

Free epub Nstm chapter 555 Copy

over 1 600 total pages 14097 fire controlman supervisor covers fire controlman supervisor responsibilities organization administration inspections and maintenance supervision and training combat systems subsystems and their maintenance and weapons exercises 14098 fire controlman volume 01 administration and safety covers general administration technical administration electronics safety and hazardous materials as they pertain to the fc rating 14099a fire controlman volume 02 fire control systems and radar fundamentals covers basic radar systems fire control systems and radar safety as they relate to the fire controlman rating 14100 fire controlman volume 03 digital data systems covers computer and peripheral fundamentals and operations configurations and hardware operator controls and controlling units components and circuits central processing units and buses memories input output and interfacing instructions and man machine interfaces magnetic tape storage magnetic disk storage cd rom storage printers data conversion devices and switchboards 14101 fire controlman volume 04 fire control maintenance concepts introduces the planned maintenance system and discusses methods for identifying and isolating system faults liquid cooling systems used by fire controlmen battery alignment purpose equipment and alignment considerations and radar collimation 14102 fire controlman volume 05 display systems and devices covers basic display devices and input devices associated with navy tactical data systems as used by the fc rating 14103 fire controlman volume 06 digital communications covers the fundamentals of data communications the link 11 and link 4a systems and local area networks 14104a fireman provides information on the following subject areas engineering administration engineering fundamentals the basic steam cycle gas turbines internal combustion engines ship propulsion pumps valves and piping auxiliary machinery and equipment instruments shipboard electrical equipment and environmental controls over 1 300 total pages 14086a electronics technician volume 1 safety and administration this is the first volume in the et training series covers causes and prevention of mishaps handling of hazardous materials identifies the effects of electrical shock purpose of the tag out bill and personnel responsibilities documents and procedures associated with tag out and identifies primary safety equipment associated with et work provides an overview of general and technical administration and logistics included are descriptions of forms and procedures included in the maintenance data system mds and publications that should be included in a ship s technical library also included is a basic description of the naval supply system and cosal this volume combines the previous et volumes 1 2 and has been updated 14087 electronics technician volume 02 administration obsolete no further enrollments allowed provides an overview of general and technical administration and logistics included are descriptions of forms and procedures included in the maintenance data system mds and publications that should be included in a ship s technical library also included is a basic description of the naval supply system and cosal 14088 electronics technician volume 03 communications systems provides operations related information on navy communications systems including sas tempest satellite communications links 11 4 a and 16 the c2p system and a basic introduction to local area networks lans 14089 electronics technician volume 04 radar systems provides a basic introduction to air search surface search ground controlled approach and carrier controlled approach radar systems included are basic terms associated with radar systems descriptions of equipment that compose the common systems descriptions of radar interfacing procedures and equipment and primary radar safety topics 14090 electronics technician volume 05 navigation systems introduces the primary navigation systems used by u s navy surface vessels it provides a basic introduction to and explanation of the ship s inertial navigation system sins the u s navy navigation satellite system nnss and the navstar global positioning system gps and associated equipment it then provides an introduction to and explanation of the tactical air navigation system tacan and its associated equipment the information provided is written at an introductory level and is not intended to be used by technicians for diagnoses or repairs 14091 electronics technician volume 06 digital data systems covers the following subject matter on computers and peripherals fundamentals and operations configurations and hardware operator controls and controlling units components and circuits central processing units and buses memories input output and interfacing instructions and man machine interfaces magnetic tape storage magnetic disk storage cd rom storage printers data conversion devices and switchboards 14092 electronics technician volume 07 antennas and wave propagation covers a basic introduction to antennas and wave propagation it includes discussions about the effects of the atmosphere on rf communications the various types of communications and radar antennas in use today and a basic discussion of transmission lines and waveguide theory 14093 electronics technician volume 08 support systems provides a basic introduction to support systems liquid cooling dry air ac power distribution ship s input and information transfer it includes discussions on configuration operation and maintenance of these systems over 4 000 total pages just a sample of the contents obstetrics and newborn care i 185 pages obstetrics and newborn care ii 260 pages operational obstetrics gynecology the health care of women in military settings 2nd edition standard version 259 pages operational obstetrics gynecology the health care of women in military settings 2nd edition field version 146 pages medical examinations and standards 353 pages physical examination techniques 149 pages gynecological exam presentation 81 pages gynecological infections and abnormalities presentation 76 pages assessment of pregnancy and estimating date of delivery presentation 23 pages reproductive and developmental hazards a guide for occupational health professionals 136 pages medical surveillance procedures manual and medical matrix edition 7 354 pages sexual health primer 70 pages fleet medicine pocket reference 1999 70 pages occupational medicine field operations manual 120 pages readiness guide for female airmen 32 pages
