to the extent that they approach invisibility concision spareness realism are the

innovation and indeed has often attracted already established mainstream writers and filmmakers for just this reason the eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre the essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative the patterns of reassurance the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems ambiguities and uncertainties of the self and of society the plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors the subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche the role of the reader spectator and critic in conferring meaning is a crucial one

postmodern ethics offers a new perspective on debates surrounding the role of the intellectual in italian society and provides an original reading of two important italian contemporary writers leonardo sciascia and antonio tabucchi it examines the ways in which the two writers use literature to engage with their socio political environment in a climate informed by the doubts and scepticism of postmodernism after traditional forms of impegno had been abandoned postmodern ethics explores ways in which tabucchi and sciascia further their engagement through embracing the very factors which problematized traditional committed writing such as the absence of fixed truths the inability of language to fully communicate ideas and intertextuality postmodern ethics provides an innovative new reading of tabucchi s works it challenges the standard view in critical literature that his writing may be divided into engaged texts which dialogue with society and postmodern texts which focus on literary interiority suggesting instead that socio political engagement underpins all of his works it also offers a new lens on sciascia s writing unpacking why sciascia unlike his contemporaries is able to maintain a belief in literature as a means of dialoguing with society postmodern ethics explores the ways in which tabucchi and sciascia approach issues of terrorism justice the anti mafia movement immigration and the value of reading in connected yet distinct ways suggesting that a close genealogy may be drawn between these two key intellectual figures

the multifaceted and labyrinthine oeuvre of the portuguese poet fernando pessoa 1888 1935 is distinguished by having been written and published under more than seventy different names these were not mere pseudonyms but what pessoa termed heteronyms fully realized identities possessed not only of wildly divergent writing styles and opinions but also of detailed biographies in many cases their independent existences extended to their publication of letters and critical readings of each other s works and those of pessoa himself long acclaimed in continental europe and latin america as a towering presence in literary modernism pessoa has more recently begun to receive the attention of an english speaking public embodying pessoa responds to this new growth of interest the collection s twelve essays preceded by a general introduction and grouped into four themed sections apply a range of current interpretative models both to the more familiar canon of pessoa s output and to less familiar texts in many cases only recently published as a whole this work diverges from traditional pessoa criticism by testifying to the importance of corporeal physicality in his heteronymous experiment and to the prominence of representations of gendered sexuality in his work
