Australian Financial Accounting 2005

issues in financial accounting addresses the controversial issues in financial accounting that have been debated by the preparers users auditors and regulators of financial statements henderson provides the best balance of technical and theoretical coverage in any financial accounting text on the market today with its presentation of real world examples current debates and the underlying rationale for the accounting concepts demonstrated throughout the text academic studies and professional accounting research are referenced to also provide a critical understanding of historical debates in financial accounting the new 15th edition covers significant recent developments to the accounting standards in australia and is based on the aasb standards and interpretations that have been issued up to the end of 2012 this includes the australian accounting standard board s aasb program of changes to make accounting standards equivalent to international financial reporting standards

Im Australian Financial Accounting 1995-07-01

this exciting book is one of the first textbooks in the fast growing area of sustainability accounting contributed to and edited by an impressive array of internationally renowned authorities it focuses on the use of sustainability accounting both as an external accountability mechanism external reporting and as a tool for helping managers assess and manage the social and environmental impacts of their operations management accounting using real life examples and case studies to emphasize the links between the conceptual basis and issues in practice this outstanding book addresses the growing interest among both practitioners and academics in social environmental and ethical accountability as interpreted through the lens of sustainable development

New Zealand Financial Accounting 2001-01-01

given the increased social and environmental problems in china this book looks into the social and environmental environmental disclosure practices of socially responsible chinese

listed firms by constructing a stakeholder driven three dimensional disclosure index the book contains a three part study the first part explores the current status of social and environment disclosure practices the second part empirically examines the relationship between corporate social and environmental disclosure and various influencing factors i e stakeholders power and corporate characteristics the third part empirically examines the link between corporate social responsibility csr reporting i e publishing a csr report and the quality of the csr report and socially responsible reputation the book finds that the csr report provided more stakeholder relevant social and environmental disclosure than the annual report it also finds that corporate characteristics such as firm size profitability and industry classification are all statistically significant factors influencing social and environmental disclosure of the chinese firms studied shareholders significantly influenced firms social and environmental disclosure and creditors significantly influenced firms disclosure related to their environmental performance the final part of the study reports that publishing a csr report and csr reporting quality had a positive influence on firms socially responsible reputation and that the ceo chairman duality negatively influenced firms socially responsible reputation the book also highlights that financial performance and firm size were the two corporate characteristics that had a positive influence on corporate socially responsible reputation this book will be of interest to those who are keen to learn more about corporate social responsibilities in the context of chinese firms

Introduction to Financial Accounting 2012

what is my theory how do i choose a theory why and how should i employ a particular method for collecting the empirical data these basic questions concern everyone involved in research a research study can be a voyage of discovering or choice of theoretical perspective as well as gathering empirics or facts on a problem or situation this book provides a good guideline as to why and how to choose a particular theory or method to study an organisational phenomenon such as accounting all the chapters provide both retrospective and contemporary views by scholars in the field each chapter documents the latest developments and research in accounting and control systems and provides valuable insights into methodological perspectives in accounting research this second edition has also introduced a number of new chapters covering strategy management control as practice grounded theory approach institutional logic and rhetoric social interaction theory actor network theory and practice theory the book is primarily intended for research students and academic researchers it can also be used for undergraduate honours course as well as postgraduate accounting and business methodology courses research organisations and consulting firms in accounting and business fields may also find this book useful the principal aims of this second edition are 1 to update the chapters previously published in 2006 and 2 to introduce new chapters documenting recent developments in accounting research

AYB200 2013

this book covers key discussions involving major us and european multinational companies mncs that source products from suppliers in developing countries due to the transfer of production from developed to developing nations there is an urgent need to establish social compliance as a new form of corporate social responsibility csr and a means by which mncs

can meet expected social standards the cases described are internationally relevant and can be seen to reflect or represent the behavior of many mncs and their suppliers in developing nations the discussion offers essential insights into how different levels of social compliance risk and pressure including broader stakeholder concerns move managers to adopt or embrace particular social compliance accounting reporting and auditing strategies the book will help readers to understand the major concerns challenges and dilemmas faced by management in the supply chains of mncs and proposes measures that can be taken to resolve those dilemmas most importantly it develops a systematic method of assessing the social compliance performance of suppliers to mncs this includes highly detailed accounts of the social compliance performance of suppliers within the clothing industry in a developing nation that supply goods to the extensive us and european markets the book offers a valuable guide not only for corporate managers but also for practitioners researchers academics and undergraduate and postgraduate business students

Australian Financial Accounting 1995

this book explores recent developments in the theory strategic perspective and international practice of corporate social responsibility in particular it discusses the consequences of the economic slowdown apparent in many economies and the impact of changes in the regulatory environment it consists of three parts part one addresses a variety of theoretical approaches as well as the dynamics and criticism of corporate social responsibility it takes into account social and governmental expectations for the new and extended role of companies in the economy and in society and provides a new context and theoretical assumptions regarding the functions and tasks of corporate social responsibility part two discusses the practical aspects relating to strategic management and corporate governance corporate disclosure and reporting as well as the empowerment of stakeholders lastly part three focuses on the international practice of corporate social responsibility in various organizational and institutional settings using numerous case studies the book explores the challenges and tasks of csr in emerging markets in the fashion industry and in global and family companies it identifies the changes that can be detected following the financial crisis closing the loop and linking the empirical findings with the revised theoretical framework

Australian Financial Accounting 2010

in recent years corporate social responsibility csr reporting in china has been experiencing a rapid development and the number of social reports issued by chinese enterprises shows a sharp increasing trend this book investigates the evolution of such reporting practice in the country and the reasons behind it in addition it also examines the reporting quantity and quality of chinese enterprises by applying the gri global reporting initiative as an evaluation tool in response to policy documents so as to obtain the government s recognition and to strive for more resources state owned enterprises private enterprises and foreign invested companies have made substantial efforts in social reporting in terms of quantity and coverage however it appears that there is still room for enhancing the quality of disclosure the book also highlights the central government s economic political and social roles in promoting encouraging and controlling the development of csr reporting

Intermediate Financial Accounting 2013

the management and balancing of social environmental and economic sustainability is one of the most complex and urgent challenges facing both private and public sector organizations today with these challenges of sustainability posing many risks to and many opportunities for advancing the aims and performance of organizations accounting and accountability processes and practices provide key tools to help organizations to more effectively identify and manage the risks and opportunities of sustainability popular features from the first edition are retained whilst recent developments in theory and practice are accounted for new substantive chapters on water resource accounting carbon accounting and decision making have been introduced and the book continues to benefit from a host of expert contributors from around the world including jesse dillard rob gray craig deegan this comprehensive and authoritative textbook will continue to be a key resource for students of accounting and sustainability as well as being a vital tool for researchers
