Saving Societies From Within Knowledge Evolution and Societal Transformations

Saving Societies From Within 2024-02-12 moving beyond existing models from economics and political science this book shows how crises in capitalism and democracy can be solved with systemic coordinated inter organizational networks it offers a new model of societal coordination that builds cooperation and trust while solving today s modern and complex practical problems systemic coordinated inter organizational networks scions it details how scions can quickly catalyze organizational change among interorganizational network members while providing a general framework for characterizing individual and organizational change the chapters apply these theoretical ideas in an epic case study of the rebuilding of the health care system in rural nicaragua after a major natural disaster hurricane mitch they provide lessons for public health program managers while contributing to the literatures on modes of coordination and on social capital the book is a vital text for upper division courses on management inter organizational collaboration crisis management and public health

Knowledge Evolution and Societal Transformations 2020-04-30 knowledge evolution punctuates the previous equilibrium of society and requires us to develop adaptive solutions one new rule is that as the discovery of new knowledge grows more difficult more complex organizational and institutional arrangements have to be adopted knowledge growth is accelerating because not only are there more creative individuals and organizations developing radical innovations but also innovative regions are facilitating both of these trends the discussion of four social regions and the kinds of selves produced help explain partisan divides and integrate the social psychological literature the growth in knowledge produces two kinds of social changes in the nature of the social structure and the kinds of institutional problems that have to be solved the discussion of changes in the stratification system in the choice of organizational form and in the spread of inter organizational networks with tight connections heterogeneous social capital allows us to update marx weber and durkheim the new adaptive problems include growing inefficiencies in labor product and public markets and the failure of many existing programs the proposed solutions are the creation of coordinated systemic networks in each of these areas which integrates the comparative institutional literature neoclassical economics and political science
