this book is a printed edition of the special issue acupuncture basic research and clinical application that was published in medicines during the turbulent 1960s the city of new orleans experienced unprecedented economic growth racial tensions and desegregation political realignment and natural disaster presiding over this period of sweeping change was mayor victor h schiro 1904 1992 an unassuming moderate democrat who sought the best for his city and adhered strictly to the rule of law in a region where laissez faire was standard practice and hardened defiance was a social norm schiro sought fairness for all and navigated a gauntlet of conflicting pressures african americans sought their civil rights and whites resisted the new racial environment despite vigorous opposition and an unfriendly press schiro won election twice under his direction the city experienced numerous municipal reforms the inclusion of african americans in executive positions and the broad extension of city services the mayor a businessman recruited new corporations for his city heralded the development of new orleans east and brought major professional sports to the crescent city he also initiated the plans for the construction of the superdome at the height of this activity hurricane betsy devastated new orleans in response schiro coordinated with the federal government to initiate rescue and recovery at a rapid pace in the aftermath he lobbied congress for relief funds that set the precedent for national federal flood insurance energy medicine east and west a natural history of qi provides a unique comprehensive overview of qi or bioenergy for students and practitioners of energy medicines chinese and oriental medicine and all disciplines of complementary and integrative medicine mayor and micozzi start with a comparative historical account of the ancient concepts of qi and vital energy before covering theories of qi a discussion of the organized therapeutic modalities based upon qi and its applications to specific health and medical conditions contributions are included from international experts in the field the book moves from anatomical and bioenergetic complementarity of western vital energy and eastern qi through convergence of perspectives and models to demonstrations of how the traditional therapies are being melded together in a new
